Ecstatic Antibodies Tessa Boffin, Sunil Gupta, 1990 This book and the exhibition launches with it represent a powerful exploration in both image and text of the impact of the AIDS crisis Different voices reveal the profound inadequacies in our attitudes to disease The contributors disrupt the politically laden mythology of HIV and AIDS and affirm the persistence of love and desire in the face of death More than an interruption to personal life AIDS has stimulated an eruption in creative life By wresting control of the imagery of AIDS Ecstatic antibodies demystifies icons like the nation and the family and illuminated attitudes to gender sexuality racial and moral diversity Ecstatic antibodies was defined to actively encourage cultureal practice It was seen to include a variety of media bsed work using AIDS as its subject matter including photography installation and video Cases of citation Chloë Julius, Michael Green, Matthew Holman, 2024-09-24 Cases of citation presents a history of artists who incorporated literary references into their work from the 1960s onwards Through a series of object focused chapters that each take up a singular case of citation the collection considers how literary citation emerged as a viable and urgent strategy for artists during this period It surveys nine artworks by a diverse group of artists including David Wojnarowicz Lis Rhodes Romare Bearden and Silvia Kolbowski whose citations draw on literary works with authors ranging from Gertrude Stein to Jean Genet The book also features an interview with pioneering feminist artist Elaine Reichek that discusses her career long commitment to working with text Together the artworks and cited texts are approached from various critical angles with each author questioning and complicating the ways in which we can read textual citations in art

These essays chart the theory and practice of art art education as it relates to issues of postmodernity and poststructuralism concerning representation identity politics consumerism postmodern architecture ecology phallocentrism of the artistic canon pluriculturalism media and technology and AIDS As a former editor of The Journal of Social Theory in Art Education and a founding member for the Caucus on Social Theory in Art Education the author attempts to deconstruct the current art education paradigm which is largely based on modernist tenets and to reorient art education practice to social issues as developed in both media education and cultural studies Part of the intent in these two volumes is to undertake a sustained critique of the 1982 Art in the Mainstream A I M statement which continues to be considered as the core value for art education. The distinct intention of this critique is to put forward a new value base for art art education in these postmodern times Many of the essays raise the need to be attentive to sex gender issues in art art education and the need to read the artistic discourse otherwise There is a sustained critique of the art programs developed by the Getty Center for the Arts whose arts curriculum presents the paradigm case of late modernist thinking Some essays are written in a provocative form that tries to accommodate such content This is particularly the case in Pun k Deconstruction where architectural discourse is deconstructed and which includes an artistic performance given by the author in 1987 This singular set of volumes combines scholarship in the areas of gender studies aesthetics art history art education poststructuralism and cultural studies in a unique blend of theory and practice for rethinking the field Desi Queers Churnjeet Mahn, D.
