Egypt as a Woman Beth Baron, 2005-02-28 This original and historically rich book examines the influence of gender in shaping the Egyptian nation from the nineteenth century through the revolution of 1919 and into the 1940s In Egypt as a Woman Beth Baron divides her narrative into two strands the first analyzes the gendered language and images of the nation and the second considers the political activities of women nationalists She shows that even though women were largely excluded from participation in the state the visual imagery of nationalism was replete with female figures Baron juxtaposes the idealization of the family and the feminine in nationalist rhetoric with transformations in elite households and the work of women activists striving for national independence

Capel, Glenn Markoe, 1996 The first of its kind exhibit cataloged here focuses on the women of Egypt from all levels of society in works compiled strictly from American collections by American curators Because the quantity of written records is limited though enormous in comparison to most early societies there is still much guesswork involved in determining the place women held in Egyptian society It is clear that unlike most ancient and not so ancient societies Egypt conferred on women the legal right to own property and to barter their own goods which means a larger record for current study The essays here are both erudite and fascinating to read the illustrations are clear and well presented in conjunction with the text 117 colour 112 b w illustrations

Women in the Middle East and North Africa Fatima Sadiqi, Moha Ennaji, 2013-09-05 This book examines the position of women in the contemporary Middle East and North Africa MENA region. Although it is culturally diverse, this region shares many commonalities with relation to women that are strong, deep, and pervasive: a space-based patriarchy, a culturally strong sense of religion, a smooth co-existence of tradition and modernity, a transitional stage in development, and multilingualism/multiculturalism. Experts from within the region and from outside provide both theoretical angles and case studies drawing on fieldwork from Egypt, Oman, Palestine, Israel, Turkey, Iran, Tunisia, Algeria, Morocco, and Spain. Addressing the historical socio-cultural, political, economic, and legal issues in the region, the chapters cover five major aspects of women's agency: political agency, civil society activism, legal reform, cultural and social agencies, religious and symbolic agencies. Bringing to light often marginalized topics and issues, the book underlines the importance of respecting specificities when judging societies and hints at possible ways of promoting the MENA region. As such, it is a valuable addition to existing literature in the field of political science, sociology, and women's studies.

Making Women's Histories Pamela S. Nadell, Kate Haulman, 2013-01-07 Examines how women's histories are explored and explained around the world. *Making Women's Histories* showcases the transformations that the intellectual and political production of women's history has engendered across time and space. It considers the difference women's and gender history has made to and within national fields of study and to what extent the wider historiography has integrated this new knowledge. What are the accomplishments of women's and gender history? What are its shortcomings? What is its future? The contributors discuss their discovery of women's histories, the multiple turns the field has taken, and how place affected the course of this scholarship. Noted scholars of women's and gender history stand atop such historiographically defined vantage points as Tsarist Russia, the British Empire in Egypt and India, Qing dynasty China, and the U.S. roiling through the 1960s. From these and other peaks, they gaze out at the world around them, surveying trajectories in the creation of women's histories in recent and distant pasts and envisioning their futures.

History, Women and Gender in the Modern Middle East Lisa Pollard, Mona L. Russell, 2023-12-20 This introductory text explores the gendered history of the modern Middle East from the eighteenth century to the present, studying the various ways in which gender has defined the region and shaped relations in the modern era. The book captures three aspects of change simultaneously: the events that mark the modern Middle East women's encounters with the transition to modernity and gendered responses to modernity. It contains both new fieldwork and a synthesis of secondary scholarship that highlight the role of gender in the modernization of Egypt, Turkey, Iran, the Levant, and the Persian Gulf states. Chapters are organized chronologically to chart the rapid developments of the modern era, but each chapter also stands on its own with coverage of masculinity and femininity, sexuality, marriage, and the family, labor, and

women's contributions to Arab Spring uprisings Through this comprehensive account the book pushes back on stereotypes that the Middle East is an ahistorical region and that women have not been vital actors in the process of change Richly illustrated and accessible for a variety of readers *History Women and Gender in the Modern Middle East* is an ideal resource for undergraduate and postgraduate students in gender studies and Middle Eastern history
