Why did the novel take such a long time to emerge in the colonial world And what cultural work did it come to perform in societies where subjects were not free and modes of social organization diverged from the European cultural centers where the novel gained its form and audience Answering these questions and more Volume 11 *The Novel in Africa and the Caribbean since 1950* explores the institutions of cultural production that exerted influence in late colonialism from missionary schools and metropolitan publishers to universities and small presses How these structures provoke and respond to the literary trends and social peculiarities of Africa and the Caribbean impacts not only the writing and reading of novels in those regions but also has a transformative effect on the novel as a global phenomenon Together the volume s 32 contributing experts tell a story about the close relationship between the novel and the project of decolonization and explore

the multiple ways in which novels enable readers to imagine communities beyond their own and thus made this form of literature a compelling catalyst for cultural transformation The authors show that even as the novel grows in Africa and the Caribbean as a mark of the elites mastery of European form it becomes the essential instrument for critiquing colonialism and for articulating the new horizons of cultural nationalism Within this historical context the volume examines works by authors such as Chinua Achebe Nadine Gordimer George Lamming Jamaica Kincaid V S Naipaul Zoe Wicomb J M Coetzee and many others **After Dark** Rebecca York,Caroline Burnes,1999 After Dark by Rebecca York Caroline Burnes released on Jun 24 1999 is available now for purchase *The Narrative Reader* Martin McQuillan,2000 The Narrative Reader aims to provide a comprehensive survey of narrative theories ranging from Plato to Post Structuralism The selection of texts is bold and broad demonstrating the extent to which narrative permeates the entire field of literature and culture It shows the ways in which narrative crosses disciplines continents and theoretical perspectives and is a long overdue and welcome addition to the field The Narrative Reader will fascinate students and researchers alike providing a much needed point of entry to the increasingly complex field of narrative theory Plays for Children, an Annotated Index Alice Isabel Hazeltine,1921

Haunting Experiences Diane Goldstein, Sylvia Grider, Jeannie Banks Thomas, 2007-09-15 Ghosts and other supernatural phenomena are widely represented throughout modern culture They can be found in any number of entertainment commercial and other contexts but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them based on tradition or direct experience Personal belief and cultural tradition on the one hand and popular and commercial representation on the other nevertheless continually feed each other They frequently share space in how people think about the supernatural In *Haunting Experiences* three well known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts Diane E Goldstein Sylvia Ann Grider and Jeannie Banks Thomas take ghosts seriously as they draw on contemporary scholarship that emphasizes both the basis of belief in experience rather than mere fantasy and the usefulness of ghost stories They look closely at the narrative role of such lore in matters such as socialization and gender And they unravel the complex mix of mass media commodification and popular culture that today puts old spirits into new contexts

The Postmodern Representation of Reality in Peter Ackroyd's Chatterton Arya Aryan, 2022-06-08 This book explores the postmodernist representation of reality and argues that historiographic metafictional texts such as Peter Ackroyd's *Chatterton* 1987 are hetero referential in their creation of a heterocosm as opposed to representational and anti representational views of art It argues that postmodernist historiographic metafiction is not simply self referential but hetero referential consciously revealing the paradoxes of self referentiality while simultaneously creating a heterocosmic world where the text is capable of referring to an external reality The book highlights Chatterton's narrative strategies and techniques which result in revealing the text's meaning granting process The novel acknowledges the existence of reality and the text's possibility of representation but contends that reality is a human construct In addition the book demonstrates that representation is possible through fictive referents and thus hetero referential

Old Tales and New Truths James Roy King, 1992-02-06 This guidebook to the Bright Shadow World develops three closely related issues The first is the position that fairytales and folktales are of value today because they encourage the growth of capabilities important in our postmodern world Each of us like the fairytale hero sets out on his/her own quests seeks his/her own identity faces his/her own dilemmas with few resources but wit imagination and a certain power of improvisation King develops the implications of this situation for such common fairytale problems as learning to read the world productively navigating various kinds of edges exploiting power sources developing highly personal moral commitments problem solving and data collecting The second concern of this book is with the development of a system for analyzing narrative structure The formula offered here involves an examination of interactions among actors physical settings lines of force and power sources as a narrative moves toward its denouement This system facilitates the classifying and contrasting of narratives and illuminates the structure of

both narrative and lived experience Finally this book is concerned with myth making or world making processes It is shown that traditional narrative actually points to and delineates another dimension of existence here called the Bright Shadow World that operates by rules of its own and may be penetrated by individuals from our ordinary world Inferences about the Bright Shadow World drawn from traditional narrative are described and evaluated **American Gothic** Robert K. Martin, 1998-06 In America as in Britain the rise of the Gothic represented the other the fearful shadows cast upon Enlightenment philosophies of common sense democratic positivism and optimistic futurity Many critics have recognized the centrality of these shadows to American culture and self identification American Gothic however remaps the field by offering a series of revisionist essays associated with a common theme the range and variety of Gothic manifestations in high and popular art from the roots of American culture to the present The thirteen essayists approach the persistence of the Gothic in American culture by providing a composite of interventions that focus on specific issues the histories of gender and race the cultures of cities and scandals and sensations in order to advance distinct theoretical paradigms Each essay sustains a connection between a particular theoretical field and a central problem in the Gothic tradition Drawing widely on contemporary theory particularly revisionist views of Freud such as those offered by Lacan and Kristeva this volume ranges from the well known Gothic horrors of Edgar Allan Poe and Nathaniel Hawthorne to the popular fantasies of Stephen King and the postmodern visions of Kathy Acker Special attention is paid to the issues of slavery and race in both black and white texts including those by Ralph Ellison and William Faulkner In the view of the editors and contributors the Gothic is not so much a historical category as a mode of thought haunted by history a part of suburban life and the lifeblood of films such as *The Exorcist* and *Fatal Attraction* **Kierkegaard's Existential Approach** Arne Grøn, René Rosfort, K. Brian Söderquist, 2017-04-24 Recently there has been a growing interest not only in existentialism but also in existential questions as well as key figures in existential thinking Yet despite this renewed interest a systematic reconsideration of Kierkegaard's existential approach is missing This anthology is the first in a series of three that will attempt to fill this lacuna The 13 chapters of the first anthology deal with various aspects of Kierkegaard's existential approach Its reception will be examined in the works of influential philosophers such as Heidegger, Gadamer and Habermas as well as in lesser known philosophers from the interwar period such as Jean Wahl, Lev Shestov and Benjamin Fondane Other chapters reconsider central notions such as anxiety, existence, imagination and despair Finally some chapters deal with Kierkegaard's relevance for central issues in contemporary philosophy including naturalism, self constitution and bioethics This book is of relevance not only to researchers working in Kierkegaard Studies but to anyone with an interest in existentialism and existential thinking
