*Love of Mirrors* Gary Hyland,2008 In *The Love of Mirrors* Gary Hyland blends the most evocative work from his six prior collections with fourteen previously unpublished poems to reveal an astonishing range of human experience Calling upon a lifetime of subtle observation Hyland uses a range of styles and techniques to take his reader on a journey from the playful innocence of childhood through the bitter compromise of mid life to ultimately discover peace in the simple joys of daily life beneath a lengthening shadow of mortality The resulting collection possesses a narrative voice strong enough to draw the reader inexorably along a path full of the unexpected twists that comprise a life Hyland is not content to limit himself to the internal personal struggle but also addresses the superficial glitter and lingering ambivalence of our post 9 11 society Not shying away from the hollow pain of random violence and abuse he creates a cast of vivid characters that challenge readers to slip beneath their skins and experience their haunting stories directly In the end the reader will possess the feeling of having traveled far and experienced much on a route that even when it brushes the darkest acts ultimately leads to a haven where even the unworthy can rise above their circumstances and feel the transcendence of hope
