without a leader and single minded without one guiding political ideology This book examines the decade long of protest movements which created the context for the January 2011 mass uprising It tells the story of Egypt s long revolutionary process by exploring its genealogy in the decade before 25 January 2011 and tracing its development in the three years that have followed The book analyses new forms of political mobilisation that arose in response to ever increasing grievances against authoritarian politics deteriorating living conditions for the majority of Egyptians as a consequence of neo liberal policies and the machinery of crony capitalism and an almost total abandoning by the state of its responsibilities to society at large It argues that the increasing societal pressures from different quarters such as labour groups pro democracy movements and ordinary citizens during this period culminated in an intensifying culture of protest and activism that was vital in the lead up to the dramatic overthrow of Mubarak It also argues that the features of these new forms of activism and political mobilisation have contributed to shaping the political process since the downfall of Mubarak Based on research undertaken since 2002 Egypt s Long Revolution is an essential resource for scholars and researchers with an interest in social movements comparative politics and Middle East Politics in general

Melancholy Acts

Nouri Gana, 2023-08-01 CHOICE OUTSTANDING ACADEMIC TITLE How do the literatures and cultures of oppressed societies survive and flourish in spite of the overdetermining conditions of precarity and injustice of which they are a product and against which they protest Might the symptom of oppression become simultaneously the agent of its critique Melancholy Acts offers richly nuanced reflections on these questions through a series of wide ranging engagements with Arab thought literature and film in the aftermath of the 1948 dispossession of Palestinians and the 1967 military defeat of Arab armies Melancholy Acts offers a psychoaffective theory of cultural production that arises out of the disjunction between political impoverishment and cultural resistance to colonial and neoliberal oppression Such a theory allows the author to trace the melancholy disposition of Arabic literary and filmic productions and to discern the precarious rhetorical modes of their critical intervention in a culture that is continually strained to its breaking point Across six chapters Melancholy Acts reads with rigor and sensitivity contentious topics of Arab contemporaneity such as secular modernity and manhood Arab nationalism and leftism literary and artistic iltiz m or commitment Islamism and martyrdom The book tracks the melancholy politics that inform the literary and cultural projects of a multitude of Arab novelists Ghassan Kanafani and Naguib Mahfouz poets and playwrights Mahmoud Darwish Nizar Qabbani and Saadallah Wannous filmmakers Nouri Bouzid Moufida Tlatli Youssef Chahine and Hany Abu Assad alongside the work of such intellectuals as Hussein Muruwwa Malek Bennabi Karima Lazali George Tarabishi and Fethi Benslama from within the Arab world as well as such non Arab thinkers as Freud Lacan

Adorno Fanon Spivak Butler and i ek Melancholy Acts charts a fresh and bold new approach to Arabic and comparative literature that combines in interlaced simultaneity a high sensitivity to local idioms as they swerve between symptom and critique with nuanced knowledge of the geopolitics of theory and psychoanalysis

The Palestinian Left and Its Decline Francesco Saverio Leopardi, 2020-07-06 This book examines the history of the Palestinian Left by focusing on the trajectory of the Popular Front for the Liberation of Palestine PFLP during its declining phase Relying on a substantial corpus of primary sources this study illustrates how the PFLP's political agency contributed to its own marginalisation within the Palestinian national movement Following the 1982 eviction of the Palestine Liberation Organisation PLO from Lebanon the bases of the PFLP's opposition to Fatah's primacy in the national movement were jeopardised This book argues that the PFLP's loyalty to the PLO institutional and political framework prevented the formulation of a real counterhegemonic political project This drove the PFLP's action to suffer a fundamental contradiction undermining its stance within the national movement In the attempt to continue its opposition to Fatah while maintaining integration in the Palestinian mainstream the PFLP's agency fluctuated compromising its effectiveness and credibility Apparently irreversible the PFLP's marginalisation is a factor fostering the current Palestinian impasse as no alternative is emerging to break the thirteen year long Hamas Fatah polarisation

Classless Politics Hesham Sallam, 2022-10-25 Since the 1970s the Egyptian state has embarked on a far reaching and destabilizing project of economic liberalization reneging on its commitments to social welfare Despite widespread socioeconomic grievances stemming from these policies class politics and battles over wealth redistribution have largely been sidelined from elite led national politics Instead conflicts over identity have raged as Islamist movements became increasingly prominent political players Classless Politics offers a counterintuitive account of the relationship between neoliberal economics and Islamist politics in Egypt that sheds new light on the worldwide trend of more

identity less class Hesham Sallam examines why Islamist movements have gained support at the expense of the left even amid conflicts over the costs of economic reforms Rather than highlighting the stagnancy of the left or the agility of Islamists he pinpoints the historical legacies of authoritarian survival strategies As the regime resorted to economic liberalization in the 1970s it tacitly opened political space for Islamist movements to marginalize its leftist opponents In the long run this policy led to the fragmentation of opponents of economic reform the increased salience of cultural conflicts within the left and the restructuring of political life around questions of national and religious identity Historically rich and theoretically insightful this book demonstrates how the participation of Islamist groups shapes the politics of neoliberal reform and addresses why economic liberalization since the 1970s has contributed to the surge in culture wars around the world today

Arab Responses to Fascism and Nazism Israel Gershoni, 2014-07-15 The first book to present an analysis of Arab response to fascism and Nazism from the perspectives of both individual countries and the Arab world at large this collection problematizes and ultimately deconstructs the established narratives that assume most Arabs supported fascism and Nazism leading up to and during World War II Using new source materials taken largely from Arab memoirs archives and print media the articles reexamine Egyptian Syrian Lebanese Palestinian and Iraqi responses in the 1930s and throughout the war While acknowledging the individuals forces and organizations that did support and collaborate with Nazi Germany and fascist Italy Arab Responses to Fascism and Nazism focuses on the many other Arab voices that identified with Britain and France and with the Allied cause during the war The authors argue that many groups within Arab societies elites and non elites governing forces and civilians rejected Nazism and fascism as totalitarian racist and most important as new more oppressive forms of European imperialism The essays in this volume argue that in contrast to prevailing beliefs that Arabs were de facto supporters of Italy and Germany since the enemy of my enemy is my friend mainstream Arab forces and currents opposed the Axis powers and supported the Allies during the war They played a significant role in the battles for control over the Middle East

assumptions about a clash of civilizations and profoundly reinterprets the antecedents of today's crises **Revolutionary Egypt in the Eyes of the Muslim Brotherhood** Mohammed el-Nawawy, Mohamad Hamas Elmasry, 2018-10-16 The Muslim Brotherhood which was founded in Egypt in 1926 has been at the forefront of the resurgence of political Islam in the Middle East. It has also endeavored to reach out beyond Egypt and the Middle East to an international audience, increasing its media campaign in English. This outreach is the focus of the book which delves into the media strategies and ventures of the Muslim Brotherhood by studying how it has used its official English website to frame its political ideologies and its role in the 2011 Egyptian uprising Gatekeepers of the Arab Past Yoav Di-Capua, 2009-09-09 This groundbreaking study illuminates the Egyptian experience of modernity by critically analyzing the foremost medium through which it was articulated: history. The first comprehensive analysis of a Middle Eastern intellectual tradition, *Gatekeepers of the Past* examines a system of knowledge that replaced the intellectual and methodological conventions of Islamic historiography only at the very end of the nineteenth century. Covering more than one hundred years of mostly unexamined historical literature in Arabic, Yoav Di-Capua explores Egyptian historical thought, examines the careers of numerous critical historians, and traces this tradition's uneasy relationship with colonial forms of knowledge as well as with the post-colonial state *Egypt and the Second Palestinian Intifada* Rami Ginat, Meir Noema, 2011 With the outbreak of the Palestinian Intifada at Aqsa in September 2000 that followed the failure of the Camp David II summit, the chain of belligerent events took Egypt by surprise. This study is based primarily on Egyptian sources as well as interviews and conversations with senior members of the Al-Ahram Center for Strategic Studies *Redeploying the State* H. Aidi, 2008-12-22 This study offers a comparative analysis of Latin American and Middle Eastern corporatism by looking at Egypt and Mexico's differing experiences with privatization and showing that how the working class was attached to the regime during the period of state building shapes leaders' institutional options and capabilities for market reform.
