Economic Regulation Cases And Materials:

Economic Regulation Richard J. Pierce, 1994-01-01 Economic Regulation Donald F. Turner, 1962 **Cases and Materials on Economic Regulation of Business** Thomas D. Morgan, 1974 Economic Regulation and Its Reform Nancy L. Rose, 2014-08-29

The past thirty years have witnessed a transformation of government economic intervention in broad segments of industry throughout the world. Many industries historically subject to economic price and entry controls have been largely deregulated including natural gas, trucking, airlines, and commercial banking. However, recent concerns about market power in restructured electricity markets, airline industry instability amid chronic financial stress, and the challenges created by the repeal of the Glass Steagall Act which allowed commercial banks to participate in investment banking have led to calls for renewed market intervention. *Economic Regulation and Its Reform* collects research by a group of distinguished scholars who explore these and other issues surrounding government economic intervention. Determining the consequences of such intervention requires a careful assessment of the costs and benefits of imperfect regulation. Moreover, government interventions may take a variety of forms from relatively nonintrusive performance based regulations to more aggressive antitrust and competition policies and barriers to entry. This volume introduces the key issues surrounding economic regulation, provides an assessment of the economic effects of regulatory reforms over the past three decades, and examines how these insights bear on some of today's most significant concerns in regulatory policy.

Economic Regulation of Business Thomas D. Morgan, Jeffrey L. Harrison, Paul R. Verkuil, 1985 **Economic Regulation** Patrick H. Martin, Richard J. Pierce, 1979 International Contracts and National Economic Regulation: Dispute Resolution Through International Commercial Arbitration Mahmood Bagheri, 2000-12-06

The growth of national economic regulation and the process of globalisation increasingly expose international transactions to an array of regulations from different jurisdictions. These developments often contribute to widespread international contractual failures when parties claim the incompatibility of their contractual obligations with regulatory laws. The author challenges conventional means of dispute resolution and argues for an interdisciplinary approach whereby disciplines such as international economic law, conflict of laws, contract law, and economic regulations are functionally united to resolve international and multifaceted regulatory disputes. He identifies the normative foundation of contract law as an important determinant in this process, contending that contract law is essentially neutral and underpinned by the concept of corrective justice, while economic regulations are mainly prompted by distributive justice. Applying this corrective distributive justice dichotomy to international contracts, the author critically assesses major conflict of laws approaches such as proper law, the Rome Convention, and governmental interest analysis, which could disregard either public interest or private rights. The author, taking these theories into account, proposes an alternative two-dimensional interest analysis approach. He tests the viability of this approach with reference to arbitral awards and court decisions in various jurisdictions and concludes that it uniquely fits into the structure of international

commercial arbitration In adopting this approach arbitrators would take into account both corrective and distributive justice and to the extent that corrective justice prevails would be able to avert a total failure of the contract **Cases and Materials on Law and Economics** David W. Barnes, Lynn A. Stout, 1992 Economic analysis can shed light on the consequences of the law's murky operations by focusing on the incentives created by the law Applying economic principles to legal problems brings a better understanding of the implications of legal rules **Cases and Materials on Economic Regulation** John Quinn, 1979 **Catalog of Copyright Entries.
