Eighteenth Century Women Poets Roger Lonsdale, Roger H. Lonsdale, 1990 More than 100 women poets of the 18th century are represented in this anthology Written by duchesses ladies and working women the poems speak with vigour and immediacy of the world they lived in and their experiences of town and country *Eighteenth Century Women Poets* Roger H. Verse by Eighteenth-century Women Roger H. Lonsdale, 1989 *Eighteenth-century Women Poets* Charlotte Lamb, 2005 This anthology of over a hundred largely ignored poets opens a new perspective on this age They speak with vigour and immediacy their moods varied from resentful and melancholic to humorous and exuberant writing about their world and their experiences *Nineteenth-century Women Poets* Isobel Armstrong, 1996 Beginning with Anna Laetitia Barbauld's petition to William Wilberforce and ending with the myth making Irish writers of the Celtic revival this major new anthology brings to light diverse female traditions that have for years remained in obscurity While the editors showcase a host of female writers well known in their day Felicia Hemans Elizabeth Barrett Browning and Christina Rossetti they widen the focus to less familiar works by working class colonial and political writers The anthology's chronological progression highlights the development of women's verse from the late Romantic period through the Victorian fin de siècle The editors examine the political formations and cultural groupings to which the women belonged along with the structures which made the development of their work possible in particular the numerous minority journals which allowed them a coherent voice They consider common preoccupations with marriage slavery military conflict national identity and religious and sexual discourses and reveal how styles and genres changed across the century The anthology draws on first editions for texts wherever possible retaining the spelling and punctuation of the originals for a faithful representation

volume of new essays on women's writing and reading in the eighteenth century *Literary Research and the British Eighteenth Century* Peggy Keeran, Jennifer Bowers, 2013-02-21 The 18th century in Britain was a transition period for literature Patronage either by a benefactor or through subscription lingered even as the publishing and bookselling industries developed The practice of reviewing books became well established during the second half of the century with the first periodical founded in 1749 For the literary scholar these gradual changes mean that different search strategies are required to conduct research into primary and secondary source material across the era *Literary Research and the British Eighteenth Century* addresses these unique challenges It examines how the following all contribute to the richness of literary research for this era book and periodical publishing a growing literate society dissemination of literature through salons private societies and coffee houses the growing importance of book reviews the explosion of publishing and the burgeoning of primary source material available through new publishing and digital initiatives in the 21st century This volume explores primary and secondary resources including general literary research guides union library catalogs print and online bibliographies scholarly journals manuscripts and archives 18th century books newspapers and periodicals contemporary reception and electronic texts and journals as well as Web resources Each chapter addresses the research methods and tools best used to extract relevant information and compares and evaluates sources making this book an invaluable guide to any literary scholar and student of the British eighteenth century *Teaching British Women Writers, 1750-1900* Jeanne Moskal, Shannon R. Wooden, 2005 The exuberant recovery from obscurity of scores of British women writers has prompted professors and publishers to revisit publication of women's writings New curricular inclusion of these sometimes quirky often passionate writers profoundly disrupts traditional pedagogical assumptions about what constitutes literature This book addresses this radically changed educational landscape offering practical proven teaching strategies for newly recovered writers both in special topics courses and in traditional teaching environments Moreover it addresses the institutional issues confronting feminist scholars who teach women writers in a variety of settings and the kinds of career altering effects the decision to teach this material can have on junior and senior scholars alike Collectively these essays argue that teaching noncanonical women writers invigorates the curriculum as a whole not only by introducing the voices of women writers but by incorporating new genres by asking new questions about readers assumptions and aesthetic values and by altering the power relations between teacher and student for the better *Women, Writing and the Public Sphere, 1700-1830* Elizabeth Eger, 2001-01-04 An international team of specialists examine the dynamic relation between women and the public sphere *British Poetry and the Revolutionary and Napoleonic Wars* Simon Bainbridge, 2003 This book argues that poetry played a major role in the mediation of the Revolutionary and Napoleonic wars to the British public and that the wars had a significant impact on poetic practices and theories in the Romantic period It examines a wide range of writers both canonical Wordsworth Coleridge and Byron and non canonical Smith Southey Scott and Hemans and locates their work within the huge

amount of war poetry published in newspapers and magazines It shows that poetry was a crucial form through which what were seen as the first modern or total wars were imagined in Britain and that it was central to the cultural and political debates over the conflict with France While the Revolutionary and Napoleonic wars compelled poets to re examine their roles it was poetry itself which produced a major transformation of the imagining of war that would be influential throughout the nineteenth century
