exploited by superior authorities in a phase of tumultuous sociopolitical change throughout the entire Mediterranean basin Contributors provide a diverse range of approaches in order to examine how power operated in society how it was exercised and resisted and how this can be studied through mortuary evidence Section 1 addresses the construction of identity by focusing mainly on the manipulation of age ethnic and gender categories in society in regions and sites that reached notable power and splendor in first millennium BC Italy These include Etruria Latium Campania and the rich settlement of Verucchio in Emilia Romagna Each paper in Section 2 offers a counterpoint to a contribution in Section 1 with an overall emphasis on scholarly multivocality and the multiplicity of the theoretical approaches that can be used to read the archaeological evidence
