tremors of rebellion in the early sixties to the heady heyday of the revolution Bringing a fresh perspective to the turbulence of these decades David Allyn argues that the sexual revolutionaries of the 60s and 70s by telling the truth about their own histories and desires forced all Americans to re examine the very meaning of freedom Written with a historian s attention to nuance and a novelist's narrative drive Make Love Not War is a provocative vivid and thoughtful account of one of the most captivating episodes in American history Also includes an 8 page insert Modern Jewish Fertility Paul Ritterband, 1981-01-01 Status Enhancement and Fertility John D. Congress Senate, 1966 Survey Research in the Social Sciences Charles Y. nations Glock, John Bennett, 1967-12-31 Survey research was for a long time thought of primarily as a sociological tool It is relatively recently that this research method has been adopted by other social sciences and related professional disciplines The amount and quality of its use however vary considerably from field to field This volume describes the elementary logic of survey design and analysis and provides for each discipline an evaluation of how survey research has been used and conceivably may be used to deal with the central problems of each field Psychology & Human Reproduction James W. Selby, 2007-09-19 Providing information on the often avoided subject of the psychological psychiatric and social aspects of reproduction this book provides information on the psychosocial aspects of numerous major events in human reproduction Psychology and Human Reproduction gives readers a comprehensive look at the events of human reproduction from a psychosocial understanding Researchers provide unique insight on the common issues of major reproductive events that most people encounter as well as in depth information focusing on particular events of reproduction such as pregnancy

delivery and the postpartum period Written by a team of highly qualified and educated professionals within the psychological and reproductive fields this book attempts to provide reviews and critical analysis of the empirical findings that make up today s human reproduction literature Handbook of Marriage and the Family Marvin B. Sussman, Suzanne K. Steinmetz, Gary W. Peterson, 2013-06-29 To know where we are going as scholars educators and practitioners in the field of marriage and family life we first need to know where we have been A perusal of early texts on marriage and family life provides some thought provoking insights into the accuracy of the saying what goes around comes around It is interesting to note who has been considered to be in a position to provide information on marriage and family life Included in the eclectic collection of texts we reviewed were ministers whose focus was on spirituality doctors who emphasized medical aspects of child and adult health and public health profes sionals and home economists concerned with fighting disease who emphasized cleanliness order fighting germs and eliminating rodents and insects There are also philosophers who drew from ancient texts when discussing family life and a count who assembled a group of German intellectual elites to address various topics An insightful essay of this type is by Marta Karlweis 1926 in which she notes There is no other fetish that society holds to so firmly as the conception woman with all its usual associations of infantilism and dependence The child requires protection is a minor and consequently a serf but above all it possesses no spiritual existence Neither doctorates or other distinctions nor the right to vote have as yet been able to dispel this sweet idea of the childishness of woman which man Catholics and Contraception Leslie Woodcock Tentler, 2018-09-05 As Americans rethought sex in the cherishes p twentieth century the Catholic Church's teachings on the divisive issue of contraception in marriage were in many ways central In a fascinating history Leslie Woodcock Tentler traces changing attitudes from the late nineteenth century when religious leaders of every variety were largely united in their opposition to contraception to the 1920s when distillations of Freud and the works of family planning reformers like Margaret Sanger began to reach a popular audience to the Depression years during which even conservative Protestant denominations quietly dropped prohibitions against marital birth control Catholics and Contraception carefully examines the intimate dilemmas of pastoral counseling in matters of sexual conduct Tentler makes it clear that uneasy negotiations were always necessary between clerical and lay authority As the Catholic Church found itself isolated in its strictures against contraception and the object of damaging rhetoric in the public debate over legal birth control support of the Church's teachings on contraception became a mark of Catholic identity for better and for worse Tentler draws on evidence from pastoral literature sermons lay writings private correspondence and interviews with fifty six priests ordained between 1938 and 1968 concluding the recent history of American Catholicism can only be understood by taking birth control into account International bibliography of research in marriage and the family Joan Aldous, 1967 Hearings United States. Congress. Senate. Committee on Labor and Public Welfare, 1966 Victorian Values J A Banks, 2023-03-31 First published in 1981 Victorian Values is an investigation into the social causes behind the

decline of the birth rate and the size of families in Britain in the second half of the nineteenth century The author looks at the interplay of the rising standard of living the emancipation of women the attitude to children and education and the effects of the meritocratic ideal and their interaction with religious ideas of sexual morality He considers the pioneers of birth control but other factors are considered which might contribute to the retreat from the very large families of an earlier period The book is a brilliant example of how the sociologist can illuminate the problems of the social and economic historian and at the same time contribute to developing ideas about future social policy
