Particular emphasis is given to sociological canon theories which have so far been under represented in canon research in children s literature The volume therefore relates historical changes in the canon of children s literature not only to historical changes in concepts of childhood but to more encompassing political social economic cultural and ideological shifts This volume s comparative approach takes cognizance of the fact that if canon formation is an important cultural factor in nation building processes a comparative study is essential to assessing transnational processes in canon formation This book thus renders evident the structural similarities between patterns and strategies of canon formation emerging in different children s literatures
