investigating the similarities and differences in the experiences of family members in three parts of the world the authors reveal results which have far reaching implications for professional intervention and prevention Subjects covered include models of understanding how families continue to be pathologised and misunderstood how family members cope an integrated view of alcohol and drug problems in the family ways of empowering family members This book aims to demonstrate the possibility of a constructive alliance between professionals substance misusing relatives and the affected family members by thoroughly investigating the dilemmas that face family members and the lack of support they experience This fascinating insight into the impact of alcohol and drug problems on family members will be a valuable resource for all those who are interested in substance misuse in family and cultural contexts and particularly those who are interested in the treatment of alcohol and other drug problems **Alcoholism And The Family** Saturo Saitoh, Peter Steinglass, Marc A.
