Economic Development In New Zealand The Dynamics Of Economic Space:

Dynamics of Economic Spaces in the Global Knowledge-based Economy Sam Park, 2014-09-19 This book addresses how economic spaces dynamically change within the context of the global knowledge based economy Specifically it centers the discussion on integrated views of understanding and conceptualizing dynamic changes of global economy under the global megatrends of globalization knowledge based economy information society service world climate change and population aging Focusing on East Asia especially on Korea it deals with case studies regarding the processes and patterns of these global dynamics looking at economic spaces of various spatial scales and types of economic actors This book develops a theoretical model for understanding and analysing the dynamics of economic spaces that are being reshaped within the larger global economy It also emphasizes the analysis of empirical studies at the level of firm region and state by considering an evolutionary perspective over time In developing its theoretical framework this book examines regional resilience intangible assets service innovation path dependence and other notions related to the evolution of economic spaces and incorporates these elements into real world case studies The integrated theoretical framework examined here contributes a new perspective on spatial disparities in the global economy An integral model of service innovation the integration of path dependence and regional resilience the interaction between firm and region for the accumulation of intangible assets and the roles of governments and global firms these are all essential to understanding the dynamics of economic spaces in East Asia The theoretical model and case studies in this book suggest policy implications for developing countries especially in the Asian and African regions with regard to regional development and innovation policies

New Economic Spaces: New Economic Geographies James W. Harrington, Richard Le Heron, 2017-11-28 As a core volume in the Dynamics of Economic Space series contributors from North America Australasia Europe and the Middle East each address the constitutive processes of new economic and institutional spaces and the theoretical methodological and policy engaging practices of emerging economic geographies Together they provide a timely and important overview of the current debates about the geographies of economic change As national and regional economies change rapidly so the frameworks concepts and methods used to describe and analyse those processes also need to evolve This volume puts forward a comprehensive analysis of a range of different and innovative means currently available through which to view regional economic activities and interactions

Missing Links in Labour Geography Ann Cecilie Bergene, Dr Sylvi B Endresen, Professor Hege Merete Knutsen, 2012-11-28 Addressing a number of missing links in the analysis of labour and its geographies this volume examines how theoretical perspectives on both labour in general and the organizations of the labour movement in particular can be refined and redefined Issues of agency power and collective mobilizations are examined and illustrated via a wide range of case studies from the global north and global south in order to develop a better and fuller appreciation of labour market processes in developed and developing countries
