Palmer, Neil Parsons, 1977-01-01      The Trouble with Africa Robert Calderisi, 2014-12-23 After years of frustration at the stifling atmosphere of political correctness surrounding discussions of Africa long time World Bank official Robert Calderisi speaks out He boldly reveals how most of Africa's misfortunes are self imposed and why the world must now deal differently with the continent Here we learn that Africa has steadily lost markets by its own mismanagement that even capitalist countries are anti business that African family values and fatalism are more destructive than tribalism and that African leaders prey intentionally on Western guilt Calderisi exposes the shortcomings of foreign aid and debt relief and proposes his own radical solutions Drawing on thirty years of first hand experience *The Trouble with Africa* highlights issues which have been ignored

by Africa's leaders but have worried ordinary Africans diplomats academics business leaders aid workers volunteers and missionaries for a long time It ripples with stories which only someone who has talked directly to African farmers and heads of state could recount Calderisi's aim is to move beyond the hand wringing and finger pointing which dominates most discussions of Africa Instead he suggests concrete steps which Africans and the world can take to liberate talent and enterprise on the continent

*Nigeria in the Fourth Republic* E. **Africa After Independence** Godfrey Mwakikagile, 2006 This work focuses on the early years of independence and the problems African countries faced soon after the end of colonial rule Many of those problems still exist today They include poverty and underdevelopment adoption of alien ideologies and economic and political systems structural flaws of the modern African state and its institutions inherited at independence nation building democratization national integration and ethnoregional rivalries among others It is also a historical study of the continent since the partition of Africa by the imperial powers and of the struggle for independence It also focuses on the continent's demographic composition shedding some light on the complexity and diversity of the world's second largest continent The history of Africa's indigenous peoples and their

earliest contact with foreigners provides a background to this telescopic survey The sixties was one of the most important decades in the history of Africa and this work provides a balanced perspective on those years when Africans celebrated the end of colonial rule on their continent It is a compact study covering a vast expanse of territory from the advent of imperial rule to the attainment of sovereign status for African countries during the sixties and the problems they faced in those years As a demographic portrait it excels in depicting the continent as a tapestry that reflects the racial diversity and multiethnic composition of this vast land mass the second largest after Asia And as a historical and political analysis it addresses some of the most important issues in the post colonial era including the Cold War with the Congo figuring prominently in the analysis as the first theatre of combat and super power rivalry in the early sixties on the African continent The dawn of freedom provided opportunities and challenges for the young African nations as they tried to modernize and consolidate their independence in a world dominated by major powers and contending ideologies It was a rude awakening to the harsh realities of nationhood One of these was the desire by the major powers to turn African countries into client states as the two ideological camps East and West competed for world domination As Julius Nyerere warned We are not going to allow our friends to choose our enemies for us One of the most contentious grounds for this hegemonic control was of course the Congo right in the middle of the continent It became the bleeding heart of Africa as the country was turned into a combat theatre mainly between the surrogate forces of the West and the Congolese nationalist forces supported by a number of African countries and by the Soviet Union and the People's Republic of China The Congo imbroglio since the turbulent sixties mainly as a result of foreign intrigue and intervention is one of the most important subjects addressed in this book And it raises serious questions that have profound implications even today for a continent mired in conflict this time ignited by the Africans themselves in many but not in all cases Yet prospects for the world's poorest and most embattled continent are not bleak if Africans seek their own solutions to their own problems in this post Cold War era of globalization dominated by the industrialized nations The book includes many photos from the early sixties the dawn of a new era when African countries won independence which Oginga Odinga described as Not Yet Uhuru *The Paradox of Africa's Poverty* Tirfe Mammo, 1999 Taking Ethiopia as a case study this work examines the prevailing views on the poverty of much of Africa and argues that the current situation can be reversed by attacking the root causes of poverty once they are properly understood Resources in Education, 1985-12 **Democracy, Constitutionalism, and Politics in Africa** Eunice N. Sahle, 2017-07-06 This volume explores contemporary political developments in various parts of Africa in the age of democracy constitutionalism the securitization of development and global terrorism The contributions by leading observers of constitutionalism and African politics in the context of a global political and economic system provide a nuanced understanding of important themes in contemporary African politics constitutionalism democratic politics and governance women's rights the African Union securitization of development civil society and debates concerning global terrorism and the war on terror As such it will be of
