International Economic Law and National Autonomy Susy Frankel, 2010-10-14

International commitments may sit uneasily with national pressures in the best of times This age of economic uncertainty brings these tensions into sharper relief This volume draws together thirteen analyses of this tension in a wide array of contexts including each of the three main pillars of the World Trade Organization international investment law and arbitration and the international financial institutions The essays feature internationally recognised experts addressing topical examples of international economic law obligations clashing with domestic political interests For example Professor Robert Howse of New York University Law School addresses issues of globalization and whether international and national interests can in today s world be considered separate while Ko Yung Tung the former Director General of the World Bank looks at trends in investment treaty arbitration and considers what the future may hold in light of the recent financial crisis the rise of China as an economic powerhouse and other factors

Understanding Small-Island Developing States Amelia Santos-Paulino, Mark McGillivray, Wim Naudé, 2013-10-18 Small island developing states SIDS are characterised by high economic geographical and social vulnerability These states are perceived as economically vulnerable exhibiting poor economic performance and embedding low levels of achieved well being on most criteria SIDS which occupy very large parts of the world face idiosyncratic development challenges largely owing to their susceptibility to external shocks Still these countries are all too often overlooked in the development research literature Arising from a UNU WIDER research project this book provides in depth research on the international dimensions of SIDS development experiences Using a wealth of data as well as case studies the main topics examined comprise aid policies and growth the costs of neglect in terms of losses owing to a country falling into the fragile states group of that country and those in its region the composition of trade and the impact of external shocks and the impact of remittances The studies jointly provide valuable insights for small islands and other developing countries in the pursuit of sustainable growth and development This book was published as a special issue of the Journal of Development Studies

The Political Economy of Special Economic Zones Lotta Moberg, 2017-03-16 This book examines SEZs from a political economy perspective both to dissect the incentives of governments zone developers and exporters and to uncover both the hidden costs and untapped potential of zone policies Costs include misallocated resources the encouragement of rent seeking and distraction of policy makers from more effective reforms However the zones also have several unappreciated benefits They can change the politics of a country by generating a transition from a system of rent seeking to one of liberalized open markets In revealing the hidden promise of SEZs this book shows how the SEZ model of development can succeed in the future

Value and Crisis Makoto Itoh, 2020-12-30 Analyzes Japanese contributions to Marxist theory Marxist economic thought has had a long and distinguished history in Japan dating back to the First World War When interest in Marxist theory was virtually nonexistent in the United States rival schools of thought in Japan emerged and brilliant debates took place on Marx s Capital and on capitalism as it was developing in Japan Forty years ago Makoto Itoh s Value and Crisis began to chronicle these Japanese contributions to Marxist theory discussing in particular

views on Marx's theories of value and crisis and problems of Marx's theory of market value. Now in a second edition of his book, Itoh deepens his study of Marx's theories of value and crisis as an essential reference point from which to analyze the multiple crises that have arisen during the past four decades of neoliberalism. One contribution of the original *Value and Crisis* was to bridge Japan and the world in the field of Marxian political economy. Itoh's second edition demonstrates an even wider ranging familiarity with major schools of Marxist thought, summarizing and assessing viewpoints of such theorists as Hilferding, Bauer, Kautsky, Bukharin, Luxemburg, Grossman, Sweezy, the Japanese Marxist Kozo Uno, together with the relevant parts of *Capital* and a section on the 1930s Great Depression. Given today's current emergencies of world capitalism and socialism, says Itoh, we need to work together to resolve new global problems, articulating new issues of Marx's theories of value and crisis. The promise of Marx's theories has not waned. If anything, given the failure of Soviet style socialism and the catastrophe of neoliberalism, it grows daily. **Resources in Education**, 2001 **Proceedings of the 2022 2nd**
