**18th Century Highlanders** Stuart Reid, 1996      **The Literature of the Highlanders** Nigel MacNeill, 1892      **An Eighteenth Century Scottish Highlander** E. J. Boog-Watson, 1965      *Sentimental Literature and Anglo-Scottish Identity, 1745-1820* Juliet Shields, 2010-06-24 What did it mean to be British and more specifically to feel British in the century following the parliamentary union of Scotland and England Juliet Shields departs from recent accounts of the Romantic emergence of nationalism by recovering the terms in which eighteenth and early nineteenth century writers understood nationhood She argues that in the wake of the turmoil surrounding the Union Scottish writers appealed to sentiment or refined feeling to imagine the nation as a community They sought to transform a Great Britain united by political and economic interests into one united by shared sympathies even while they used the gendered and racial connotations of sentiment to differentiate sharply between Scottish English and British identities By moving Scotland from the margins to the center of literary history the book explores how sentiment shaped both the development of British identity and the literature within which writers responded creatively to the idea of nationhood      *Native Peoples of the World* Steven L. Danver, 2015-03-10 This work examines the world's indigenous peoples their cultures the countries in which they reside and the issues that impact these groups      *Scottish Society, 1500-1800* Robert Allen Houston, Ian D. **BOOK JACKET**     The Wild Black Region David Taylor, 2016-02-01 This book tells the fascinating story of Badenoch a forgotten region in accounts of Scottish history Situated in the heart of the Highlands and with its own distinct historic and geographic identity Badenoch was in the throes of dramatic change in the post Culloden decades This ground breaking study reveals some radical differences from trends across the rest of the Highlands Foremost was the role of the indigenous entrepreneurial tacksmen in driving the rapidly growing commercial economy as cattle graziers drovers and agricultural improvers inevitably provoking confrontation with the absentee and ostentatious Dukes of Gordon Meanwhile the common people still operated within a subsistence farming economy heavily dependent on a surprisingly sophisticated use of their mountain environment Though suffering great hardship they too were quick to exploit any potential commercial opportunities Economic forces social ambition and post Culloden legislation created intolerable pressures within the old clan hierarchy as Duke tacksmen and erstwhile clansmen tried to forge their individual and often irreconcilable destinies in a rapidly changing world In doing so all were increasingly drawn into the wider and often lucrative dimensions of British state and empire

Scottish Highlanders in Colonial Georgia: The Recruitment, Emigration, and Settlement at Darien, 1735-1748 Anthony W. Parker, 2010-07-01 Between 1735 and 1748 hundreds of young men and their families emigrated from the Scottish Highlands to the Georgia coast to settle and protect the new British colony These men were recruited by the trustees of the colony and military governor James Oglethorpe who wanted settlers who were accustomed to hardship militant in nature and willing to become frontier farmer soldiers In this respect the Highlanders fit the bill perfectly through training and tradition Recruiting and settling the Scottish Highlanders as the first line of defense on the southern frontier in Georgia was an important decision on the part of the trustees and crucial for the survival of the colony but this portion of Georgia's history has been sadly neglected until now By focusing on the Scots themselves Anthony W Parker explains what factors motivated the Highlanders to leave their native glens of Scotland for the pine barrens of Georgia and attempts to account for the reasons their cultural distinctiveness and old world experience aptly prepared them to play a vital role in the survival of Georgia in this early and precarious moment in its history

*Scotland and America, c.1600-c.1800* Alexander Murdoch, 2009-12-18

While the literature relating to Scottish contact with America has grown significantly in recent years the influence of America on Scotland and its early modern history has been neglected in favour of a preoccupation with Scottish influence on the formation of North American national identities Alexander Murdoch's fascinating new study explores Scottish interactions with North America in a desire to open up fresh perspectives on the subject Scotland and America c 1600 c 1800 Surveys the key centuries of economic migratory and cultural exchange including Canada and the Caribbean Discusses Scottish participation in the Atlantic slave trade and the debate over its abolition Considers the Scottish experience of British unionism with respect to developing American traditions of unionism in the U S and Canada Incorporating the latest research this is essential reading for anyone interested in the dynamic relationship between Scotland and America during a key period in history

**Native Americans, Christianity, and the Reshaping of the American Religious Landscape** Joel W. Martin, Mark A. Nicholas, 2010-10-11 In this interdisciplinary collection of essays Joel W. Martin and Mark A. Nicholas gather emerging and leading voices in the study of Native American religion to reconsider the complex and often misunderstood history of Native peoples' engagement with Christianity and with Euro American missionaries. Surveying mission encounters from contact through the mid nineteenth century the volume alters and enriches our understanding of both American Christianity and indigenous religion. The essays here explore a variety of postcontact identities including indigenous Christians, mission friendly non Christians and ex Christians thereby exploring the shifting world of Native white cultural and religious exchange. Rather than questioning the authenticity of Native Christian experiences these scholars reveal how indigenous peoples negotiated change with regard to missions, missionaries and Christianity. This collection challenges the pervasive stereotype of Native Americans as culturally static and ill equipped to navigate the roiling currents associated with colonialism and missionization. The contributors are Emma Anderson, Joanna Brooks, Steven W. Hackel, Tracy Neal Leavelle, Daniel Mandell, Joel W. Martin, Michael D. McNally, Mark A. Nicholas, Michelene Pesantubbee, David J. Silverman, Laura M. Stevens, Rachel Wheeler, Douglas L. Winiarski and Hilary E. Wyss.
