Putin's Russia and the Falsification of History Anton

Weiss-Wendt,2020-09-03 This book provides a bold examination of the political use of history in contemporary Russia Anton Weiss Wendt argues that history is yet another discipline misappropriated by the Kremlin for the purpose of rallying the population He explains how since the pro democracy protests in 2011 12 the Russian government has hamstrung independent research and aligned state institutions in the promotion of militant patriotism The entire state machinery has been mobilized to construe a single glorious historical narrative with the focus on Soviet victory over Nazi Germany Putin s Russia and the Falsification of History examines the intricate networks in Russia that engage in historymaking Whether it is the Holocaust or Soviet mass terror Tsars or Stalin the regime promotes a syncretic interpretation of Russian history that supports the notion of a strong state and authoritarian rule That interpretation finds its way into new monuments exhibitions and quasi professional associations In addition to administrative measures of control the Russian state has been using the penal code to censor critical perspectives on history typically advanced by individuals who also happen to call for a political change in Russia This powerful book shows how history is increasingly becoming an element of political technology in Russia with the systematic destruction of independent institutions setting the very future of History as an academic discipline in Russia in doubt Reports and Documents United States. Congress,1956 Allen Welsh Dulles United States. Central Intelligence Agency. Library,1962 **Lithuania 1940** Alfred Erich Senn,2007-01-01 In June 1940 as Nazi troops marched into Paris the Soviet Red Army marched into Lithuania Latvia and Estonia seven weeks later the USSR Supreme Soviet ratified the Soviet takeover of these states For half a century Soviet historians insisted that the three republics had voluntarily requested incorporation into the Soviet Union Now it has become possible to examine the events of that tumultuous time more carefully Alfred Erich Senn the author of books on the formation of the Lithuanian state in 1918 1920 and on the reestablishment of that independence in 1988 1991 has produced a fascinating account of the Soviet takeover juxtaposing a picture of the disintegration and collapse of the old regime with the Soviets imposition of a new order Discussing the historiography and the living memory of the events he uses the image of a shell game that focused attention on the work of a supposedly non communist government while in the hothouse conditions of military occupation Moscow undermined the state s independent institutions and introduced a revolution from above Remembering the Road to World War Two Patrick Finney,2010-09-13 Remembering the Road to World War Two is a broad and comparative international survey of the historiography of the origins of the Second World War It explores how in the case of each of the major combatant countries historical writing on the origins of the Second World War has been inextricably linked with conceptions of national identity and collective memory *The Taiwan Consensus and the Ethos of Area Studies in Pax Americana* Jon Douglas Solomon,2023-06-29 This book constitutes a timely intervention into debates over the status of Taiwan at a moment

when discussions of democracy and autocracy imperialism and agency unipolarity and multipolarity dominate the intellectual agenda of the day Pursuing a parallel trajectory that is both epistemic and historical that is traced out in relation both to Taiwan's recent history and to the disparate forms of knowledge production about that history this work engages in scholarly debate about some of the burning issues of our time including transitional justice hegemony and conspiracy in the digital age debt regimes cultural difference national language and the traumatic legacies of war colonialism anticommunism antiblackness and neoliberalism Providing trenchant analyses of the fundamental bipolarity that persists amidst both unipolar and multipolar conceptions of the world schema inherited from the colonial imperial modernity this book will be of interest to scholars in many fields including translation studies postcolonial studies Marxism studies trauma studies media studies poststructural theory gender studies cold war studies area studies American studies black studies and so forth

Falsifiers of History, 1985 The Routledge Handbook of Russian International Relations Studies Maria Lagutina, Natalia Tsvetkova, Alexander Sergunin, 2023-02-27 This handbook examines the study of international relations IR in Russia giving a comprehensive analysis of historical theoretic conceptual geographical and institutional aspects It identifies the place and role of Russia in global IR and discusses the factors that facilitate or impede the development of Russian IR studies The contributors represent diverse Russian regions and IR schools and offer an overview of different intellectual traditions and key IR paradigms in the post Soviet era Filling the vacuum in international understanding of the Russian perspective on pivotal international issues they demonstrate the continuity and change in Russia's international policy course over the past three decades and explain how different foreign policy schools and concepts have affected Russian foreign policy making and the decision making process Providing a unique contribution to the discussion on non Western IR theory this handbook will appeal to scholars and students of international relations Russian studies world politics and international studies British Documents on Foreign Affairs--reports and Papers from the Foreign Office Confidential Print: Soviet Union and Finland, January 1948-December 1948, 1999 Writing History in the Soviet Union Arup Banerji, 2017-08-18 The history of the Soviet Union has been charted in several studies over the decades These depictions while combining accuracy elegance readability and imaginativeness have failed to draw attention to the political and academic environment within which these histories were composed Writing History in the Soviet Union Making the Past Work is aimed at understanding this environment The book seeks to identify the significant hallmarks of the production of Soviet history by Soviet as well as Western historians It traces how the Russian Revolution of 1917 triggered a shift in official policy towards historians and the publication of history textbooks for schools In 1985 the Soviet past was again summoned for polemical revision as part and parcel of an attitude of openness glasnost and in this literary figures joined their energies to those of historians The Communist regime sought to equate the history of the country with that of the Communist Party itself in 1938 and 1962 and this imposed a blanket of conformity on history writing in the Soviet Union The book also surveys the rich abundance of

writing the Russian Revolution generated as well as the divergent approaches to the history of the period The conditions for research in Soviet archives are described as an aspect of official monitoring of history writing Another instance of this is the manner by which history textbooks have through the years been withdrawn from schools and others officially nursed into circulation This intervention occasioned in the present circumstance by statements by President Putin himself in the manner in which history is taught in Russian schools continues to this day In other words over the years the regime has always worked to make the past work Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh Sri Lanka
