Theocharous,2024-04-23 This book is the first to explore street names and street naming in the formation of a Greek Cypriot identity in the cityscape of Nicosia between 1878 and 1975 Rather than treating toponymy as a direct linguistic act of spatial orientation the book approaches street naming as a contested practice involving those shared symbols and representations used to depict official history and collective identity as part of a political process It considers how street names are part of the symbolic politics of space and how authorities transformed the streets of Nicosia into arenas of struggle for the control of symbolic and material space It documents historical efforts over the course of a century to impose a geography of forgetting to buttress national identity and to cast out the other from space both literally and symbolically so as to achieve territorial dominance and political legitimacy The book is another step towards the development of a global perspective on the critical study of street naming thereby refining and expanding our knowledge of the political dynamics involved in the process In their commemorative capacity street names belong to the politics of public memory and identity **Colonial Reports -**

Cristina Țiganea,2023-09-25 In this book the authors present a combination of research by design place based and policy oriented approaches to the territorial fragilities of Nicosia Nicosia in Cyprus is a city divided Since 1974 a 180 km long Buffer Zone has separated the Turkish Republic of Northern Cyprus TRNC and the Republic of Cyprus RoC This open wound cuts through the city s historical center crossing the Venetian walls a key cultural heritage asset and impacting the city s spatial and cultural identity Outcomes of an inter doctoral research initiative this edited book documents the local realities of the divided city and tests scenarios and spatial patterns of intervention to cope with the partition through the enhancement of local cultural heritage The book targets an academic audience architects urban planners heritage preservation professionals and policymakers providing a transferable research method relevant to those approaching a complex fragile and contested border territory **Divided Cities** Jon Calame,Esther Charlesworth,2011-11-29 In Jerusalem Israeli and Jordanian militias patrolled a fortified impassable Green Line from 1948 until 1967 In Nicosia two walls and a buffer zone have segregated Turkish and Greek Cypriots since 1963 In Belfast peaceline barricades have separated working class Catholics and Protestants since 1969 In Beirut civil war from 1974 until 1990 turned a cosmopolitan city into a lethal

patchwork of ethnic enclaves In Mostar the Croatian and Bosniak communities have occupied two autonomous sectors since 1993 These cities were not destined for partition by their social or political histories They were partitioned by politicians citizens and engineers according to limited information short range plans and often dubious motives How did it happen How can it be avoided Divided Cities explores the logic of violent urban partition along ethnic lines when it occurs who supports it what it costs and why seemingly healthy cities succumb to it Planning and conservation experts Jon Calame and Esther Charlesworth offer a warning beacon to a growing class of cities torn apart by ethnic rivals Field based investigations in Beirut Belfast Jerusalem Mostar and Nicosia are coupled with scholarly research to illuminate the history of urban dividing lines the social impacts of physical partition and the assorted professional responses to self imposed apartheid Through interviews with people on both sides of a divide residents politicians taxi drivers built environment professionals cultural critics and journalists they compare the evolution of each urban partition along with its social impacts The patterns that emerge support an assertion that division is a gradual predictable and avoidable occurrence that ultimately impedes intercommunal cooperation With the voices of divided city residents updated partition maps and previously unpublished photographs Divided Cities illuminates the enormous costs of physical segregation
