

Hope Expectations for *Family Life Education* in Elementary Schools

What are Hope Expectations?

Family Life Education touches topics which have deeply personal, social and cultural implications. It seeks to help us know what it means to be human, what God calls us to in loving relationships and what our vocation is. In the lives of our students today, there are many factors that influence their understanding in these areas including their own experiences of family living, cultural values, and increasing use of technology and social media for good and for ill.

In Catholic schools, Family Life Education seeks to develop not only knowledge and skills in these areas but also to foster in students the attitudes and values derived from faith and that constitute a Catholic worldview. Hope Expectations cannot be understood as expectations in the same sense as the overall and specific expectations, nor can they be evaluated or used for assessment purposes, yet they speak to our deep aspirations for students.

Hope Expectations are not the list of 'what we teach', rather they are the expression of what we hope students come to value and strive for, what they cherish and appreciate most deeply. Hope Expectations depend on the interaction between God's Spirit and the freedom of the individual student.
