Effects Of A Choice Auto Insurance Plan On Insurance Costs:

The Effects of a Choice Auto Insurance Plan on Insurance Costs and Compensation Stephen J. Carroll, Allan F. Abrahamse, Rand Corporation, Institute for Civil Justice (U.S.), 2000 The authors estimate the effects of offering the drivers in each state a choice between their state's current insurance system and an absolute no fault plan in which motorists neither recover nor are liable for noneconomic loss for any auto accident injury If insurance premiums are proportional to compensation costs drivers who choose absolute no fault should save about 45 percent on their premiums for personal injury coverage This translates into about 21 percent savings on their total auto insurance bill Drivers who choose to stay in their state's current insurance plan will generally realize small savings The Effects of a Choice Auto Insurance Plan on Insurance Costs Allan F. Abrahamse, Stephen J. Carroll, 1995 Choice auto insurance would let drivers choose between traditional auto insurance and a no fault plan This report estimates how choice auto insurance would affect auto insurance costs in each state *The Effects of a Choice Automobile Insurance Plan on Insurance Cost and Compensation* Stephen J. Carroll, Allan F. Abrahamse, 1998 No fault automobile insurance plans offer cost savings and speedier more certain compensation to auto accident victims but for motorists to obtain those benefits the state must deny them traditional tort rights unless the costs or nature of their injuries exceeds a specified threshold **Automobile Insurance Reform** United States. Congress. Joint Economic Committee, 1997 **The Economics and Politics of Choice No-Fault Insurance** Edward L. Jr. Lascher, Michael R. Powers, 2012-12-06 In recent years choice no fault has emerged as a popular but controversial proposal for addressing the problem of high automobile insurance rates Choice plans offer consumers the option of a lower cost insurance policy with restrictions on filing lawsuits or a higher cost policy with full tort rights Some American states have implemented choice programs and major federal choice legislation is now pending in the United States Congress Choice no fault has caught the attention of policy makers the insurance industry and academics Until now however no single book has pulled together the available research on the topic *The Economics and Politics of Choice No Fault Insurance* fills that gap Edited by scholars from different disciplines each of whom has written extensively on automobile insurance issues the book includes some of the best work in the area Former Massachusetts Governor and presidential candidate Michael S Dukakis wrote the foreword Contributors include University of Virginia Law Professor Jeffrey O Connell widely considered the father of no fault as well as authors of the influential RAND study of the potential effects of choice no fault on insurance rates The book chapters most of which were written especially for this volume cover topics ranging from the impact of choice no fault on accidents and driving behavior to the effects of choice on medical care usage to alternative approaches for resolving accidents involving both no fault and tort electors to the political feasibility of choice legislative proposals Emphasis on the potential advantages of choice no fault is balanced by consideration of possible ill effects The Auto Choice Reform Act of 1997 United States. Congress. Senate. Committee on Commerce, Science, and

Transportation,1999 Auto Insurance Reform United States. Congress. Senate. Committee on Commerce, Science, and Transportation,2001 *Handbook of Law and Economics* A. Mitchell Polinsky,Steven Shavell,2007-11-07 Law can be viewed as a body of rules and legal sanctions that channel behavior in socially desirable directions for example by encouraging individuals to take proper precautions to prevent accidents or by discouraging competitors from colluding to raise prices The incentives created by the legal system are thus a natural subject of study by economists Moreover given the importance of law to the welfare of societies the economic analysis of law merits prominent treatment as a subdiscipline of economics Our hope is that this two volume Handbook will foster the study of the legal system by economists The two volumes form a comprehensive and accessible survey of the current state of the field Chapters prepared by leading specialists of the area Summarizes received results as well as new developments **The U.S. Experience with No-Fault Automobile Insurance** James M. Anderson,Paul Heaton,Stephen J. Carroll,2010-02-15 No fault regimes a formerly popular alternative to the tort compensation system for auto accident victims have gradually lost support Over time premiums and claim costs have grown in no fault states relative to other states primarily driven by explosive medical cost increases No fault and tort states have also converged across many domains affecting costs including excess claiming litigation patterns and noneconomic damage payments **The Effects of a Choice Automobile Insurance Plan on Insurance Costs and Compensation** Stephen J. Carroll,Allan F. Abrahamse,1999 This study uses data on insurance claims closed in 1997 to estimate how a choice auto insurance plan which gives drivers the option of selecting a somewhat modified version of their state s current auto insurance plan or a no fault plan would affect auto insurance costs **Effects of an Auto-choice Automobile Insurance Plan on Costs and Premiums** Stephen J. Carroll,1997 This publication contains the written statement of Stephen Carroll delivered on March 19 1997 to the Joint Economic Committee of the United States Congress The statement draws on several RAND Institute for Civil Justice studies of choice auto insurance plans The studies estimated the cost effects of giving policyholders a choice between absolute no fault and the current insurance system in each state Absolute no fault means that policyholders neither recover nor are liable for noneconomic loss for any auto accident injury Key findings In most states the compensation costs for personal injury coverages insurers incur on behalf of policyholders who choose absolute no fault should be reduced about 60 percent on average compared to what they would have been under the current system If insurers pass on these savings to policyholders this translates into a roughly 30 percent reduction in total auto insurance premiums The plan will have little effect on policyholders who opt for coverage under their state s current system **The Effects of a Proposed No-fault Plan on the Costs of Auto Insurance in California** Stephen J. Carroll,1996 **Research Handbook on the Economics of Torts** Jennifer Arlen,2013-11-29 Focusing on issues of vital importance to those seeking to understand and reform the tort system this volume takes a multi disciplinary approach including theoretical economic analysis empirical analysis socio economic analysis and behavioral anal Highway Robbery Peter Kinzler,2021-06-23 In Highway Robbery

Peter Kinzler delivers a fast paced behind the scenes account of two federal legislative efforts twenty years apart one from the political left and one from the right to reform America s auto insurance system to make it fairer and more affordable He explains how the legislation was designed to achieve those objectives and describes the political challenge of trying to overcome the entrenched special interest opposition of those who stood to lose billions trial lawyers and insurers if the new no fault system were adopted Highway Robbery provides readers with both a primer on how fault and liability auto insurance no fault and no fault choice insurance policies work and who benefits most from which system Peter Kinzler with years of experience as a congressional staffer and in the private sector is the perfect guide through these important policy and political fights enlivened with revealing firsthand sketches of the legislators staffers academics and lobbyists who played major roles in these attempts as well as their interplay with each other Drawing upon his decades of engagement with the issues Kinzler shows how thoughtful and skilled members of Congress good staff and thorough academic research can lay the groundwork for important reform legislation in doing so he provides a model for restoring Congress s effectiveness whenever it chooses to resume exercising its constitutional authority as the legislative branch of government Highway Robbery details how the trial bar used the levers of political power first to undermine state no fault laws and then to use the weaknesses they had implemented in the laws to undermine passage of federal legislation It also describes the surprising alliance in opposition between the trial bar and famed consumer advocate Ralph Nader No fault continues to hold the promise of better compensation and dramatic premium reductions with the largest savings available to those who need them most low and moderate income drivers The most likely scenario for further federal consideration of auto insurance reform would be in the context of congressional action on universal health insurance

Public Hearing Before Senate Commerce Committee New Jersey. Legislature. Senate. Commerce Committee,1997 The Auto Choice Reform Act of 1997 United States. Congress. House. Committee on Commerce.
