Land and Temple Benjamin D. Gordon, 2020-04-06 This exploration of the Judean priesthood's role in agricultural cultivation demonstrates that the institutional reach of Second Temple Judaism 516 BCE 70 CE went far beyond the confines of its houses of worship while exposing an unfamiliar aspect of sacred place making in the ancient Jewish experience Temples of the ancient world regularly held assets in land often naming a patron deity as landowner and affording the land sanctity protections Such arrangements can provide essential background to the Hebrew Bible's assertion that God is the owner of the land of Israel They can also shed light on references in early Jewish literature to the sacred landholdings of the priesthood or the temple

Galatians Reconsidered Neil Martin, 2022-10-20 What would the world look like if the Old Perspective on Paul was right about justification the New Perspective was right about Judaism and the Radical New Perspective was right to note ongoing differences between Jewish and Gentile converts *Galatians Reconsidered* is a compelling practical study of Paul the Apostle's writing that explores just that Emphasising the central role played by regression in Paul's argument on justification Neil Martin examines the dichotomy between faith and works and how the apostle envisaged the differences in how Jews and Gentiles should interact with the Law By re-establishing *Galatians* in its original Jewish and pagan context Martin exposes the problems faced by Galatian churches and shows how they still speak to modern churches today His insight not only helps us better appreciate Paul's message but challenges us to put his wisdom into practice in our own church settings Provocative and stimulating *Galatians Reconsidered* is a robust new look at the question of justification It will leave you with a thorough knowledge of the merits and failings of both the old and new perspectives on Paul as well as a broader understanding of the letter to the Galatians both in the context in which it was written and its continued relevance today

Paul, the Temple, and Building a Metaphor David Anthony Basham, 2024-12-12 David Anthony Basham argues that Paul and the Corinthians share a system of associated commonplaces about the Jerusalem temple Basham proposes that when Paul applies temple language to the Corinthians by calling them *naos theou* God's temple he sparks a creative process of interaction between the temple and the Corinthian assembly a process of selecting emphasizing and organizing information from the source domain temple to see the target domain the Corinthians in a new light Basham suggests that in understanding Paul's fraught relationship with certain institutions of Second Temple Judaism and his conception of gentile inclusion we can appreciate the creative ways in which he employs cultic imagery to describe his ministry and the ritual life of early gentile believers By exploring the construction of metaphor the depiction of the Jerusalem temple in Paul's letters and Judaean religion among gentiles Basham demonstrates that Paul's temple metaphor speaks to a new cultic reality for gentiles in Christ that is linked to Israel's worship though detached from

its actual expression in Jerusalem **Religion in Ephesos Reconsidered** Daniel Schowalter, Sabine Ladstätter, Steven J. Friesen, Christine Thomas, 2019-10-14 Religion in Ephesos Reconsidered provides a detailed overview of the current state of research on the most important Ephesian projects offering evidence for religious activity during the Roman period Ranging from huge temple complexes to hand held figurines this book surveys a broad scope of materials Careful reading of texts and inscriptions is combined with cutting edge archaeological and architectural analysis to illustrate how the ancient people of Ephesos worshipped both the traditional deities and the new gods that came into their purview Overall the volume questions traditional understandings of material culture in Ephesos and demonstrates that the views of the city and its inhabitants on religion were more complex and diverse than has been previously assumed **The Customs Law of Asia** M. Cottier, M. H. Crawford, C. V. Crowther, J. L. Ferrary, B. M. Levick, O. Salomies, M. Wörrle, 2008-12-18 The Roman Empire was based on law and it was vital for rulers and ruled that laws should be understood They were often given permanent form in stone or bronze This book transcribes translates and fully illustrates with photographs the inscription more than 155 lines in its damaged state that carries the regulations drawn up over nearly two centuries for the customs dues of the rich province of Asia western Turkey The regulations taken from Roman archives were set up in Greek in Ephesus and the book provides a rendering of the text back into Latin The damaged text is hard to restore and to interpret Six scholars offer line by line commentary and five essays bring out its significance from the Gracchi to Nero for Rome's government and changing attitudes towards provincial subjects for the historical geography of the Empire for its economic history and for the social life of Roman officials
