Familiar Letter In The Eighteenth Centur:

The Familiar Letter in the Eighteenth Century Howard Peter Anderson, Philip B. Daghljan, Irvin Ehrenpreis, 1966
With the growth of efficient postal service in England and the stimulus of a growing tradition of informal prose among eighteenth century men of leisure the intimate letter reached unprecedented literary heights as the exemplary form of the period Considered here are the striking and diverse qualities both of the art and the personalities of the great letter writers Swift Pope Lady Mary Wortley Montagu Richardson the Earl of Chesterfield Johnson Sterne Gray Walpole Burke Cowper Gibbon and Boswell The familiar letter in the eighteenth century Howard Anderson, 1966 **Letter Writing as a Social Practice** David Barton, Nigel Hall, 2000 This book explores the social significance of letter writing Letter writing is one of the most pervasive literate activities in human societies crossing formal and informal contexts Letters are a common text type appearing in a wide variety of forms in most domains of life More broadly the importance of letter writing can be seen in that the phenomenon has been widespread historically being one of earliest forms of writing and a wide range of contemporary genres have their roots in letters The writing of a letter is embedded in a particular social situation and like all other types of literacy objects and events the activity gains its meaning and significance from being situated in cultural beliefs values and practices This book brings together anthropologists historians educators and other social scientists providing a range of case studies that explore aspects of the socially situated nature of letter writing *Lady Mary Wortley Montagu and the Eighteenth-Century Familiar Letter* Cynthia J. Lowenthal, 2010-07-01 This is is the first critical study of one of the most important women writers of the early eighteenth century Lady Mary Wortley Montagu 1689 1762 who produced a body of erudite and entertaining correspondence that spanned more than fifty years Lady Mary s letters illuminate the difficulties encountered by a sensitive intelligent and gifted woman writer living through an era of significant cultural change These letters display the tensions inherent in the competing demands of public and private life revealing Lady Mary s own discomfort about the problems of authorship and authority in an age that held publication to be an improper activity for respectable women Through the discourse of supposedly private letters Lady Mary was able to find an avenue for her talents that brought her public stature without violating the imperatives of her position as a woman and an aristocrat Cynthia Lowenthal argues persuasively that Lady Mary s letters themselves central to the establishment of the familiar letter as an important eighteenth century genre were self consciously constructed as literary artifacts and crafted as part of a larger female epistolary tradition Moreover Lowenthal contends the works of Lady Mary are essential to the feminist recuperation of women s writing precisely because she provided an aristocratic critique a voice often ignored of the class and gender codes of her day The Familiar Letter in the Eighteenth Century. Edited by Howard Anderson, Philip B. Daghljan, Irvin Ehrenpreis. [A Reduced Photographic Reprint of the Edition of 1966.]. Howard Peter ANDERSON, 1968 *Women of Letters, Manuscript Circulation, and Print Afterlives in the Eighteenth Century* M. Bigold, 2013-01-12 Using unpublished

changing ways that women used correspondence for self expression and political mobilization over this period enabling them to navigate the myriad gendered restrictions that limited women's engagement in the world Whether written from the medieval cloister or the renaissance court or the artisan's workshop or the drawing room letters crossed geographical and social distance and were mobile in ways that women themselves could not always be Women wrote to govern to argue to plead and to demand They also wrote to express love and intimacy and in so doing to explain and to understand themselves This book argues that the personal letter was a crucial place for European women's self fashioning and that exploring the history of their letters offers a profound insight into their subjectivity and agency over time
