Egypt From Independence To Revolution 1919 195:

The Egyptian Revolution of 1919 H.A. Hellyer, Robert Springborg, 2022-08-11 The 1919 Egyptian revolution was the founding event for modern Egypt's nation state. So far there has been no text that looks at the causes, consequences and legacies of the 1919 Egyptian Revolution. This book addresses that gap with Egyptian and non-Egyptian scholars discussing a range of topics that link back to that crucial event in Egyptian history. Across nine chapters the book analyzes the causes and course of the 1919 revolution, its impacts on subsequent political beliefs, practices and institutions, and its continuing legacy as a means of regime legitimation. The chapters reveal that the 1919 Egyptian Revolution divided the British while uniting Egyptians. However, the revolutionary moment was superseded by efforts to restore Britain's influence in league with a reassertion of monarchical authority. Those efforts enjoyed tactical but not long-term strategic success in part because the 1919 revolution had unleashed nationalist forces that could never again be completely contained. The book covers key issues surrounding the 1919 Egyptian Revolution, such as the role played by Lord Allenby, internal schisms within the British government struggling to cope with the revolution, Muslim-Christian relations and divisions among the Egyptians. *Latin American Revolutionaries and the Arab World* Federico Vélaz, 2017-05-15 Recounting recent encounters between Latin American and Arab countries, this unique volume explores how, despite both geographical and cultural distances, Latin American revolutionaries constructed an image of the Arab World as one sharing their own political views and interests. From the nationalization of the Suez Canal to Latin American perspectives on the Arab Spring, Federico Vélaz offers a fascinating historical and contemporary analysis on the behaviour of actors on the periphery of the international system. Contributing to debates regarding ideological and political autonomy, the book provides a comprehensive historical account of relations between the countries of Latin America and the Middle East, alongside new analysis on the ways marginalized states can sometimes build unlikely alliances in their attempts to challenge structures of power. *Egypt from Independence to Revolution, 1919-1952* Selma Botman, 1991 This text offers an interpretation of Egypt's so-called liberal era and an understanding of contemporary Egyptian society. It analyses both mainstream and conventional political and social forces and political activism among people from widely differing backgrounds. **Egypt From Monarchy To Republic** Shimon Shamir, 2021-11-28 An examination of the extent to which Nasser's 1952 coup d'état brought about significant changes in the basic social, political and cultural structures of Egypt. **Histories of Egyptology** William Carruthers, 2014-07-11 Histories of Egyptology are increasingly of interest to Egyptologists, archaeologists, historians and others. Yet particularly as Egypt undergoes a contested process of political redefinition, how do we write these histories and what or who are they for? This volume addresses a variety of important themes: the historical involvement of Egyptology with the political sphere; the manner in which the discipline stakes out its professional territory; the ways in which practitioners represent Egyptological knowledge; and the relationship of this knowledge to the public sphere. *Histories of Egyptology* provides the basis to

understand how Egyptologists constructed their discipline Yet the volume also demonstrates how they construct ancient Egypt and how that construction interacts with much wider concerns of society and of the making of the modern world

Egypt 1919 Heshmat Dina Heshmat,2020-05-28 The 1919 anti colonial revolution is a key moment in modern Egyptian history and a historical reference point in Egyptian culture through the century This book offers a close reading of a wide range of novels films plays and memoirs that feature this momentous historical event By examining canonised as well as neglected works Dina Heshmat highlights the processes of remembering and forgetting that have contributed to shaping a dominant imaginary about 1919 in Egypt coined by successive political and cultural elites Informed by concepts of class and gender this book brings out a number of issues that underlie the memory of 1919 in Egypt as it is constantly evolving by ongoing social cultural and political struggles As the author seeks to understand how and why so many voices have been relegated to the margins she reinserts elements of the different representations into the dominant narrative This opens up a new perspective on the legacy of 1919 in Egypt inviting readers to meet the marginalised voices of the revolution and to reconnect with its layered emotional fabric

Egypt as a Woman Beth Baron,2005-02-28 This original and historically rich book

examines the influence of gender in shaping the Egyptian nation from the nineteenth century through the revolution of 1919 and into the 1940s In *Egypt as a Woman* Beth Baron divides her narrative into two strands the first analyzes the gendered language and images of the nation and the second considers the political activities of women nationalists She shows that even though women were largely excluded from participation in the state the visual imagery of nationalism was replete with female figures Baron juxtaposes the idealization of the family and the feminine in nationalist rhetoric with transformations in elite households and the work of women activists striving for national independence

Radical Jewish Politics Nathaniel Deutsch, Alma Rachel Heckman, Tony Michels, 2025-12-09 For the first time this volume centers the rich but little known history of radical Jewish politics in the Middle East and North Africa and puts it into conversation with developments in the Americas South Africa Soviet Asia and Europe Jews were attracted to radical politics in the nineteenth and twentieth centuries to transform the societies they lived in but also out of a deep desire to belong Somewhat paradoxically then radical politics held out the enticing possibility of normalization for Jews even as it frequently resulted in their further alienation or persecution In some cases Jewish radicals sought recognition and autonomy as Jews in others Jews labored to be accepted as full fledged citizens of their home countries in still others they tried to escape Jewishness altogether Jewish experiences of modernity colonialism race nationalism emancipation war and migration serve as the connective tissue that binds together radical Jewish politics from Baghdad to Buenos Aires

The Student Movement and National Politics in Egypt, 1923-1973 Ahmed Abdalla, 2008 The Nasserist revolution of 1952 had a massive impact on the Egyptian educational system For the first time the doors of university education were opened to masses of people in a Third World country and hundreds of thousands of the sons and daughters of peasants workers and lower middle class employees seized the opportunity But quantitative growth was not matched by qualitative advance and the gap between expectations and reality has rarely been so wide The result was one of the world s most turbulent student movements This history of that movement s most critical years first published in 1985 was written by a young Egyptian who was a participant in many of the events and was intimately acquainted with them Ahmed Abdalla describes the sociological composition of the student body the physical and social conditions in the universities the shifts in government education policy and the attempts of the students to influence the direction of national development in both domestic and foreign policy The Student Movement and National Politics in Egypt is an important contribution to our understanding of Egypt s modern history and will also be of interest to anyone concerned with the more universal issues of higher education social change and state politics in the Third World

Cultural Entanglement in the Pre-Independence Arab World Anthony Gorman, Sarah Irving, 2020-11-26 This book examines the ways in which non Arabic cultural influences interacted with the rich complex and sometimes conflictual environment of the Arab world in the pre independence era It comprises a series of 11 detailed case studies including topics such as the songs of Egyptian forced labourers in the British Army in World War I the translation and commentary of an Ottoman text in interwar Palestine and the contested use of French in the Algerian independence movement that highlight the complex interplay of colonial pressures traditional and novel art forms local and international practices notions of identity and belonging The book demonstrates how the interaction between Arabic and non Arabic

cultural and intellectual production as well as influences from imperial Europe and the Islamic East have in various times and spaces inspired creative tensions which challenge binary views of East West relations and the standard imperialist colonial frameworks In this sense the volume seeks to offer a critique of both established modernising conceptions of cultural development and nationalist nativist frameworks based on the values of a specific political project

The Arab Spring, Civil Society, and Innovative Activism Cenap Çakmak, 2016-12-09 This book investigates the role of society groups in the making of the Arab Spring and under which conditions they attained their goals Democracy and recognition of human rights and fundamental freedoms seem to be the main drives of the people organized in form of civil groups or grassroots movements in the Arab Spring countries but it is essential to identify when they find it suitable to take such extreme action as taking the streets in an attempt to take down the repressive regimes It is also important to investigate what methods they relied on in their action and how they challenged the state and the government A review of the cases in this volume shows that civil society has certain limitations in its action Analysis of the cases also challenges a commonly held assumption that the Arab world does not have strong and rich civil society tradition However for a lasting success and consolidation of democracy something more than civil society action is obviously needed A strong organized opposition and a democratic culture seems to be indispensable elements for the evolution of a democratic order and tradition
