Egyptian Mummies Bob Brier, 1997 Bob Brier here provides the complete historical context of an ancient Egyptian culture and a contemporary interpretation He gives a complete analysis of the art of mummification and looks at various aspects of Egyptian mummies      We Can't Go Home Again Clarence E. Walker, 2001-06-14 Afrocentrism has been a controversial but popular movement in schools and universities across America as well as in black communities But in We Can't Go Home Again historian Clarence E Walker puts Afrocentrism to the acid test in a thoughtful passionate and often blisteringly funny analysis that melts away the pretensions of this therapeutic mythology As expounded by Molefi Kete Asante Yosef Ben Jochannan and others Afrocentrism encourages black Americans to discard their recent history with its inescapable white presence and to embrace instead an empowering vision of their African specifically Egyptian ancestors as the source of western civilization Walker marshals a phalanx of serious scholarship to rout these ideas He shows for instance that ancient Egyptian society was not black but a melange of ethnic groups and questions whether in any case the pharaonic regime offers a model for blacks today asking if everybody was a King who built the pyramids But for Walker Afrocentrism is more than simply bad history it substitutes a feel good myth of the past for an attempt to grapple with the problems that still confront blacks in a racist society The modern American black identity is the product of centuries of real history as Africans and their descendants created new hybrid cultures mixing many African ethnic influences with native and European elements Afrocentrism replaces this complex history with a dubious claim to distant glory Afrocentrism offers not an empowering understanding of black Americans past Walker concludes but a pastiche of alien traditions held together by simplistic fantasies More to the point this specious history denies to black Americans the dignity and power that springs from an honest understanding of their real history      *Mummies around the World* Matt Cardin, 2014-11-17 Perfect for school and public libraries this is the only reference book to combine pop culture with science to uncover the mystery behind mummies and the mummification phenomena Mortality and death have always fascinated humankind Civilizations from all over the world have practiced mummification as a means of preserving life after death a ritual which captures the imagination of scientists artists and laypeople alike This comprehensive encyclopedia focuses on all aspects of mummies their ancient and modern history their scientific study their occurrence around the world the religious and cultural beliefs surrounding them and their roles in literary and cinematic entertainment Author and horror guru Matt Cardin brings together 130 original articles written by an international roster of leading scientists and scholars to examine the art science and religious rituals of mummification throughout history Through a combination of factual articles and topical essays this book reviews cultural beliefs about death the afterlife and the interment entombment and cremation of human corpses in places like Egypt Europe Asia and Central and South America Additionally the book covers the phenomenon of natural mummification where environmental conditions result in the spontaneous preservation of human and animal remains      *New Chronology Using Solar Eclipses, Volume III*

*In Search of the Immortals* Howard Reid, 2014-05-06 Everyone knows that the ancient Egyptians were great mummifiers and their sarcophagi and bandage wrapped corpses are familiar images to us all Yet across the vast sweep of history we find many other great cultures in which the bodies of the dead were preserved as a matter of course In coastal Peru were the Chinchorros whose mummifying culture flowered several millennia before Egypt s and in the Andes were the Chachapoyas the Cloud People a lost civilization which has only recently begun to be understood In China s Taklamakan desert the oddly Caucasian looking people who established the Silk Route which made possible the first trade between East and West have left behind stunningly lifelike mummies The ritually sacrificed bodies preserved in the peat bogs of northern Europe give us an extraordinary insight into life in the Dark Ages And in the Canary Islands perhaps most surprisingly of all lived the Guanches whose sophisticated mummification techniques and whose cultural links with the Egyptians Howard Reid explores here for the first time Taking his extraordinary first hand experiences of discovering and filming mummies all over the world as his starting point Howard Reid brings these ancient cultures vividly to life And in so doing *In Search of the Immortals* comes to represent his personal quest to find an answer to that most epic and timeless of human problems the meaning of death
