Spanish New York Narratives 1898-1936 David Miranda-Barreiro, 2017-07-05 In the early decades of the twentieth century New York caught the attention of Spanish writers Many of them visited the city and returned to tell their experience in the form of a literary text That is the case of *Pruebas de Nueva York* 1927 by Jose Moreno Villa 1887 1955 *El crisol de las razas* 1929 by Teresa de Escoriaza 1891 1968 *Anticipolis* 1931 by Luis de Oteyza 1883 1961 and *La ciudad automatica* 1932 by Julio Camba 1882 1962 In tune with similar representations in other European works the image of New York given in these texts reflects the tensions and anxieties generated by the modernisation embodied by the United States These authors project onto New York their concerns and expectations about issues of class gender and ethnicity that were debated at the time in the context of the crisis of Spanish national identity triggered by the end of the empire in 1898 *Tarsila Do Amaral* Tarsila, Aracy A. Amaral, 2009 se publica con motivo de la exposicion Tarsila do Amaral Fundacion Juan March Madrid Del 6 de febrero al 3 de mayo de 2009 P 286 *Mother & Myth in Spanish Novels* Sandra J. Schumm, 2011-08-05 Remembering the forgotten mother is a major theme in *Myth and Mother* in Spanish Novels and reflects the current interest in the recuperation of historic memory in Spain The novels in this study feature mature protagonists who recall their mothers as a way to define their own identities and to nullify the fictional matricide prevalent in post war Spanish novels this twenty first century fiction highlights the haunting presence of the mother and begs comparison with myth **Forth and Back** Cintia Santana, 2013-06-27 *Forth and Back* broadens the scope of Hispanic trans Atlantic studies by shifting its focus to Spain s trans literary exchange with the United States at the end of the twentieth century Santana analyzes the translation boom of U S literature that marked literary production in Spain after Franco s death and the central position that U S writing came to occupy within the Spanish literary system Santana examines the economic and literary motives that underlay the phenomenon as well as the particular socio cultural appeal that U S dirty realist writers which in Spain included authors as diverse as Charles Bukowski Raymond Carver and Bret Easton Ellis held for Spaniards in the 1980s Santana also studies the subsequent appropriation of this writing by a polemic group of young Spanish writers in the 1990s who self consciously and insistently associated themselves with the U S *Forth and Back* illustrates that literary movements do not unilaterally spread rather those that flourish take root in fertile soil and are transformed in their travel by the desires creative choices and practical constraints of their differing producers and consumers It is precisely in the crossing of these currents that plots thicken The translation of dirty realism its reception in Spain and its cultural legacy as appropriated by the young Spanish writers serve to interrogate a perceived U S hegemony If Spanish *realismo sucio* has been said to be symptomatic of the globalization of literature *Forth and Back* argues that the Spanish works in question posed a subtle reaffirmation of Spanish literature s strong ties to realist fiction a gesture of continuity in a decade that seemed to presence the undoing of much of Spain s Spanish ness Ultimately this project asks an ambitious pair of questions at the heart of human culture how do we

read each other quite literally across geography and language How do we construct others and ourselves vis vis those readings *Remaining in Light* John Taggart,1993-01-01 This is the first sustained critical examination of the work of Edward Hopper a major twentieth century American painter It is a sequence of meditations on his painting *A Woman in the Sun* Each meditation informed by Derrida s conception of the supplement is about both the painting and about the nature of the reading process **A Head Start on Picturing America, Resource Guide** ,2009 **The Spanish Hermes and Wisdom Traditions in Medieval Iberia** Juan Udaondo Alegre,2024-11-05 A captivating study of translation adaptation and intellectual cross pollination that situates the Castilian Hermes in the center of medieval Mediterranean cultural exchange Hermes Trismegistus a Hellenistic conflation of the Greek Hermes god of interpretative wisdom and the Egyptian Thoth god of wisdom was considered by many in the medieval world as the father of culture Between c 300 BCE c 1200 CE various treatises were attributed to the legendary sage becoming known as the Hermetica a combination of diverse philosophical and spiritual systems addressing subjects such as alchemy magic and astrology The Hermetica circulated widely with premodern translations in Latin Hebrew Syriac Persian Arabic and other Eastern languages Whilst these iterations have been thoroughly researched little attention has been paid to the Castilian Hermes the first rendition of the wisdom traditions of Hermes Trismegistus in a Romance language This book follows the ways in which Hermetic knowledge was brought to the Iberian Peninsula showing how Hermes became the philosophical and spiritual inspiration for Christian Arabic and Jewish scholars there Udaondo Alegre unveils the pivotal role of King Alfonso X the Learned of Castile 1252-84 in creating this Spanish Hermes Through the meticulous tracing of source texts and literary influences the author explores the myriad ways in which Hermes crossed religious and linguistic boundaries to embody a composite intellectual identity emblematic of medieval Spain s multicultural ethos Alfonso s court is revealed as the site for a unique convergence of translation and interpretation that shaped a distinctly Hispanic Hermes **Translation Changes Everything** Lawrence Venuti,2013 In *Translation Changes Everything* leading theorist Lawrence Venuti gathers fourteen of his incisive essays since 2000 The selection sketches the trajectory of his thinking about translation while engaging with the main trends in research and commentary The issues covered include basic concepts like equivalence retranslation and reader reception sociological topics like the impact of translations in the academy and the global cultural economy and philosophical problems such as the translator s unconscious and translation ethics Every essay presents case studies that include Venuti s own translation projects illuminating the connections between theoretical concepts and verbal choices The texts drawn from a broad variety of languages are both humanistic and pragmatic encompassing such forms as poems and novels religious and philosophical works travel guidebooks and advertisements The discussions all explore practical applications whether writing publishing reviewing teaching or studying translations Venuti s aim is to conceive of translation as an interpretive act with far reaching social effects at once enabled and constrained by specific cultural situations This latest chapter in his developing work is essential

reading for translators and students of translation alike **The Life of the Soul in Early Modern Spanish Literature and Culture** Esther Fernández, 2025-04-07 Understanding the soul's essence is an elusive pursuit rendering any attempt to write about it akin to grasping at a mirage. As a sublime subject, the soul has captivated human thought for centuries. How do we approach it? How can we define its boundaries? This exploration offers an experimental investigation into the soul's complexities during one of Spain's most turbulent periods: the dawn of modernity. Set against the spiritual backdrop of the 17th century, these reflections examine how materiality ensnared individuals in artifice, often neglecting expansionism's social and political consequences. The Twelve Years Truce (1609) and the Thirty Years War (1618-1648) marked critical moments of instability, further compounded by economic depression and social turmoil. In this landscape of despair, the Spanish soul sought refuge inwardly and through indulgence in worldly pleasures. Through metaphysical inquiry, emotional depth, and the role of animated matter in art and theater, this book reflects on existence amid the illusions of early modern Spain.

Relating Events Narrative Set Various Authors, 2020-12-29 This volume represents the culmination of an extensive research project that studied the development of linguistic form-function relations in narrative discourse. It is unique in the extent of data which it analyzes: more than 250 texts from children and adults speaking five different languages and in its crosslinguistic typological focus. It is the first book to address the issue of how the structural properties and rhetorical preferences of different native languages (English, German, Spanish, Hebrew, and Turkish) impinge on narrative abilities across different phases of development. The work of Berman and Slobin and their colleagues provides insight into the interplay between shared, possibly universal patterns in the developing ability to create well-constructed, globally organized narratives among preschoolers from three years of age compared with school children and adults, contrasted against the impact of typological and rhetorical features of particular native languages on how speakers express these abilities in the process of relating events in narrative. This volume also makes a special contribution to the field of language acquisition and development by providing detailed analyses of how linguistic forms come to be used in the service of narrative functions such as the expression of temporal relations of simultaneity and retrospection, perspective taking on events, and textual connectivity. To present this information, the authors prepared in-depth analyses of a wide range of linguistic systems, including tense, aspect, marking, passive and middle voice, locative and directional predication, connectivity markers, null subjects, and relative clause constructions. In contrast to most work in the field of language acquisition, this book focuses on developments in the use of these early forms in extended discourse beyond the initial phase of early language development.

Presence Robert W. Greene,2022-04-11 Yves Bonnefoy's writings have won him praise not only from readers and critics of French poetry but also thanks to translations into many other languages from readers and critics of poetry far beyond the francophone world Indeed Bonnefoy may be the most admired poet to have emerged in France since World War II Yet his art criticism dazzling in its scope possibly as original as his poetry is yet to receive the attention it deserves *Searching for Presence* Yves Bonnefoy's Writings on Art undertakes to fill that lacuna Elusive skirting the ineffable the notion of presence has haunted Bonnefoy for decades Central to the notion for the poet is the fleeting experience of mutuality between self and other of lightning transaction in a transient world of a shared mortal destiny hence a plenitude within finitude In an age when so many of his contemporaries seem to view any form of art as wallpaper spanning a void Bonnefoy's faith in presence is all the more welcome Focusing on his art criticism the aspect of the poet's oeuvre in which the notion of presence is the most salient this study tries to do justice to that fidelity **The Embarrassment of Being Human** Benjamin

Boysen,2024-12-24 With the message that everything in a sense is alive thus allowing us to join forces with new politico ethical communities stretching across human and nonhuman realms the new materialisms have captivated the minds of many academics artists and intellectuals by stressing that it is time to return to a premodern mindset and discard modernity and its concepts of secularization autonomy and finitude The Embarrassment of Being Human not only demonstrates how these magical materialisms are beset by grave theoretical and practical inconsistencies and self contradictions It also demonstrates how their demand for humans to step down and allow for an emancipation of things qualifies the new materialisms as a metaphysics of neoliberalism that reproduces and fortifies the self contradictions rampant in the current neoliberal hegemony While helping us to gain a comprehensive understanding of the tenets of the eerie ills of our epoch the critique of the new materialisms can furthermore inspire us to appreciate how the exact inversion of the new materialist complex amounts to a revitalization of the modern project A revitalization that is critical to think our epoch differently **New Analyses in Romance Linguistics** Dieter Wanner,Douglas A. Kibbee,1991-03-15 The twenty papers from the eighteenth Linguistic Symposium on Romance Languages deal with diverse aspects of the Romance languages and Romance linguistics

They reflect the current state of Romance studies in North America and of the particular outlook among the international group of contributors and participants to LSRL 18 The thriving research front accords central importance to formal questions of synchronic analysis The group of seven historical and typological papers amounts to a strong alternative Several papers treat the group of Romance languages not only as a well defined almost exclusive research province but move from Romance phenomena outward to other language types even to genuinely universal dimensions Other contributions maintain a more circumscribed outlook exploiting the typological closeness of the Romance idioms for improved analyses Three invited contributions by Georg Bossong Yves Charles Morin and Maria Luisa Rivero on typological phonological and syntactic questions set the tone for the volume
