Hodges, 2019-09-18 This revised edition features updated research new developments in technology and recent policy on juvenile delinquency and youth violence The authors underscore the enormous payoff in targeting potential serious violent and chronic juvenile offenders at the earliest opportunity and provide a framework for evidence informed state juvenile justice systems the Comprehensive Strategy for Serious Violent and Chronic Juvenile Offenders This strategy recognizes first that a relatively small proportion of those who enter the juvenile justice system will prove to be serious violent or chronic offenders but that group accounts for a large proportion of overall delinquency Second this strategy builds on the fact that serious violent or chronic delinquency emerges along developmental pathways allowing earlier identification of juveniles most at risk for later serious offending A third component of this approach is effective intervention capable of reducing the recidivism of those juveniles most at risk for further delinquency This framework emphasizes an evidence based approach to reducing the recidivism of those juveniles most likely to reoffend from intake onward to probation community programs confinement and reentry **NIJ Catalog**, 1995 Contains information on criminal justice publications and other materials available from NIJ's information clearinghouse the National Criminal Justice Reference Service NCJRS and other sources

**Family Justice** John Eekelaar, Mavis Maclean, 2013-06-03 This book is about the delivery of family justice in England and Wales focusing on the work of the family judiciary in the lower courts The policy context is moving so rapidly that the authors have gone beyond presenting their empirical findings to offer a broader consideration of the nature and role of the family justice system as these are in danger of being lost amid present reform proposals The first four chapters are historical and comparative examining assumptions about family justice and offering a defence of the role of legal rights in family life and the importance of good policy making balancing outcome and behaviour focused approaches to family justice Comparative examples from the US and Australia show how new approaches to family justice can be successfully deployed The next three chapters are empirical including a typology of the roles played and tasks addressed by the judges overturning the commonly held assumption that the central judicial role is adjudication emphasising the extent to which judges integrate outcome and behaviour focused approaches to family justice and giving a detailed account of the daily work of circuit and district judges and legal advisers The conclusion is that there is a trend across jurisdictions driven by technological innovation and by economic constraints to reduce the role of courts and lawyers in favour of individual choices based on private or government funded information sources While these developments can be beneficial they also have dangers and limitations The final chapter argues that despite the move to privatised forms of dispute resolution family justice still demands a sound judicial structure **The Family, Justice and Delinquency** Brenda Geiger, 1987 **Research Handbook on Family Justice Systems** Mavis Maclean, Rachel Treloar, 2023-05-09 Bringing together current research from a diverse range of jurisdictions on family law the Research Handbook on Family Justice Systems addresses the aims and boundaries of family justice systems
