Congress. Senate. Committee on Environment and Public Works,2005      *The Dove and the Dragon* Ed Simon,2025-08-12 No Western religious concept has been as socially culturally economically and politically significant as that of the apocalypse Neither heaven and hell nor sin and salvation nor even God and the devil have merited the attention of billions of people in the manner that belief in the end of the world has Apocalyptic thinking is riven by a fruitful and at times dangerous binary between the hopes for a coming millennium when all shall be perfected or of a fiery deluge when the earth shall be destroyed *The Dove and the Dragon* is the first comprehensive history of Western apocalypticism Ed Simon introduces a new system for classifying movements concerned with the end of history between hopeful millennial doves and violent apocalyptic dragons This framing connects a seemingly disparate phenomenon from medieval millennialism to modern Marxism Reformation apocalypticism to contemporary techno utopianism Expected groups are considered but unexpected phenomena are interpreted through the lens of apocalypticism as well to argue that those that have often been classified as secular still take part in this ancient theological category This new way of interpreting history gives sense to the full scope of apocalypticism as a series of movements and as a genre including not just religion and theology but politics philosophy and pop culture as well *The Dove and the Dragon* promises to be the standard introduction for years to come

**Charles I and the Aristocracy, 1625-1642** Richard Cust,2013-06-13 This is a major study of Charles I's relationship with the English aristocracy Rejecting the traditional emphasis on the Crisis of the Aristocracy Professor Richard Cust highlights instead the effectiveness of the King and the Earl of Arundel's policies to promote and strengthen the nobility He reveals how the peers reasserted themselves as the natural leaders of the political nation during the Great Council of Peers in 1640 and the Long Parliament He also demonstrates how Charles deliberately set out to cultivate his aristocracy as the main bulwark of royal authority enabling him to go to war against the Scots in 1639 and then build the royalist party which provided the means to fight parliament in 1642 The analysis is framed throughout within a broader study of aristocratic honour and the efforts of the heralds to stabilise the social order

**Making Murder Public** K. J. Kesselring,2019-01-10 Homicide has

a history In early modern England that history saw two especially notable developments one the emergence in the sixteenth century of a formal distinction between murder and manslaughter made meaningful through a lighter punishment than death for the latter and two a significant reduction in the rates of homicides individuals perpetrated on each other Making Murder Public explores connections between these two changes It demonstrates the value in distinguishing between murder and manslaughter or at least in seeing how that distinction came to matter in a period which also witnessed dramatic drops in the occurrence of homicidal violence Focused on the politics of murder Making Murder Public examines how homicide became more effectively criminalized between 1480 and 1680 with chapters devoted to coroners inquests appeals and private compensation duels and private vengeance and print and public punishment The English had begun moving away from treating homicide as an offence subject to private settlements or vengeance long before other Europeans at least from the twelfth century What happened in the early modern period was in some ways a continuation of processes long underway but intensified and refocused by developments from 1480 to 1680 Making Murder Public argues that homicide became fully public in these years with killings seen to violate a king s peace that people increasingly conflated with or subordinated to the public peace or public justice

**Turncoats and Renegadoes** Andrew Hopper,2012-11-15 Turncoats and Renegadoes is the first dedicated study of the practice of changing sides during the English Civil Wars It examines the extent and significance of side changing in England and Wales but also includes comparative material from Scotland and Ireland The first half identifies side changers among peers MPs army officers and common soldiers before reconstructing the chronological and regional patterns to their defections The second half delivers a cultural history of treachery by adopting a thematic approach to explore the social and cultural implications of defections and demonstrating how notions of what constituted a turncoat were culturally constructed Side changing came to dominate strategy on both sides at the highest levels Both sides reviled yet sought to take advantage of the practice whilst allegations of treachery came to dominate the internal politics of royalists and parliamentarians alike The language applied to turncoats and renegadoes in contemporary print is discussed and contrasted with the self justifications of the side changers themselves as they sought to shape an honourable self image for their families and posterity Andrew Hopper investigates the implementation of military justice along with the theatre of retribution surrounding the trial and execution of turncoats He concludes by arguing that far from side changing being the dubious practice of a handful of aberrant individuals it became a necessary survival strategy for thousands as they navigated their way through such rapidly changing events He reveals how side changing shaped the course of the English Revolution even contributing to the regicide itself and remained an important political legacy to the English speaking peoples thereafter

*Androids and Intelligent Networks in Early Modern Literature and Culture* Kevin LaGrandeur, 2013 This book explores the creation and use of artificially made humanoid servants and servant networks by fictional and non fictional scientists of the early modern period Beginning with

an investigation of the roots of artificial servants humanoids and automata from earlier times LaGrandeur traces how these literary representations coincide with a surging interest in automata and experimentation and how they blend with the magical science that proceeded the empirical era These representations eerily prefigure modern robots androids and artificially intelligent networks and the art that is responsible for their creation blurs the edges between magic and science in a way that resonates especially with modern notions of cybernetics In the instances that this book considers the idea of the artificial factotum is connected with an emotional paradox the joy of self enhancement is counterpoised with the anxiety of self displacement that comes with distribution of agency In this way the older accounts of creating artificial slaves are accounts of modernity in the making a modernity characterized by the project of extending the self and its powers in which the vision of the extended self is fundamentally inseparable from the vision of an attenuated self This book discusses the idea that fictional artificial servants embody at once the ambitions of the scientific wizards who make them and society's perception of the dangers of those ambitions and represent the cultural fears triggered by independent experimental thinkers the type of thinkers from whom our modern cyberneticists descend *The British Journal of Photography* ,2006

Cardiganshire County History Volume 2 Geraint H. Jenkins, Richard Suggett, Eryn Mant White, 2019-09-15 Cardiganshire County History Volume 2 is published by the University of Wales Press on behalf of the Ceredigion Historical Society in association with the Royal Commission on the Ancient and Historical Monuments of Wales This volume provides a comprehensive and authoritative account written by distinguished authors in fifteen chapters of the wide range of social economic political religious and cultural forces that shaped the ethos and character of the county of Cardiganshire over a period of 600 years This was a period of great turbulence and change It witnessed conquest and castle building the impact of the Glyndŵr rebellion the coming of the Protestant Reformation and the turmoil of civil war Over time the inhabitants of the county developed a sense of themselves as a distinctive people who dwelt in a recognisable entity From very early on literate people took pride in their native patch in the eyes of the learned Sulien d 1091 and his sons the land of Ceredig was a sacred patria Poets and scribes burnished the reputation of the county and a vibrant poem by Sir John Morys in 1577 maintained that it was the best of shires and the fold of the generous ones
