INFORMATION SYSTEMS MANAGEMENT IN BUSINESS AND DEVELOPMENT ORGANIZATIONS

HAREKRISHNA MISRA,2013-06-03 Management Information Systems MIS has fast emerged as a multi disciplinary area having strategic interfaces to achieve organizational objectives This comprehensive book discusses the underlying principles of business and development organizations identifies their core areas and prescribes approaches to develop MIS Divided into five parts Part I Understanding Organizations for MIS deals with organizational issues and focuses on the rationale behind creating organizations especially business and development organizations to understand their distinguishing features Part II Systems Approach to Organizations covers conceptualization identification design and development of Information System IS for the organization in order to have better systems in place to support organizational goals Part III Understanding MIS discusses the relevance of MIS in organizations and the forms it can take to meet the strategic needs of the respective organizations Part IV Understanding Information Technologies describes possible approaches to plan identify and deploy ICT in the acquiring organizations and provides insight into the barriers that creep in during identification and deployment of IS and ICT keeping in view the organizational objectives Part V Planning and Implementation of MIS concludes with a discussion on preparation of MIS plan and issues related to its implementation The book is intended for the postgraduate students of management specializing in rural management and IT Key Features Describes life cycle approach and systems approach to organizations Contains a large number of case studies Provides real life examples to put the concepts in the right perspective Quality Decision Management -The Heart of Effective Futures-Oriented Management E.G.

Frankel,2008-12-21 Over the years I have worked with or consulted for many managers throughout the world at all levels of

industry and government I have seen who succeeded achieved goals and made progress and who failed or crashed I have studied their methods of operation and their decision making approach as well as the range of people involved in the decision making I similarly personally managed large industrial and service organizations and their operations and found that to succeed and have a content team of collaborators decision making had to be joint and delegated to the lowest competent and informed level Using this approach not only improved the performance of the organization or firm but also resulted in a more content professional cooperative happy and competent workforce In general people like to assume responsibility particularly of functions with which they are intimately familiar They enjoy the role of decision maker and the use of their knowledge and experience in guiding their and related work Delegation of decision making not only infuses pride and contentment but also assures more informed timely and effective implementation of decisions It also adds to worker training and education as workers inquire develop information and use of their own experience in improving their decision making Worker pride and feeling of control and involvement lead to contentment and satisfaction which in return pays dividends in worker productivity morale retention and resulting low turnover

The Practice of Management, 1980 Management Guidance for Developing and Installing an ADP Performance Management Program United States. Automated Data and Telecommunications Service, 1978
