Family Art Family Life Series:

Family Life and Family Policies in Europe Franz-Xaver Kaufmann, 2002 This volume is a comparative study of family change in Europe and its dependency on social policy regimes The authors explore family discourse family law single parents gender relations the new fathers divorce and abortion within the framework of national policies vis a vis the family Conventional wisdom assumes that policy decisions affecting the life situation of a population shape different opportunities for private living particularly in relation to children and the family But the authors argue it would be too simplistic to assume a direct causal link between welfare policies for the family and developments in the family sector Family change is in fact mediated by institutional factors as well as by cultural traditions and political intervention The chapters in this volume deal with the substantial and methodological problems of ascertaining the impact of different national policy regimes on family change

Personal Disorder and Family Life Peter Lomas, 2017-07-12 This work looks into how why and when people pursue things in life that they desire those that make their existence attractive and worth living Robert A Stebbins calls this Positive Sociology the study of what people do to organize their lives such that they become substantially rewarding satisfying and fulfilling Western society has many challenges crime drug addiction urban pollution daily stress domestic violence and overpopulation Significant levels of success in avoiding these problems brings a noticeable measure of tranquility but it does not necessarily generate a positive life Personal Decisions in the Public Square draws upon in large part the sociology of leisure a happy science Among the basic concepts in the sociology of leisure are activity and human agency The centrality of positive activity is one of its hallmarks and separates it from other social science specialties Stebbins s positive sociology centers on conceptual roots found in the serious leisure perspective This theoretical framework synthesizes three main forms of leisure serious casual and project based while showing their distinctive features similarities and interrelationships Positive sociology also considers two other domains of life work and non work obligations This new approach focuses on the pursuit of that which makes life worth living Stebbins explores goals that are important to all people such as negotiating the right work family or obligation leisure balance and the tricky relationship between money and happiness Research scientists or the general public may find the ideas presented in this volume help them better understand and negotiate situations by showing how to approach them in a positive way rather than as problems that need to be solved

European Family Law Volume I Jens M. Scherpe, 2016-01-29 The Impact of Institutions and Organisations on European Family Law looks at the impact that institutions and organisations have had and continue to have on European family law In many ways the chapters in this volume provide the easiest explanation for the existence of a European family law While there is no European body that could actually legislate definitively on family law even the European Union has no such mandate there are still some obvious institutions that have a very direct impact on European family law These can be divided into two groups namely those that have a direct impact such as the European Court of Human Rights and the European Union and

those that have an indirect impact such as the Commission on European Family Law CEFL the Council of Europe and the International Commission on Civil Status ICCL CIEC as well as the private international law instruments of the Hague Conference HCCH and the EU Together with religion all of these institutions are contributing to the creation of a European family law This book and the others in the set will serve as an invaluable resource for anyone interested in family law It will be of particular use to students and scholars of comparative and international family law as well as family law practitioners
