Economic Prehistory:

Economic Prehistory Gregory K. Dow, Clyde G. Reed, 2023-01-05 Around 15 000 years ago almost all humans lived in small mobile foraging bands By about 5 000 years ago the first city states had appeared This radical transformation in human society laid the foundations for the modern world We use economic logic and archaeological evidence to explain six key elements in this revolution sedentism agriculture inequality warfare cities and states In our approach the ultimate cause of these events was climate change We show how shifts in climate interacted with geography to drive technological innovation and population growth The accumulation of population at especially rich locations led to creation of group property rights over land stratification into elite and commoner classes and warfare over land among rival elites This set the stage for urbanization based on manufacturing or military defense and for elite controlled states based on taxation Our closing chapter shows how these developments eventually resulted in contemporary global civilization

Economic Prehistory Grahame Clark, 2009-04-09 Throughout his career Grahame Clark has pioneered on a world scale the use of the archaeological record to document the economic and social life of prehistoric communities In Europe he was the first to employ the concept of the ecosystem in archaeology and to underscore the necessarily reciprocal relationship that exists between culture and environment In Britain he has played a major role in moving archaeology away from its preoccupation with typology and spurring on the newly emergent discipline of bioarchaeology Economic Prehistory reflects all these concerns Following a comprehensive bibliography of Professor Clark's writing the volume opens with a series of classic papers on basic subsistence activities such as seal hunting whaling fowling fishing forest clearance farming and stock raising Subsequent sections then deal with world prehistory and the thorny relationship between archaeology education and society The volume closes with a retrospective which looks critically at such figures of the past as Gordon Childe and Mortimer Wheeler and to the author's own renowned excavations at the Mesolithic site of Starr Carr

European Economic Prehistory Robin Dennell, 1983 *Ern hrungsgeschichte Holoz n Klimageschichte*

Prehistoric Europe Timothy Champion, 2016-06-16 The study of European prehistory has been revolutionized in recent years by the rapid growth rate of archaeological discovery advances in dating methods and the application of scientific techniques to archaeological material and new archaeological aims and frameworks of interpretation Whereas previous work concentrated on the recovery and description of material remains the main focus is now on the reconstruction of prehistoric societies and the explanation of their development This volume provides that elementary and comprehensive synthesis of the new discoveries and the new interpretations of European prehistory After an introductory chapter on the geographical setting and the development of prehistoric studies in Europe the text is divided chronologically into nine chapters Each one describes with numerous maps plans and drawings the relevant archaeological data and proceeds to a discussion of the societies they represent Particular attention is paid to the major themes of recent prehistoric research especially subsistence economy trade settlement technology and social

organization Ecological Models in Economic Prehistory Gordon Bronitsky,1983 **The Role of Economic Prehistory** C. F. W. Higham,197? **Salt; a Study in Economic Prehistory** Jacques Nenquin,1961 **The Agricultural Revolution in Prehistory** Graeme Barker,2009 Addressing one of the most debated revolutions in the history of our species the change from hunting and gathering to farming this title takes a global view and integrates an array of information from archaeology and many other disciplines including anthropology botany climatology genetics linguistics and zoology **Prehistory at Cambridge and Beyond** Grahame Clark,1989-08-25 Grahame Clark s book examines the development of prehistoric archaeology at Cambridge and the achievements of its graduates placing this theme against the background of the growth of archaeology as an academic discipline worldwide Prehistory in Cambridge began to be taught formally in 1920 and emerged as a full tripos soon after the Second World War From the outset it focused on the aims and methods of archaeological research providing in addition for combinations of study options ranging from early prehistory to the archaeology of the major civilisations of the Old World and the protohistory of Northern Europe The measure of its success is shown by the achievement of Cambridge graduates at home and overseas in both the study and the field A significant outcome of their work has been the widespread recognition of archaeology as a subject of broad educational value not merely for undergraduates but for human beings the world over **Prehistoric Farming in Europe** Graeme Barker,1985-07-11 Drawing upon his own extensive knowledge of European archaeology Graeme Barker has impressively integrated the full range of archaeological data to produce in this book a masterly account of prehistoric farming in Europe on a unique scale He makes use of modern archaeological techniques to reconstruct the lives of prehistoric farmers in remarkable detail Not only do we now have a vivid picture of the prehistoric farmyard but we know what animals were kept how they were fed and why they were bred Evidence for crops grown and techniques of cultivation and husbandry helps recreate the prehistoric landscape Even the social organisation that determined the use of resources and provided the crucial stimulus for agricultural change can be relived Graeme Barker develops his argument through analogies with the agricultural history of classical and medieval Europe and concludes that today s industrial farmers can learn much from the successes and failures of early European farming **Hunters in Transition** Marek Zvelebil,2009-06-18 Hunters in Transition analyses the emergence of post glacial hunter gatherer communities and the development of farming **The Rise and Fall of an Economic Empire** C. Read,2010-09-29 We have seen many empires come and go From the Roman Empire to the British Empire we are now witnessing the decline of the US as a superpower How do economic innovations foster global economic dominance and how does the natural evolution of an economic empire eventually bring about its demise and replacement by other economic superpowers **Archaeological Method and Theory** Linda Ellis,2003-12-16 This Encyclopedia brings together the most recent scientific information on a collection of subjects that are too often and inconveniently treated in separate publications It provides a survey of archaeological method and theory as well as the application of physical and

biological sciences in archaeological research Every aspect of archaeological work is represented from the discovery process to the ultimate disposition of materials Thus the reader will find entries on subject matter covering disciplinary theory legislation affecting the work of archaeologists pre excavation surveying excavation methodology on site conservation techniques post excavation analysis The rapid evolution of analytical technology is often superficially treated or not covered at all in textbooks or other commonly available sources Here the latest refinements in techniques such as radiometric dating stable isotopic analysis and the PCR technique of DNA analysis are presented clearly and authoritatively The discussion of these techniques is amplified by including results of the work of professionals conducting interdisciplinary research and by covering the methodological enhancements provided by the physical and natural sciences Cultural property legislation regardless of its country of origin has affected how archaeologists conduct their work This encyclopedia covers all major U S legislation developed for the protection of cultural property including the recent Native American Graves Protection and Repatriation Act and offers a substantial article on worldwide legislation concerning the reburial of human remains and its effects on the present and future practice of archaeology Without some sort of conservation program at the point of excavation valuable materials may be inadvertently contaminated or destroyed Many simple and low cost techniques to promote both sample integrity and long term preservation for major classes of materials are described in this volume Traditional treatments of method and theory usually focus on prehistoric periods and are limited in their geographic range This volume includes discussions based on various historical periods on different continents as reflected in entries such as Historical Archaeology Industrial Archaeology Medieval Archaeology and Classical Archaeology *Hunter-Gatherer Economy in Prehistory* Geoff Bailey,1983-03-24 A series of case studies which combine an awareness of recent developments in hunter gatherer theory with a commitment to the analysis and interpretation of prehistoric material **Papers in African Prehistory** J. D. Fage,R. A. Oliver,1970-10-01 Professor Fage and Professor Oliver the editors of this collection are distinguished historians of Africa and as founding editors of the Journal of African History they both established the journal and used it to mark out developing areas of the subject In directing the journal they have pursued an active policy of commissioning articles in fields where the literature was scanty and in this volume they have collected together some of the most important articles they have published on African prehistory It is designed for the student of African history and the library that needs copies of frequently consulted papers to supplement its sets of periodicals All the articles contain either accounts of important research or more general review articles The book is illustrated with line diagrams and photographs One article which originally appeared in French has been translated into English **British and Irish Archaeology** ,1994 Supplement to LC Subject Headings Library of Congress. Subject Cataloging Division,1974 **Australian national bibliography** ,1961 **European Prehistory** Sarunas Milisauskas,2012-12-06 Sarunas Milisauskas 1 1 INTRODUCTION The purpose of this book is four fold to introduce English speaking students and scholars to some of the outstanding

archaeological research that has been done in Europe in recent years to integrate this research into an anthropological frame of reference to address episodes of culture change such as the transition to farming the origin of complex societies and the origin of urbanism and to provide an overview of European prehistory from the earliest appearance of humans to the rise of the Roman empire In 1978 the Academic Press published my book *European Prehistory* which typically for that period emphasized cultural evolution culture process technology environment and economy To produce a new version and an up to date prehistory of Europe I have invited contributions from specialists in the Palaeolithic Mesolithic Bronze and Iron Ages Thus while this version of *European Prehistory* is a new book however it still incorporates some data from the 1978 version particularly in The Present Environment and Neolithic chapters Like its predecessor this edition is structured around selected general topics such as technology trade settlement warfare and ritual

Grahame Clark and His Legacy John Coles, Arkadiusz Marciniak, 2010-05-11 Grahame Clark was a major figure in European archaeology for over 50 years and pioneered work in prehistoric economies and ecology in science based archaeology and in a world view of ancient societies In this book a variety of authorities from Europe and beyond assess these major contributions and provide discussions about Clark's own colleagues and contemporaries his major archaeological themes and his varied approaches and his world wide contacts and travels The papers provide surveys and opinions on Clark's role in the development of archaeology in the 20th century and the basis that it provided for archaeological work of today The book will be a valuable source of evidence ideas and references for scholars interested in the development of the discipline
