Economic Change In Southeast Asia C 1830198:

Economic Change in South-East Asia, C.1830-1980 Ian Brown,1997 This book provides an introduction to the economic history of South East Asia from the early nineteenth century to the contemporary period It examines for example the strong commitment of agriculturists across the region to cultivation for export markets from the middle decades of the nineteenth century and the impact of agricultural specialization on their material welfare the economic role of the immigrant Chinese as traders moneylenders revenue farmers bankers and industrialists the impact of the inter war depression on the economies of South East Asia the implications of the Green Revolution in rice for rural inequalities and the causes and nature of South East Asia s modern industrialization On each topic it attempts to draw the reader into the specialist literature to emphasize divergent views and where appropriate to admit ignorance Above all it seeks to kindle curiosity and enthusiasm to encourage the reader to explore further

Institutions and Economic Change in Southeast Asia Colin Barlow,1999-12-21 This work scrutinizes the role of institutional change with special reference to Southeast Asia It suggests that the nature of institutional arrangements such as households community groups firms and formal governance systems can significantly affect human activity and economic success

Institutional Change in Southeast Asia Fredrik Sjöholm,José Tongzon,2004-11-05 Includes a comprehensive analysis of different countries in the region Contributors include experts from the region and Europe The Asian economic crisis and its aftermath is a huge area of study so this book will appeal to a broad market

The Southeast Asian Economic Miracle Young Kim,2018-04-17 There is widespread agreement that the world s most successful developing countries in the 1980s were those in Southeast Asia Following in the footsteps of postwar Japan and more recently Korea the populations of Thailand Malaysia Indonesia Singapore Hong Kong and the Philippines have made enormous strides in income industrial and agricultural production exports education health nutrition consumption and other development indicators This book brings together political scientists economists officials of Asian governments the United States and representatives of the multilateral banks to analyze and explain Southeast Asia s extraordinary growth Chapters and contributors to *The Southeast Asian Economic Miracle* include Recent Developments and Future Prospects of Indonesia by Anwar Nasution The Economic Experience and Prospects of Thailand by Sukhumbhand Paribatra The Development of the Former Indochina States by Frederick Brown Trade and Investment in Southeast Asian Development by Stephen Parker and Managing Renewable Resources in Southeast Asia The Problem of Deforestation by Gareth Porter Among the critical questions that the contributors address are Is the success of the 1980s and early 1990s a permanent part of the world s economic landscape How will this region react to the growth of China s vast productive capacity and to the faltering of Japan s economy What will be the effect of U S military disengagement caused by domestic budgetary concerns and the end of the cold war The Southeast Asian Economic Miracle is an important study of the shifting winds of the political economy of growth in our time the movement away from a command to a free market environment It will be an essential resource for political

The Transformation of Southeast Asian Economies

Teofilo C. Daquila, 2007 This book analyses the growth development and crisis experiences of the Southeast Asian economies in particular Indonesia Malaysia the Philippines Singapore and Thailand also known as ASEAN 5 The proposition is developed that the robust economic performance of the Southeast Asian economies during the past four decades has been attributed to the various factors developments and independent national policies which have been pursued by the individual member countries rather than to any regional economic framework The book covers eleven topics which is suitable for a one semester course on the economics of Southeast Asia Also it has a narrower area coverage as it focuses only on the five economies namely Indonesia Malaysia the Philippines Singapore and Thailand The sectoral treatment of the crisis impact and the analytical treatment of policy responses to the crisis differentiate this book from other publications on the same topic Finally the book provides an analysis of national developments policies and factors which have contributed to the economic transformation of the respective Southeast Asian economies

Southeast Asia beyond Crises and Traps

Boo Teik Khoo, Keiichi Tsunekawa, Motoko Kawano, 2017-09-18 This book examines five countries in South East Asia that are instructive case studies of how the region has had to negotiate pathways of development beyond crises and traps At two ends of just one decade 1997 2007 Indonesia Malaysia the Philippines Thailand and Vietnam all had to weather the shocks of an East Asian financial crisis and a global financial crisis Some economies might have buckled completely under those shocks and been condemned to long term stagnation Yet these five economies part of the larger Asian region emerged with continued if slower economic growth An important theme of this book is that their resilience has been partly derived from the pursuit of growth and competitiveness along less known or recommended pathways The chapters of this book take a novel approach to South East Asia's search for growth and improvement They do not begin by evaluating how far macro level performances would take a particular country towards high income status Instead they provide original insights into actual cases of intermediate ways of achieving growth upgrading and income improvement in non privileged sectors Such cases may hold more relevant lessons for the majority of developing countries than the experiences of highly developed economies

The Political Economy of Southeast Asia Toby Carroll, Shahar Hameiri, Lee Jones, 2020-03-03 This is not only the best collection of essays on the political economy of Southeast Asia but also as a singular achievement of the Murdoch School one of the rarest of books that demonstrates how knowledge production travels across generations institutions and time periods thereby continually enriching itself No course on Southeast Asia can afford to miss it as its core text Professor Amitav Acharya American University USA This book the fourth in a path breaking series demonstrates why a critical political economy approach is more crucial than ever for understanding Southeast Asia's transformation Across a wide range of topics the book explains how capitalist development and globalisation are reshaping the societies economies and politics of a diverse group of countries casting light on the deep sources of economic and social power in the region This is a book that

every student of Southeast Asia needs to read Professor Edward Aspinall Australian National University Australia This book does what a work on political economy should do challenge existing paradigms in order to gain a deeper understanding of the processes of social transformation This volume is distinctive in three ways First it eschews methodological nationalism and focuses on how the interaction of national regional and global forces are shaping and reshaping systems of governance mass politics economies labor capital relations migration and gender relations across the region Second it is a bold effort to show how the Murdoch School which focuses on the dynamic synergy of internal class relations and global capitalism provides a better explanatory framework for understanding social change in Southeast Asia than the rival developmental state and historical institutionalist approaches Third alongside established luminaries in the field it showcases the younger generation of political economists doing pathbreaking work on different dimensions of the political economy of the region Walden Bello State University of New York at Binghamton USA and Former Member of the Philippines House of Representatives This very timely fourth edition explores Southeast Asia's political economy within the context of hyperglobalisation and China's pronounced social structural impacts on international politics finance and economics over the past decade and a half The volume successfully adopts a cross cutting thematic approach while also conveying the diversity and divergences among the Southeast Asian states and economies This will be an important resource for scholars of International Relations and Comparative Politics who need to take an interest in a dynamic and increasingly significant part of Asia Professor Evelyn Goh Australian National University Australia This ambitious collection takes a consistent theoretical approach and applies it to a thematic comparative analysis across Southeast Asia The yield is impressive the social political and economic forces constituting the current conjuncture are not simply invoked they are thoroughly identified and explained By posing the deceptively simple questions of what is happening and why the authors demonstrate the reciprocal relation between theory building and empirical inquiry providing a model of engaged scholarship with global resonance Bravo Professor Tania Li University of Toronto Canada Counteracting the spaceless and flattened geography of much literature on uneven development this book delivers a forensic examination of the unevenness of geographical development in Southeast Asia and the relations of force shaping capital state nature and civil society This is the most compelling theoretical and empirical political economy book available on Southeast Asia Professor Adam David Morton University of Sydney Australia A vital book for all scholars students and practitioners concerned with political economy and development this volume combines cutting edge theory with rich and wide ranging empirical analysis It is terrific to see the continued success of this book with this fully revised fourth edition Professor Nicola Philips Kings College London UK The Political Economy of Southeast Asia has become a leading reference for students of the region With its breadth of geographic scope timely themes clarity of prose and rigour of analysis Carroll Hameiri and Jones have ensured that with this fourth edition the volume will continue its landmark status The book which brings together prominent experts in the field will not only be of immense interest to scholars studying

Southeast Asia but also those seeking to understand the multifaceted nature of the political economy of uneven development in contemporary capitalism Professor Susanne Soederberg Queen's University Canada The Asia Research Centre at Murdoch University has long produced leading analyses of the social economic and political developments in Southeast Asia This volume carries on that wonderful tradition It brings together top class scholars to challenge our assumptions about one of the most dynamic parts of the world This collection is a crucial read for anyone interested in understanding trends in Southeast Asia's development today and into the future Professor Richard Stubbs McMaster University Canada This fourth volume in a distinguished series provides a welcome and timely update of the Murdoch School's distinctive approach to understanding the evolving political economy of Southeast Asia Its theoretical depth and wide empirical scope will be of great value to scholars students and practitioners seeking a systematic understanding of the political economy dynamics in the Asian region and more broadly of states and regions embedded in a complex unstable global political economy Professor Andrew Walter University of Melbourne This all new fourth edition of *The Political Economy of Southeast Asia* constitutes a state of the art comprehensive analysis of the political economic social and ecological development of one of the world's most dynamic regions With contributions from world leading experts the volume is unified by a single theoretical approach the Murdoch School of political economy which foregrounds struggles over power and resources and the evolving global context of hyperglobalisation Themes considered include gender populism the transformation of the state regional governance aid and the environment The volume will be of interest to scholars and students across multiple disciplines including political economy development studies international relations and area studies The findings of contributors will also be of value to civil society policymakers and anyone interested in Southeast Asia and its development [Democratising Southeast Asia](#)

Amitav Acharya,1998 **The Southeast Asian Economic Miracle** Young C. Kim,1998-12 This book brings together political scientists economists officials of Asian governments and representatives of the multinational banks to analyze and explain Southeast Asia's extraordinary growth It is an important study of the shifting winds of the political economy of growth in our time the movement away from a command to a free market economy Young C Kim is the editor **The Economies of Southeast Asia** Jose L. Tongzon,2002-01-01 This updated and revised edition provides an examination of issues of paramount importance for Southeast Asian economies such as the economic implications of the 1997 Asian crisis for both older and newer members of ASEAN *The Economies of Southeast Asia* Teofilo C. Daquila,2005 This book analyses the growth development and crisis experiences of the Southeast Asian economies in particular Indonesia Malaysia the Philippines Singapore and Thailand also known as ASEAN 5 The proposition is developed that the robust economic performance of the Southeast Asian economies during the past four decades has been attributed to the various factors developments and independent national policies which have been pursued by the individual member countries rather than to any regional economic framework The book covers eleven topics which is suitable for a one semester course on the

economics of Southeast Asia Also it has a narrower area coverage as it focuses only on the five economies namely Indonesia Malaysia the Philippines Singapore and Thailand The sectoral treatment of the crisis impact and the analytical treatment of policy responses to the crisis differentiate this book from other publications on the same topic Finally this book provides an analysis of national developments policies and factors which have contributed to the economic transformation of the respective Southeast Asian economies *Southeast Asia's Misunderstood Miracle* Jomo K.s.,1997-07-31 *Southeast Asia's Misunderstood Miracle* emphasizes the contribution of government intervention especially selective industrial policy to growth structural change and late industrialization in Thailand Malaysia and Indonesia Although government intervention has certainly been abused for private gain it has also been crucial for the sustained rapid growth and structural change experienced in the region Similarly Southeast Asian resource wealth may have weakened the imperative to industrialize in the region but inferior government intervention probably accounts for the relatively less impressive industrial achievements of the three countries The study also stresses the significant contribution of regional economic dynamics especially the increased role of direct foreign investment from Japan and the first tier newly industrializing economies of South Korea Taiwan Hong Kong and Singapore Thus the book qualifies contradicts and challenges some of the conclusions and policy recommendations of other works such as the World Bank's influential *East Asian Miracle* 1993 which suggested that other developing countries should seek to emulate the second tier Southeast Asian NICs rather than the first tier East Asian NIEs

Economic Factors in Southeast Asian Social Change Robert Van Niel,1968 Compilation of conference papers on the interrelationship of economic development and social change in South East Asia with particular reference to Indonesia Malaysia and the Philippines covers sociological aspects of marketing social integration in the urban area environment urbanization obstacles to investment rural development programmes transport cultivation techniques etc and includes case studies References Conference held in los angeles 1967 June 15 to 17 **Economic change, social structure, and the political system in Southeast Asia** Harold A. Crouch,1985 In this study the author compares the socio economic and political developments of the five original member states of ASEAN which have similar historical experiences and currently adopt strategies of economic development which have much in common The emphasis however is on the Philippines with comparisons being made between that country and the rest *Southeast Asia (Routledge Revivals)* Richard Higgott,Richard Robison,2013-10-31 The articles in this edited collection first published in 1985 consider the competing theories of the nature of development and underdevelopment in Southeast Asia Each chapter challenges the academic orthodoxies and dominant traditions of Southeast Asian studies particularly in relation to orientalist history behaviourist political science and development economics Overall the contributions offer an alternative framework for analysis which considers the structural changes to the political economy of Southeast Asia as well as the relationship between the state economy and class at a domestic level This is a fascinating collection of value to students and academics with an interest in Southeast Asian politics

economics and history **Economic and Political Trends in Southeast Asia** ,1973 Papers and Proceedings of a Seminar organized by the Institute of Southeast Asian Studies in Singapore Southeast Asian-centred Economies Or Economics? Mason C. Hoadley,1999 This book is not a definitive research statement nor yet another account of Asia s financial crisis Rather it offers Southeast Asian perspectives quite at variance to orthodox Western economic thinking Topics range from macro perspectives of Indonesia s Ekonomi Pancasila and Thailand s Buddhist Economics through Malaysia s Islamic financial institutions to regional and international perspectives of the remaining ASEAN countries and the IMF World Bank all tied up by setting them within a diachronic historical framework In so doing this volume looks to open up challenging and provocative fields of research essential for a real understanding of Southeast Asia and its current economic situation BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved **Social Change in Southeast Asia** Johannes Dragsbaek Schmidt,Jacques Hersh,Niels Fold,1997 Social Change in South East Asia provides a comprehensive and in depth examination of the ongoing process of development and societal transformation in a dynamic region of the Third World Written by a team of specialists from the fields of development studies sociology and political economy the book looks at some of the fundamental problems facing South East Asia by addressing the following issues the social constellations class culture and political legitimation and industrialisation and labour regulation **Southeast Asia** Jonathan Rigg,2004-08-02 The growth economies of Southeast Asia are presented by the World Bank and others as exemplars of development miracle economies to be emulated How did the region attain such status Are the other countries of Southeast Asia able to achieve such a rapid growth This book charts the development of Southeast Asia examining the economies of Vietnam Laos Cambodia and Burma alongside the established Asian market economies Drawing on case studies from across the region the author assesses poverty and ways in which the poor are identified and viewed Process and change in the rural and urban worlds are examined in detail focusing on the strengthening rural urban interaction as farmers make a living in the urban industrial sector and factories relocate into agricultural areas Giving prominence to indigenous notions of development based on Buddhism Islam and the so called Asian Way the author critically assesses the conceptual foundations of development ideas of post developmentalism and the miracle thesis In the light of the experience of one of the most vibrant regions in the world the book places emphasis on the process of modernization within wider debates of development and challenges the notion that development has been a mirage for many and a tragedy for some **Managing Economic Crisis in Southeast Asia** Saw Swee-Hock,2011 This book incorporates a selection of eight revised papers presented at the Conference on Managing Economic Crisis in Southeast Asia organized jointly by the Saw Centre for Financial Studies NUS Business School and the Institute of Southeast Asian Studies in January 2010 The chapters deal with the management of the 2008 09 economic crisis in Singapore Malaysia Thailand Vietnam the Philippines Indonesia and the region as a whole They represent an analysis of the impact of the economic crisis and the stimulus packages that were swiftly put in place by the

governments to mitigate the economic recession and to pave the way for a quick recovery The success of the monetary and fiscal policy measures in engendering a strong economic recovery in these countries is also discussed in considerable depth The book with contributions from experts on the topics covered will be extremely valuable to businessmen analysts academics students policy makers and the general public interested in seeking a greater understanding of the sub prime crisis that led to the global economic recession
