his particular theological position which consists in an enlightened redefinition of the roles of the Holy Spirit This has repercussions for the content of his faith and his practical and historical belief Approaching his works in a second step from the perspective of Early Modern Society it attempts to show the limits of concepts brought to bear on this society on him and on his works in particular such as the theories of the errand in the settlement of New England and its subsequent decline in its connection to psychohistory social history and the history of mentalities Given the overwhelming importance of the Salem witchcraft trials in the reception of Cotton Mather further observations on the changing role of the pastorate familial and societal education and the development of medical and natural sciences take their departure from their examination as an example of early modern phenomena of exclusion Critical examination of this and other historical and literary philosophical sociological and theological concepts which prevented Cotton Mather from being seen as an Enlightenment figure are the main subject of this dissertation      *Духовные существа.
