Egotists And Autocrats The Prime Ministers Of Canada:

Egotists and Autocrats George Bowering,2000 Prime Ministerial Power in Canada Patrice Dutil,2017-06-09 Many Canadians lament that prime ministerial power has become too concentrated since the 1970s This book contradicts this view by demonstrating how prime ministerial power was centralized from the very beginning of Confederation and that the first three important prime ministers Macdonald Laurier and Borden channelled that centralizing impulse to adapt to the circumstances they faced Using a variety of innovative approaches Patrice Dutil focuses on the managerial philosophies of each of the prime ministers as well as their rapport with senior public servants resistance to genuine public sector reform and use of orders in council to further their aims He then compares their managerial habits during times of crisis to those during ordinary times This is the first book to examine the administrative habits of these three prime ministers In it Dutil offers revealing insights into the evolution of prime ministerial power He also shows how this centralizing grip of these early first ministers inevitably shaped the administrations they headed as well as those that followed *Challenges of Minority Governments in Canada* Marc Gervais,2022-08-10 There have been few studies of Canadian minority governments despite the fact that between 1957 and 2008 9 of the 18 general federal elections produced minority governments How such governments manage to remain in power viability and gain support for their legislative proposals effectiveness has not been investigated thoroughly Three theoretical perspectives the rational choice tradition new institutionalism and the party politics and party systems approach are used to examine the dynamics at play Data for four minority governments Diefenbaker 1957 58 Pearson 1963 65 Clark 1979 80 and Harper 2006 08 have been gathered from archival records debates and votes in the House of Commons autobiographies third party accounts and earlier studies on minority governments Viability and effectiveness would appear to depend on 1 bargaining power interparty dynamics and intra party cohesion and 2 agenda control House business confidence tests and other institutional features The study also stresses the importance of government concessions and the capacity and skill of parliamentary actors in using the institutional and party system levers
