*Casting a Spell* George Black,2009-03-12 Thirty five million Americans one in eight like to go fishing Fly fishers have always considered themselves the aristocracy of the sport and a small number of those devotees a few thousand at most insist upon using one device in the pursuit of their obsession a handcrafted split bamboo fly rod Meeting this demand for

perfection are the inheritors of a splendid art one that reveres tradition while flouting obvious economic sense and reaches back through time to touch the hands of such figures as Theodore Roosevelt and Henry David Thoreau In *Casting a Spell* George Black introduces readers to rapt artisans and the ultimate talismans of their uncompromising fascination handmade bamboo fly rods But this narrative is more than a story of obscure objects of desire It opens a new vista onto a century and a half of modern American cultural history With bold strokes and deft touches Black explains how the ingenuity of craftsmen created a singular implement of leisure and how geopolitics economics technology and outrageous twists of fortune have all come to focus on the exquisitely crafted bamboo rod We discover that the pastime of fly fishing intersects with a mind boggling variety of cultural trends including conspicuous consumption environmentalism industrialization and even cold war diplomacy Black takes us around the world from the hidden trout streams of western Maine to a remote valley in Guangdong Province China where grows the singular species of bamboo known as tea stick the very stuff of a superior fly rod He introduces us to the men who created the tools and techniques for crafting exceptional rods and those who continue to carry the torch in the pursuit of the sublime Never far from the surface are such overarching themes as the tension between mass production and individual excellence and the evolving ways American society has defined experienced and expressed its relationship to the land Fly fishing may seem a rarefied pursuit and making fly rods might be a quixotic occupation but this rich fascinating narrative exposes the soul of an authentic part of America and the great significance of little things George Black s latest expedition into a hidden corner of our culture is an utterly enchanting illuminating and enlightening experience
