favor of ever more aggressive target marketing It is a strategy that includes all marketing vehicles from cable TV to catalogs direct mail to radio newspapers to supermarket promotions Turow shows how advertisers exploit differences between consumers based on income age gender race marital status ethnicity and lifestyles With increased technology advertising can easily enter individuals private spaces their homes cars and offices with news entertainment and commercial messages aimed specifically at them As the major support system of American media the ad industry has encouraged market segmentation and the creation of customized media Ultimately Turow predicts this trend will cause an erosion of tolerance and cooperation within U S society
