Economics Meets Sociology In Strategic Management:

Economics Meets Sociology in Strategic Management Joel Baum, Frank Dobbin, 2000-07-20 There is a growing interaction between economists and sociologists engaged in the study of organizations strategies This volume moves the discussion to the next level by focusing the discussion and taking a step toward systematizing some of the relationships between economic and sociological approaches to strategic management *Introduction* Frank Dobbin, Joel A. C. Baum, 2014 Why do firms do what they do Why does one cut prices while its neighbor buys out competitors Why does one diversify into new industries while its neighbor spins off subsidiaries to focus on its core competence Why do some strategies rise while others fall These are central concerns of both strategic management theorists and economic sociologists We bring the two fields together to discuss their approaches to these questions with the goal of encouraging dialogue and cross fertilization Each field provides a snapshot of firm behavior from a particular vantage point When these snapshots are integrated something closer to a three dimensional view of the firm appears Multiunit Organization and Multimarket Strategy Noel A.C. Baum, H.R. Greve, Joel Baum, 2001-06-15 A conspicuous feature of the modern economy is the multitude of multiunit systems that operate in several markets an organizational form that arguably rivals the M form as the 20th century's most successful This text draws various ideas together to present possible developments *The Paradoxical Foundation of Strategic Management* Andreas Rasche, 2007-10-25 This book offers a systematic critique of the scientific discourse of strategic management It uncovers scholars unquestioned assumptions and shows that by upholding these assumptions researchers obscure the paradoxical nature of strategic reasoning To uncover the paradoxes of strategic management the author refers to the philosophy of Jacques Derrida He exposes the paradoxes that inevitably occur when theorizing about corporate strategy along the dimensions strategy context process and content and shows how these paradoxes can enrich future thinking about strategic problems The analysis is completed by a discussion of theoretical and practical implications which highlight the need to research strategy not as something an organization has but as something an organization does Such a practice perspective gives reference to the paradoxical ground that strategic management rests on and enriches scholars ability to reflect on practitioners tasks while doing strategy in organizations **Higher Education and the Evolution of Management, Applied Sciences, and Engineering Curricula** Machado, Carolina F., Davim, J.
