Swanson, 2014-05-22 Any agenda for family research in the 1990s must take seriously a contextual approach to the study of family relationships The editors and contributors to this volume believe that the richness in family studies over the next decade will come from considering the diversity of family forms different ethnic groups and cultures different stages of family life as well as different historical cohorts Their goal is to make more explicit how we think about families in order to study

them and understand them To illustrate the need for diversity in family studies examples are presented from new and old families majority and minority families American and Japanese families and intact and divorcing families This variety is intended to push the limits of current thinking not only for researchers but also for all who are struggling to live with and work with families in a time when family life is valued but fragmented and relatively unsupported by society's institutions Students and researchers interested in family development from the viewpoint of any of the social sciences will find this book of value *The Wiley-Blackwell Handbook of Couples and Family Relationships* Patricia Noller, Gery C.

Social Justice and Children in Care Morag Owen, 2017-07-05 Can justice be achieved in voluntary cases or is it purely a matter for courts to determine Using a multi disciplinary framework which has at its centre a philosophical anthropological view of social work as a moral practice the author explores the notion of justice in public child care The problem of parents and children's rights is addressed first of all in the legal context of care proceedings and then in the social work setting of voluntary care Forty six difficult cases are examined to see how decisions are made and

implemented In the final analysis the dimensions of social and legal justice are charted in a way which may contribute to general understanding of these issues and some suggestions are offered about how social work may move forward in response to legitimate criticism Family Questions Allan Carlson,1991-07-01 Drawing upon evidence from different fields

Carlson offers a number of provocative explanations to the American crisis in the family In his search for a solution he borrows from a number of traditions conservatism feminism socialism and Marxism **The Double Life of the Family**

Michael Bittman,2020-08-27 The modern family is under strain What we crave most from our families is intimacy warmth and self fulfilment but we often find this difficult to achieve We hold onto these expectations of our families even in the face of contradictory experiences so the family sustains a double life The authors explore the gap between our values expectations and yearnings and our experiences of everyday family life Family ritual political rhetoric advertising images and television family sitcoms are all windows onto what we want and expect our myths of the family Yet our aspirations for intimacy and self fulfilment are frustrated by unacknowledged inequalities between men and women and parents and children The inequalities have their origins in the division of domestic labour and in labour markets that disregard family responsibilities The Double Life Of The Family argues that our expectations of family life are more powerful than is usually believed and have enormous influence on both the way governments structure social policy and on the decisions made by ordinary people
