Anthony V. Pugliese, 2020-03-30 Bad things happen to good people as much as anyone else Sometimes good things happen to the bad too There s no middle ground The universe doesn t discriminate between those we believe are saints and those we view as sinners Think about all those so called evangelists who had fallen due to scandals Don t forget the criminals who reformed and became successful by writing books doing interviews and starring in movies We are all half saint half sinner No one is completely bad or good We live in a society often devoid of compassion harmony and fairness and a chock full of distractions and temptations No one is immune The urge to succumb to the tiny devil which speaks to us from within our psyche can be so powerful even so called saints can break bad The characters in this book are neither saints nor sinners All will face unearthly terrors in the form of bioluminescent cats spiteful witches killer insects and other horrors All will teeter within an otherworldly realm traipse a thin tightrope between daylight and shadow and be changed forever All things truly wicked start from innocence and within these pages all become the truly wicked All Things Truly Wicked Tales of Sinners Saints Science and the Supernatural is a compilation of short stories by Anthony V Pugliese that explores the complex workings of the human mind and the darker aspects of human nature The book features a range of genres including horror science fiction and the metaphysical and they all contain unexpected twists and turns that will keep readers guessing until the end For instance a chapter in the book might initially give the impression of being a crime thriller but then suddenly shift into the realm of the paranormal Throughout the book Pugliese isn t afraid to explore disconcerting themes and topics resulting in chilling tales that provoke reflection It is also important to note that some of the scenes in the book are quite graphic in their depiction For example Her eyes were wide with fear and anguish She beckoned for help as the behemoth rat violated her with vigorous force The author uses different techniques to build a haunting and powerful story He draws on elements of religion such as Jesus Christ specific vocabulary such as la amada de Dios folklore such as gremlins and Krampus and scientific concepts such as tardigrades to create a particular atmosphere Adding believability to the fictional world they are creating Pugliese s writing style is atmospheric his characters are well rounded each with motivations and desires This makes it easy for the reader to become invested in their stories and root for them even when they re not necessarily good They feel like real people with real life problems such as this excerpt I found someone else Another woman No Her eyes kept staring forward no blinking no emotion Her next words seemed rehearsed I m involved with a man All Things Truly Wicked Tales of Sinners Saints Science and the Supernatural is a collection of short stories that intertwine psychological exploration with unsettling imagery It will appeal to horror science fiction and supernatural fans This work of fiction offers something for every type of reader Stories that will leave a lasting impression on the reader staying with them even after finishing the book The Moving Words Review [themovingwords.com](http://themovingwords.com)     *The Junior Bookshelf*, 1983     *Your Reading* Jane Christensen, National
