Economics An Awkward Corner:

Economics: an Awkward Corner Joan Robinson, 1966 Analysis of the capitalist economic system with particular reference to the economy of the UK covers economic theory historical aspects the cost of living the balance of payments trade foreign exchange the relationship of economic growth and employment policy monopoly ownership workers stock ownership etc References **Economics** George L. Hicks, 1967 Economic , 1967 Joan Robinson: Writings on Economics J. Robinson, 2001-12-19 Joan Robinson was one of the most prominent economists of the century She made fundamental contributions to many different areas of economic thought She studied economics at Girton College Cambridge graduating in 1925 During the 1930 s she published three books and participated in Keynes Circus Her early contributions to economics were extensions of neo classical theory and in 1933 she introduced the theory of imperfect competition She became an ardent follower of Keynes and produced expositions of his theory She was one of the first economists to take Marx seriously as an economist She became Reader in Economics at Cambridge in 1956 and in the same year she published *The Accumulation of Capital* in which she began to extend Keynes theory in particular to take into consideration long run issues of growth and capital accumulation Her work on growth theory in 1962 alongside Nicholas Kaldor led to them developing the Cambridge Growth Theory She became the first ever female Fellow of Kings College Cambridge in 1979 This collection of her writings is an excellent testament to the depth and breadth of the impact she had on economic theory as a whole Joan Robinson and the Americans Marjorie Shepherd Turner, 2017-07-05 Employees with valuable skills and a sense of their own worth can make their jobs pay perks and career opportunities different from those of their coworkers in subtle and not so subtle ways This book shows how such individual arrangements can be made fair and acceptable to coworkers and beneficial to both the employee and the employer *Gaia Connections* Alan S. Miller, 2003 *Gaia Connections* addresses several arenas of concern as humankind faces an escalating ecological and moral crisis in this new millennium Beginning with an overview of the history of philosophy and the importance of traditional thinking on modern day ethical reflection the book then looks at the development of theories of justice the problems of equity in global human relations the inability of existing economic systems to resolve our human and environmental dilemmas the unnatural connections now obtaining between genuine human need and the technological drift of science the new genetics and reproductive technologies and the nature of modern war The study concludes with some historical perspectives on American environmental history and the urgent need for change in our ecoethical social and value systems The principal focal areas of the original edition are continued the actual state of the global environment today the imperative for the development of sustainable economic and resource systems the movement within much of science toward an almost universal biological determinism and the need for a reaffirmation of an ethical value system which places the needs of people before the needs of property and profits The revised edition not only updates these data and the concerns of the original book but also visits a number of new issues the movement for

environmental justice the connections between global poverty and the now almost universal allegiance to a new world market and free trade system the progress and the dilemmas of molecular biology and genetic engineering and the growing disarray within the global systems of political economy

The Social Science Imperialists G. C. Harcourt, 2013-11-05 The essays in this volume present a comprehensive view of modern economics They range from technical papers on a specific issue such as that devoted to a critique of Kaldor's model of income distribution through evaluation of a wide ranging literature with special emphasis on the Cambridge controversies in the theory of capital Intellectual portraits of Eric Russell Joan Robinson and Lorie Tarshis are also included The concluding essay *The Social Science Imperialists* gives an overview of the issues and trends that have dominated economics in recent years

Reconstructing Political Economy William K. Tabb, 2002-01-22 This volume offers an original perspective on the questions the great economists have asked and looks at their significance for today's world Written in a provocative and accessible style it examines how the diverse traditions of political economy have conceptualised economic issues events and theory Going beyond the orthodoxies of mainstream economics it shows the relevance of political economy to the debates on the economic meaning of our times *Reconstructing Political Economy* is a timely and thought provoking contribution to a political economy for our time In this light it offers fresh insights into such issues as modern theories of growth the historic relations between state and market and the significance of globalisation for modern societies

Post-Keynesian Essays in Biography G C Harcourt, 2016-07-27 This volume is a collection of intellectual biographies of economists which the author has written over the last 16 years There are four categories accounts of Cambridge greats Joan Robinson Piero Sraffa Nicholas Kaldor Richard Kahn oral histories of Lorie Tarshis George Shackle Kenneth Boulding and Richard Goodwin memoirs of close friends of the author who have died and shorter essays which include John Hicks James Meade Brian Reddaway Arthur Smithies Heinz Arndt and J M Keynes

The Joan Robinson Legacy Ingrid H. Rima, 2016-09-16 First Published in 1991 The undertakings within this book are testimony to the professional legacy Joan Robinson left behind The contributors discuss her irreverence for established theory her seemingly unquenchable zest for intellectual argument doggedly pursued on the conviction that she was at least morally right the sharpness of her wit along with her occasionally unconventional mode of dress and her enjoyment of nature This includes a biographical memoir and concludes with a bibliography of the writings of Robinson

Joan Robinson Prue Kerr, Geoffrey Colin Harcourt, 2002 *The Keynesian Tradition* R. Leeson, 2008-04-30 This volume examines the process by which Keynes message got interpreted and re interpreted and thus separated into a Left and a Right political economic stream Archival evidence is used to shed a fresh light on many of the controversies and colourful characters of the Keynesian tradition

Growth, Profits and Property Edward J. Nell, 1979 This collection of essays is designed to illustrate the variety complexity and power of non neoclassical economic thinking The essays define the fundamental questions differently employ different analytical tools and arrive at different conclusions The two strands of non neoclassical thinking that occupy most of

the book are the neo Keynesian and the neo Marxian The bulk of the book is composed of essays on microeconomics macroeconomics trade comparative systems and welfare with an unusual section on property rights and social hierarchy

Theories of Surplus and Transfer (Routledge Revivals) Helen Heslop,2014-10-10 First published in 1990 this is an analysis of the history of western economics from Petty to Supply Side through the prism of the controversies over productive labour and its product It treats the early economists productive unproductive dichotomies as shorthands for many other sets of distinctions relevant for boundaries value and welfare Central to the debates is the question of whether the economy is said to generate a surplus Economists and politicians with views on these matters include the Physiocrats Smith and Ricardo Marx and his Soviet and western admirers the marginalists Keynes Polanyi Becker and Reagan The book maps the shifting emphases that economists and social thinkers have placed on markets and mode of production generally This reissue will be useful to students of economic thought welfare theory and policy growth economics and economic systems *Joan Robinson*

G. Harcourt,P. Kerr,2009-08-28 Joan Robinson is widely considered to be amongst the greatest economists of the 20th Century This book provides a comprehensive study of her life and work examining her role in the making of The General Theory her critical interest in Marxian economics her contributions to Labour Party policy and her writings on development especially China

Essays in Keynesian Persuasion Maria Cristina Marcuzzo,2019-05-02 This collection of essays of provides a comprehensive and detailed account of several aspects of the Cambridge School of Economics which featured a number of outstanding figures such as Keynes Sraffa Kahn and Joan Robinson Scholars interested in heterodox economics the history of economic thought and political economy will find in this book the Keynesian leitmotivs the fight against unemployment and the roles of money and uncertainty which make Keynes s legacy relevant for today s world The contributions here are written in the spirit of Keynes and are persuasive and accessible to the general public *Following Marx* Michael A. Lebowitz,2009 Combining Marx TM s focus upon the totality and its appearance as capitals in competition with specific applications in political economy Following Marx demonstrates how the failure to understand Marx TM s method has led astray many who consider themselves Marxists

The Palgrave Companion to Cambridge Economics Robert A. Cord,2017-02-20 Cambridge University has and continues to be one of the most important centres for economics With nine chapters on themes in Cambridge economics and over 40 chapters on the lives and work of Cambridge economists this volume shows how economics became established at the university how it produced some of the world s best known economists including John Maynard Keynes and Alfred Marshall plus Nobel Prize winners such as Richard Stone and James Mirrlees and how it remains a global force for the very best in teaching and research in economics With original contributions from a stellar cast this volume provides economists especially those interested in macroeconomics and the history of economic thought with the first in depth analysis of Cambridge economics Making Sense of Joan Robinson on

China Pervez Tahir,2019-12-11 Joan Robinson was a member of the famous Keynes Circus of young economists at Cambridge

in the 1930 s She was a theorist par excellence making outstanding contributions to the understanding of competition aggregate demand and capital At the same time she developed an interest in underdeveloped economies and alternatives to capitalism that eventually produced a long list of writings on China between the 1950 s to the 1970 s These writings were neither theoretical nor empirical but a series of opinion pieces and reports Yet it is these writings that arguably cost Joan Robinson the Nobel Memorial Prize in economics This short book reviews those writings and comments on what has happened since with regard to China s development Joan Robinson s interpretation and predictions and how her 1950 s lectures in China match up to China s policies since Mao This book will be of interest to students and scholars interested in how the history of economic thought can inform and progress development economics *Balance of Payments Theory and the United Kingdom Experience* A.P. Thirlwall, 1986-09-26
