Basic Group Processes P. B. Paulus, 2012-12-06 Research on groups has been a major focus of concern among psychologists and sociologists for many years The study of groups certainly deserves a central role in these disciplines since much of our behavior occurs in groups and many important social phenomena involve groups Issues such as leadership conformity group decision making group task performance and coalition formation have had a long history of research However recently a number of other areas of research have blossomed that provide interesting new perspectives on group processes e g social impact In addition topics of research have developed outside the commonly accepted domain of group dynamics e g self disclosure which seem to be concerned with rather basic group processes Basic Group Processes was designed to bring together in one volume a representative sample of the broad range of work currently being done in the area of groups Some of the chapters provide a review of the literature while others focus more specifically on current programs of research All however provide new insights into basic group processes and a number provide broad integrative schemes All of the authors were asked to emphasize theoretical issues rather than a detailed presentation of research Basic Group Processes suggests that research on groups is a lively enterprise and forging interesting new theoretical and empirical directions

Yours, Mine, and Ours Anne C. Bernstein, 1990 Based on the author's experience as a family therapist and stepmother and on interviews with more than fifty families this book explores the ramifications for all concerned remarried parents his children her children and their baby of having a mutual child

Client-centered and Experiential Psychotherapy in the Nineties Richard Balen, 1990 This voluminous book of 47 chapters offers a good cross section of what is burgeoning in the field of client centered and experiential psychotherapy on the threshold of the nineties it does not represent a single vision but gives the floor to the various suborientations classics Rogerians client centered therapists who favor some form of integration or even eclecticism experiential psychotherapists for whom Gendlin's focusing approach is a precious way of working client centered therapists who look at the therapy process in terms of information processing existentially oriented therapists Remarkable is that for the first time in the history of client centered experiential psychotherapy the European voice rings through forcefully more than half of the contributions were written by authors from Western Europe Several chapters contain reflections on the evolution past present and future of client centered experiential psychotherapy The intensive research into the process which had a central place in the initial phase of client centered therapy is given here ample attention with several creative studies and proposals for renewal In numerous contributions efforts are made to build and further develop a theory of psychopathology the client's process the basic attitudes and task oriented interventions of the therapist The chapters dealing with clinical practice typically aim at the description of therapy with specific client populations and particularly severely disturbed clients And finally a few fields are introduced which are new or barely explored within the client centered experiential approach working with dreams health
