Demy, Jeffrey M. Shaw Ph.D., 2019-09-19 With respect to the countries of the world this work addresses two basic questions How does religion affect politics in this country and How does politics affect religion in this country Although there are many books on the topics of religion and politics reference works that consider the two together are few with those that do exist primarily addressing theory rather than trends The present work does the latter contextualizing them within regional and national boundaries In so doing it recognizes the power of political and religious ideas and movements on individuals communities and nations making the work a valuable resource for several disciplines among them political science international relations religion and sociology The work focuses on the interplay of religion and politics in countries around the world with an emphasis on the post 2000s It is organized by global geographic regions including Africa Central and South America and the Middle East and presents countries alphabetically

within those sections Each region has a brief overview of the political religious dynamics of the area so readers can compare and contrast the dynamics between and among countries in a region The work also includes an introduction sidebars and a bibliography

The Political Economy of Japanese Society: Volume 2: Internationalization and Domestic Issues Junji Banno,1998-03-12 Until recently many Japanese believed that they lived in the richest country in the world and in the early 1990s they welcomed the end of one party dominance However by the middle of the 1990s many Japanese are no longer confident in their economy nor optimistic in their politics This authoritative study analyses various aspects of Japanese society and economy in order to provide a balanced view between the optimism of the 1980s and the pessimism characteristic of more recent years The Political Economy of Japanese Society is a revision and translation of a multidisciplinary research project carried out by the Institute of Social Science at the University of Tokyo Beginning with the late nineteenth century it examines the historical developments of Japan s contemporary political economy paying particular attention to the changes that have occurred from below Social actors who have often been given peripheral treatment such as opposition parties the aged female workers and foreign workers are brought to the forefront of the analysis alongside those considered more mainstream such as the governing party large corporations and labour unions The Japanese political economy of the 1980s and 90s has had a strong impact on the global economy and this book also analyses selective influences on the outside world in particular on other Asian nations and the USA Volume 1 analyses the structures of the Japanese political economy which encouraged continuous economic growth in the period from 1955 to 1990 focusing on such phenomena as Japanese political management the Japanese employment system and one party dominance in politics Volume 2 examines some of the problems inherited from this period of dramatic economic growth

*Remembering the 1980 Turkish Military Coup d'État* Elifcan Karacan,2015-11-20 In her research studies Elifcan Karacan shows the relation between trauma violence and memory with a specific focus on the events considering the 1980 Military Coup d tat in Turkey Based on collective memory theories and cultural trauma theories the author focuses on the reconstruction of the past in present times and memory practices such as commemorations anniversaries construction of memory places museums This book seeks for an understanding of collective memory within individual narrations and mnemonic practices by using narrative interviews and biographical case reconstruction methods

**Revisiting Globalization and the Rise of Global Production Networks** S. Javed Maswood,2017-07-24 This book takes issue with the likening of contemporary globalization to nineteenth century trade interdependence in which the defining feature of contemporary globalization is the spread of global production networks which were notably absent in the past Maswood demonstrates that the emergence of global production networks GPNs was not a result of economic and trade liberalization but instead due to neo protectionist developments in the 1980s

that acted as a catalyst to transform Japan's nationally based production networks into the now ubiquitous GPNs. Through this case study of Japan, the author lays out a case for reconsidering the origins of globalization and explores some of the consequences that are likely to flow from progressive evolutionary transition towards a global economy.

**A History of States and Economic Policies in Early Modern Europe** Silvia A. Conca Messina, 2019-04-24 Why was early modern Europe the starting point of the economic expansion which led to the Industrial Revolution? What was the state's role in this momentous transformation? A History of States and Economic Policies in Early Modern Europe takes a comparative approach to answer these questions, demonstrating that wars, public finance, and state intervention in the economy were the key elements underlying European economic dynamics of the era. Structured in two parts, the book begins by examining the central issues of the state-economy relationship, including military revolution, the fiscal state, and public finance, mercantilism, the formation of commercial empires, and the economic war between Britain and France in the 1700s. The second part presents a detailed comparison between the different economic policies of the most important European states, looking at their unique demographic, economic, military, and institutional contexts. Taken as a whole, this work provides a valuable analysis of early modern economic history and a picture of Europe's global position on the eve of the Industrial Revolution. This book will be useful to students and researchers of economic history, early modern history, and European history.

**A Revised History for Advanced Level and Colleges** Nassoro Habib Mbwana Msonde, 2017-02-17 This book is much directed to accomplish the readers' demand, in particular the students for advanced level, i.e. high schools and colleges, on African history from the past to the present. It covers the period from the tenth century to the present. It includes the development of precolonial African societies, Africans during the European mercantile time, focusing on similarities and factors for disparities on advancement and lives of black people in the New World since they arrived as slaves and their contribution on American civilization and development. European colonialism in the second half of the nineteenth century is another important historical era that shaped Africa. As Europe and America advanced into imperialism and neocolonialism, the developing countries in the southern hemisphere still stood in dilemma. A Revised History for Advanced Level: its theories of colonial bureaucracy, character, functions, and implication on Africans' agricultural systems and the World War I, while chapter 5 represents the colonial economy and social services after World War II. Chapter 6: The Influence of External Forces, Rise of Nationalism, and the Struggle for Independence focuses on external factors for

decolonization Chapter 7 is Political and Economic Development in Africa since Independence Finally chapter 8 is Sample Questions for Final Examinations and Trials at Schools and Colleges
