Education and State Formation Andy Green,2016-07-27 Britain was the last major European state to create a national education system and is set to be the first to dismantle it In this wide ranging comparative study Andy Green examines the reasons for the uneven development of public education in England Prussia France and the USA

Schooled to Order David Nasaw,1981 Argues that as public schools became integral to the maintenance of American lifestyles they increasingly reflected the primary tensions between democratic rhetoric and the reality of a class divided system

**Education and State Formation** A. Green,2013-10-23 Education has always been a key instrument of nation building in new states National education systems have typically been used to assimilate immigrants to promote established religious doctrines to spread the standard form of national languages and to forge national identities and national cultures They helped construct the very subjectivities of citizenship justifying the ways of the state to the people and the duties of the people to the state In this second edition of his seminal and widely acclaimed book on the origins of public education in England France Prussia and the USA Andy Green shows how education has also been used as a tool of successful state formation in the developmental states of East Asia While human capital theories have focused on how schools and colleges supply the skills for economic growth Green shows how the forming of citizens and national identities through education has often provided the necessary condition for both economic and social development
