After Patrick Henry Neal Q. Herrick, 2009 Neal Herrick demonstrates in a lucid manner that government corruption is the predominant problem facing society today Although bribery and influence peddling are the most visible aspect of this corruption they are not in Herrick s analysis the most serious For Herrick the more serious aspect of government corruption is the laws that bribery and influence peddling produce laws that favour the corporations resulting in what he calls a kind of delusional corruption that leads for example to unjust and unnecessary wars Tracing both forms of corruption back through American history Herrick gives a brief account of governmental descent into lawlessness identifies the constitutional flaw that led to this lawlessness and discusses some of the issues that must be considered in devising remedies Book jacket

Quotology Willis Goth Regier, 2010-10-01 Erasmus advised readers to learn quotations by heart and copy them everywhere write them in the front and back of books inscribe them on rings and cups paint them on doors and walls even on the glass of a window Emerson noted that in Europe every church is a kind of book or bible so covered is it with inscriptions and pictures In Arabic script as tall as a man the Koran is quoted on the walls and domes of mosques We quote to admire provoke commemorate dispute play and inspire Quotations signal class club clique and alma mater They animate wit relay prophecies guide meditation and accessorize fashion In *Quotology* Willis Goth Regier

draws on world literature and contemporary events to show how vital quotations are how they are collected and organized and how deceptive they can be He probes all these aspects identifying fifty nine types of quotations including misquotations and anonymous sayings Following the logic of quotology Quotology concludes with famous last words **They Never Said It** Paul F. Boller Jr., John George, 1990-06-14 Abraham Lincoln never said You cannot fool all the people all the time Thomas Jefferson never said That government is best which governs least And Horace Greeley never said Go west young man In **They Never Said It** Paul F Boller Jr and John George examine hundreds of misquotations incorrect attributions and blatant fabrications outlining the origins of the quotes and revealing why we should consign them to the historical trashcan Many of the misquotes are quite harmless Some are inadvertent misquotes that have become popular Shakespeare actually said The best part of valor is discretion others the inventions of reporters embellishing a story Franklin Roosevelt never opened a speech to a DAR group with the salutation My fellow immigrants But some of the quotes such as Charles Darwin's supposed deathbed recantation of evolution falsify the historical record with their blatant dishonesty And other chillingly vicious ones filled with virulent racial and religious prejudices completely distort the views of the person supposedly quoted and spread distrust and hatred among the gullible These include the forged remarks attributed to Benjamin Franklin that Jews should be excluded from America and the fabricated condemnation of Catholics attributed to Lincoln An entertaining and thought provoking book **They Never Said It** covers a great deal of history and sets it right Going beyond a mere catalog of popular misconceptions Boller and George reveal how rightists and leftists and atheists and evangelists all have at times twisted and even invented the words of eminent figures to promote their own ends The ultimate debunking reference it perfectly complements handbooks of quotations *Tropes of Politics* John S. Nelson, 1998-04-15 Talk is of central importance to politics of almost every kind it's no accident that when the ancient Greeks first attempted to examine politics systematically they developed the study of rhetoric In *Tropes of Politics* John Nelson applies rhetorical analysis first to political theory and then to politics in practice He offers a full and deep critical examination of political science and political theory as fields of study and then undertakes a series of creative examinations of political rhetoric including a deconstruction of deliberation and debate by the U S Senate prior to the Gulf War Using the neglected arts of argument refined by the rhetoric of inquiry Nelson traces how everyday words like consent and debate construct politics in much the same way that poets such as Mamet and Shakespeare construct plays and he shows how we are remaking our politics even as we speak *Tropes of Politics* explores how politicians take stands and political scientists probe representation how experts become informed even as citizens become authorities how students actually reinvent government while professors merely model politics how senators wage war yet keep comity among themselves The action Nelson shows is in the tropes these figures of speech and images of deed can persuade us to turn from ideologies like liberalism toward spectacles about democracy or movements into environmentalism and feminism His argument is that inventive attention to tropes can mean better participation in politics

And the argument is in the tropes evidence itself as sights or citations governments as machines or men politics as hardball or softball deliberations as freedoms or constraints borders as fringes or friends **New York Magazine** ,1971-11-15 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea Peaceful Maritime Engagement in East Asia and the Pacific Region ,2022-12-28 Peaceful Maritime Engagement in East Asia and the Pacific Region includes contributions from the most influential figures in the law of the sea to provide context and direction for developing maritime governance in East Asia and the Pacific Ocean Peaceful management of disputes includes cooperation over deep seabed mining negotiations for a legally binding instrument on biodiversity beyond national jurisdiction contending approaches to baselines and East Asia maritime boundary disputes freedom of navigation and maritime law enforcement Chapters also explore new interpretations for preservation of the marine environment and the special problems posed by marine plastics and nexus between the ocean and climate change **Healing Words for the Body, Mind, and Spirit** Caren Goldman,2009-09-01 Easy to use in a variety of ways Healing Words is complementary medicine for the mind body and spirit that has a history of proven efficacy for people of all faiths on their journeys to healing and wholeness Every two page spread is a chapter headlined by one of 101 words that relate to healing the mind body and spirit as a process or event The word is followed by a definition a personal reflection or a story that relates to the healing power of the word quotes and an affirmation for the reader to use on his or her healing journey The quotes include contemporary excerpts as well as words from the sages plus proverbs psalms and more **Land-Value Taxation** K.C. Wenzer,2016-07-01 A distinguished interdisciplinary group of scholars examines the merits and shortcomings of Land Value taxation and how it compares and contrasts with the conventional property tax The latter is shown as deterring enterprise to the detriment of employment and as pushing up the cost of improving property with inflationary consequences The former with evidence from places where it is already in use is shown to encourage optimum land use foster employment and prevent urban sprawl Military History Readings Pamphlet ,1987 Parameters ,1982
