Medicine astronomy dealing with numbers even the cultures of the pre modern world offer a rich spectrum of scientific texts But how are they best translated Is it sufficient to translate the sources into modern scientific language and thereby above all to identify their deficits Or would it be better to adopt the perspective of the sources themselves strange as they are only for them not to be properly understood by modern readers Renowned representatives of various disciplines and traditions present a controversial and constructive discussion of these problems From the Mysteries Hermann Beckh,2020-06-03 In the early part of the last century Professor Hermann Beckh began a search to discover the truth about the Mystery wisdom of antiquity As a recognized authority on Buddhist texts he knew that complete knowledge of such Mysteries was not to be found within the limitations of waking consciousness sense perception and logic Beckh was already aware that Gautama Buddha had indicated the stages of higher knowledge Furthermore his studies of Rudolf Steiner's anthroposophical teachings revealed that such knowledge could be experienced directly given disciplined meditation Clairvoyant cognition included the conscious penetration of sleep consciousness the dream state and an experience of pre natal consciousness Both the Mysteries and Rudolf Steiner's major books he concluded were founded on the same perceptions Beckh a worldwide expert on Tibetan Sanskrit Pali and Avestan texts quickly became disenchanted with Madame Blavatsky's Theosophy as it displayed little precise academic knowledge of primary records At the same time university departments showed scant trace of understanding the texts they analysed through philology and sociology Thus based on comprehensive studies and personal experience he resolved to present his own perceptions and vision to the public The results are to be found in this invaluable book bringing together for the first time in English three groundbreaking publications *Our Origin in the Light* Genesis 19 1924 *Zarathustra* 1927 and *From the World of the Mysteries* 1927 as well as five of Beckh's articles from contemporary periodicals The Egypt Code Robert Bauval,2025-09-12 Why did the ancients align their monuments so precisely with the stars What were the practical and symbolic reasons behind these mysterious configurations From the author of *The Orion Mystery* the best selling book that introduced the revolutionary star correlation theory about the Giza pyramids *The Egypt Code* reveals an amazing Grand Unified Plan behind the legendary temples of

upper Egypt Robert Bauval one of the world's most prominent and controversial Egyptologists completes his groundbreaking investigation of astronomy as related to Egyptian monuments and related religious texts The Egypt Code revisits the Pyramid Age and the Old Kingdom proposing a vast sky ground correlation for the Memphite Heliopolis region and presenting the possibility of a grand plan spanning three thousand years of Pharaonic civilization and involving pyramids and major temple sites along the Nile The central idea of the book is that the cosmic order which the ancients referred to as Maat was comprised of the observable cycles of the sun and stars in particular the star Sirius and that the changes that took place due to the precession of the equinoxes and the so called Sothic Cycle are reflected in the orientation and location of religious sites

Re-envisioning Egypt 1919-1952 Arthur Goldschmidt, Amy J. Johnson, Barak A. Salmoni, 2005 Re Envisioning Egypt 1919 1952 presents new and often dismissed aspects of the constitutional monarchy era in Egyptian history It demonstrates that many of the domestic and regional sociopolitical and cultural changes credited to the 1952 revolutionaries actually began in the decades before the July coup Arguing against the predominant view of the pre revolutionary era in Egypt as one of creeping decay the volume restores understandings of the 1919 1952 years as integral to modern nation state formation and social transformation The book's contributors show that Egypt's real revolutions were long term processes emerging over several decades prior to 1952 The leaders of the 1952 coup capitalized on these developments yet earlier changes in Egyptian society fundamentally facilitated their actions and policies This volume includes revisionist discussion of domestic political issues and foreign policy
