**Anyone who Can be Fired Needs a Fallback Position** John E. Arnold, 2003 Fallback Position Preparing a Contingency Plan for the Worst Case Scenario provides career and personal tools for anyone who can be fired or laid off so a job loss will be less devastating to them or their family Those tools include analyzing what is important on the job and off what you do not want from work what you do want from your work how to negotiate severance how to protect yourself from defamation how to handle health insurance and how to negotiate for you and your family's well being Its a matter of survival The days of years on the job and a gold watch are long gone When push comes to shove the friend who hired you will think of his or her career reputation and the organization before thinking of you If any of those are perceived by the boss to be better off by cutting you loose by whatever euphemism then you're toast Be prepared

*Structure and Emplacement of High-level Magmatic Systems* Kenneth Thomson, Nick Petford, 2008 There are continual rounds of annual conferences special sessions and other symposia that provide ample opportunity for researchers to convene and discuss igneous processes However the origin of laccoliths and sills continue to inspire and confound geologists In one sense this is surprising After all don't we know all we need to know about these rocks by now As testified by the diverse range of topics covered in this volume the answer is clearly no This book contains contributions on physical geology igneous petrology volcanology structural geology crustal mechanics and geophysics that cover the entire gambit of geological processes associated with the shallow emplacement of magma High level intrusions in sedimentary basins can also act as hydrocarbon reservoirs and as sources for thermal maturation In drawing together a diversity of perspectives on the emplacement of sills laccoliths and dykes we hope to advance further our understanding of their behaviour

Fallen Tigers Daniel Jackson, 2021-05-11 Mere months before the attack on Pearl Harbor President Franklin D Roosevelt sent a volunteer group of American airmen to the Far East convinced that supporting Chinese resistance against the continuing Japanese invasion would be crucial to an eventual Allied victory in World War II Within two weeks of that fateful Sunday in December 1941 the American Volunteer Group soon to become known as the legendary Flying Tigers went into action For three and a half years the volunteers and the Army Air Force airmen who followed them fought in dangerous aerial duels over East Asia

Audaciously led by master tactician Claire Lee Chennault daring pilots such as David Lee Tex Hill and George B Mac Millan led their men in desperate combat against enemy air forces and armies despite being outnumbered and outgunned. Aviators who fell in combat and survived the crash or bailout faced the terrifying reality of being lost and injured in unfamiliar territory. Historian Daniel Jackson himself a combat tested pilot recounts the stories of downed aviators who attempted to evade capture by the Japanese in their bid to return to Allied territory. He reveals the heroism of these airmen was equaled and often exceeded by that of the Chinese soldiers and civilians who risked their lives to return them safely to American bases. Drawing from thorough archival research and compelling personal narratives from memoirs wartime diaries and dozens of interviews with veterans this vital work offers an important new perspective on the Flying Tigers and the history of World War II in China.
