Religion and the Making of Modern East Asia Thomas David DuBois, 2011-04-18 Religious ideas and actors have shaped Asian cultural practices for millennia and have played a decisive role in charting the course of its history In this engaging and informative book Thomas David DuBois sets out to explain how religion has influenced the political social and economic transformation of Asia from the fourteenth century to the present Crossing a broad terrain from Tokyo to Tibet the book highlights long term trends and key moments such as the expulsion of Catholic missionaries from Japan or the Taiping Rebellion in China when religion dramatically transformed the political fate of a nation Contemporary chapters reflect on the wartime deification of the Japanese emperor Marxism as religion the persecution of the Dalai Lama and the fate of Asian religion in a globalized world **Falun Gong and the Future of China** David Ownby, 2008-04-16 In 1999 10 000 Falun

Gong practitioners gathered outside Zhongnanhai the guarded compound where China's highest leaders live and work in a day long peaceful protest of police brutality against fellow practitioners in the neighboring city of Tianjin This book explains what Falun Gong is and where it came from **Handbook of Religion and the Authority of Science** Jim R. Lewis, Olav Hammer, 2010-11-19 There has been a significant but little noticed aspect of the interface between science and religion namely the widespread tendency of religions to appeal to science in support of their truth claims Though the appeal to science is most evident in more recent religions like Christian Science and Scientology no major faith tradition is exempt from this pattern Members of almost every religion desire to see their truths supported by the authority of science especially in the midst of the present historical period when all of the comforting old certainties seem problematic and threatened The present collection examines this pattern in a wide variety of different religions and spiritual movements and demonstrates the many different ways in which religions appeal to the authority of science The result is a wide ranging and uniquely compelling study of how religions adapt their message to one of the major challenges presented by the contemporary world

Revenge of the Forbidden City James W. Tong, 2009-10-14 By 1999 the Falungong religious movement had spread widely and broadly throughout China While on the surface its ideology of spiritual and physical cultivation did not seem threatening the Chinese government felt otherwise Revenge of the Forbidden City is the definitive account of China's response to Falungong As James Tong shows the episode tells us a great deal about the Chinese state's political institutions its media apparatus and its formidable ability to crush dissent The result is a book that will be essential for any scholar interested in how the Chinese state actually operates Controversial New Religions James R. Lewis, Jesper Aagaard Petersen, 2014 Written by established scholars as well as younger experts in their field this updated and revised second edition of Controversial New Religions offers a scholarly dispassionate look at the new religious groups that have generated the most attention in the media and general public The Sinicization of Chinese Religions: From Above and Below Richard Madsen, 2021-07-19 Since its announcement by Xi Jinping in 2015 Sinicization has become the slogan that guides Chinese official policy towards religion What does it mean What effects is it having on Chinese religions Where will it lead This book with contributions from experts in the major religious traditions in China is one of the first in English that answers these questions From the top down Sinicization is a project to control all forms of religion in China even ancient indigenous forms to make them conform to the demands of its Party State From the bottom up however religious believers are using the slogan either to sincerely attempt to adapt traditional practices to their modern cultural context or to protect their faith by offering lip service to government demands or some combination of the two **Handbook of Conspiracy Theory and Contemporary Religion** Asbjørn Dyrendal, David G. Robertson, Egil Asprem, 2018-10-02 Conspiracy theories are a ubiquitous feature of our times The Handbook of Conspiracy Theories and Contemporary Religion is the first reference work to offer a comprehensive transnational overview of this phenomenon along with in depth discussions of how conspiracy theories relate

Hideout In the Apocalypse John Stapleton, 2016-11-10 Hideout in the Apocalypse is about surveillance and the crushing of Australia's larrikin culture In the last three years the Australian government has prosecuted the greatest assault on freedom of speech in the nation's history The government knew from international research that when it introduced the panopticon universal surveillance into Australia it would have a devastating impact on the culture When people know they are being watched they behave differently Dissent is stifled conformity becomes the norm This is the so called chilling effect Hideout in the Apocalypse in the great tradition of The Lucky Country takes Australia's temperature half a century on from Donald Horne's classic cautionary tale Now the future has arrived Forced by a plethora of new laws targeting journalists to use novelistic techniques in his latest book veteran news reporter John Stapleton confirms the old adage truth is stranger than fiction Hideout in the Apocalypse takes up the adventures of retired news reporter Old Alex first encountered in the book's predecessor Terror in Australia Workers Paradise Lost But as befits the times this book is more fantastical intimate and politically acerbic in its portrait of his beloved country Alex believes he has been under abusive levels of government surveillance since writing a book called Terror in Australia and as a natural empath can hear the thoughts of the surveillance teams on his track the so called Watchers on the Watch Alex also believes he is a cluster soul sent with others of his kind to help save the Earth from an impending apocalypse and has the capacity to channel some of history's greatest writers Australia might have the worst anti freedom of speech laws in the Western world but how can you sue a character like that Stapleton's essential theme a place which should have been safe from an impending apocalypse the quagmire of religious wars enveloping the Middle East is not safe at all Ideas are contagious and the Australian government

is afraid of them Australia is a democracy in name only The war on terror has become a war on the people s right to know justifying a massive expansion of state power Alex s swirling head lifelong fascination with sociology literature and journalism and his deep distress over the fate of the Great Southern Land makes him the perfect character to tell a story which urgently needs to be told **Annual Report** United States. Congressional-Executive Commission on China,2010

Becoming Activists in Global China Andrew Junker,2019-02-21 *Becoming Activists in Global China* is the first purely sociological study of the religious movement Falun Gong and its resistance to the Chinese state The literature on Chinese protest has intensively studied the 1989 democracy movement while largely ignoring opposition by Falun Gong even though the latter has been more enduring This comparative study explains why the Falun Gong protest took off in diaspora and the democracy movement did not Using multiple methods *Becoming Activists in Global China* explains how Falun Gong s roots in proselytizing and its ethic of volunteerism provided the launch pad for its political mobilization Simultaneously diaspora democracy activists adopted practices that effectively discouraged grassroots participation The study also shows how the policy goal of eliminating Falun Gong helped shape today s security focused Chinese state Explaining Falun Gong s two decades of protest illuminates a suppressed piece of Chinese contemporary history and advances our knowledge of how religious and political movements intersect *The World's Greatest Religious Leaders* Scott E. Hendrix,Uchenna Okeja,2018-03-01 This book provides reliable information about important world religious leaders correcting the misinformation that can be on the internet Religious leaders have shaped the course of history and deeply affected the lives of many individuals This book offers alphabetically arranged profiles of roughly 160 religious leaders from around the world and across time carefully chosen for their impact and importance and to maximize inclusiveness of faiths from around the world Scholars from around the world each one an expert in his or her field and all holding advanced degrees came together to create an essential resource for students and for those with an interest in religion and its history Every entry has been carefully edited in a two stage review process guaranteeing accuracy and readability throughout the work Not strictly a biographical reference that recounts the facts of religious figures lives the book helps users understand how the selected figures changed history The entries are accompanied by excerpts of primary source documents and suggestions for further reading while the book closes with a bibliography of essential print and electronic resources for further research

Congressional-Executive Commission on China Annual Report 2016 ,2016-10-27 The Congressional Executive Commission on China is tasked with monitoring China s compliance with human rights particularly those contained in the International Covenant on Civil and Political Rights and in the Universal Declaration of Human Rights as well as monitoring the development of the rule of law in China As part of its mandate the Commission issues an annual report every October covering the preceding 12 month period and including recommendations for U S legislative or executive action This volume contains the 2016 report **Radicalisation** James R. Lewis,Akil N. Awan,2024-01-01 A comparative multidisciplinary

interrogation of how people across the world become extremists of all kinds and how different scholarly fields study and theorize this process

Mandarins and Heretics Junqing Wu, 2017-01-23 In *Mandarins and Heretics* Wu Junqing explores the denunciation and persecution of lay religious groups in late imperial 14th to 20th century China. These groups varied greatly in their organisation and teaching yet in official state records they are routinely portrayed as belonging to the same esoteric tradition stigmatised under generic labels such as White Lotus and evil teaching and accused of black magic sedition and messianic agitation. Wu Junqing convincingly demonstrates that this heresy construct was not a reflection of historical reality but a product of the Chinese historiographical tradition with its uncritical reliance on official sources. The imperial heresy construct remains influential in modern China where it contributes to shaping policy towards unlicensed religious groups.

Religion and Everyday Life and Culture Vincent F. Biondo, Richard D. Hecht, 2010-03-25 This intriguing three volume set explores the ways in which religion is bound to the practice of daily life and how daily life is bound to religion. In *Religion and Everyday Life and Culture* 36 international scholars describe the impact of religious practices around the world using rich examples drawn from personal observation. Instead of repeating generalizations about what religion should mean, these volumes examine how religions actually influence our public and private lives on the ground on a day to day basis. Volume one introduces regional histories of the world's religions and discusses major ritual practices such as the Catholic Mass and the Islamic pilgrimage to Mecca. Volume two examines themes that will help readers understand how religions interact with the practices of public life describing the ways religions influence government, education, criminal justice, economy, technology and the environment. Volume three takes up themes that are central to how religions are realized in the practices of individuals. In these essays readers meet a shaman healer in South Africa, laugh with Buddhist monks, sing with Bob Dylan, cheer for Australian rugby and explore Chicana and Iranian art.

The Oxford Handbook of International Organizations Jacob Katz Cogan, Ian Hurd, Ian Johnstone, 2016-11-10 Virtually every important question of public policy today involves an international organization. From trade to intellectual property to health policy and beyond, governments interact with international organizations in almost everything they do. Increasingly, individual citizens are directly affected by the work of international organizations. Aimed at academics, students, practitioners and lawyers, this book gives a comprehensive overview of the world of international organizations today. It emphasizes both the practical aspects of their organization and operation and the conceptual issues that arise at the junctures between nation states and international authority and between law and politics. While the focus is on inter-governmental organizations, the book also encompasses non-governmental organizations and public policy networks. With essays by the leading scholars and practitioners, the book first considers the main international organizations and the kinds of problems they address. This includes chapters on the organizations that relate to trade, humanitarian aid, peace operations and more, as well as chapters on the history of international organizations. The book then looks at the constituent parts and internal functioning of international

organizations This addresses the internal management of the organization and includes chapters on the distribution of decision making power within the organizations the structure of their assemblies the role of Secretaries General and other heads budgets and finance and other elements of complex bureaucracies at the international level This book is essential reading for scholars practitioners and students alike [Eric Voegelin's Asian Political Thought](#) Lee Trepanier, 2020-06-22
