**Family Poverty. Programme for the Seventies.** Ed. by D. Bull. Forew. by P. Townsend. [With Contris of D. Bull, T. Lynes, S. Kay A.o.J. D. Bull, Peter Townsend, T. Lynes, S. Kay, 1971 **Family Poverty: Programme for the Seventies** Child Poverty Action Group (Great Britain), 1971 Transfer State Peter Sloman, 2019-10-24 The idea of a guaranteed minimum income has been central to British social policy debates for more than a century Since the First World War a variety of market economists radical activists and social reformers have emphasized the possibility of tackling poverty through direct cash transfers between the state and its citizens As manufacturing employment has declined and wage inequality has grown since the 1970s cash benefits and tax credits have become an important source of income for millions of working age households including many low paid workers with children The nature and purpose of these transfer payments however remain highly contested Conservative and New Labour governments have used in work benefits and conditionality requirements to activate the unemployed and reinforce the incentives to take low paid work an approach which has reached its apogee in Universal Credit By contrast a growing number of campaigners have argued that the challenge of providing economic security in an age of automation would be better met by paying a Universal Basic Income **Growing Up in a One-parent Family** Elsa Ferri, 1976 The Work Connection J. Stewart, Chris Grover, 2001-12-20 The authors use regulation to explain the antecedents to current welfare developments in Britain From discussion of the Speenhamland System the struggle for Family Allowance and a National Minimum Wage they show how first a Conservative government in the 1970s and more recently New Labour have used in work benefits so that today they have become the preferred instrument of intervention in the labour market for setting wages The authors discuss the ways in which these measures the new deals for lone parents and young people and the working family tax credit address issues of child poverty and the adequacy of incomes and how far they are disciplining devices to encourage a new moral order supportive of family life **A Bibliography of British History, 1914-1989** Keith Robbins, American Historical Association, Royal Historical Society (Great Britain), 1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index Social Policy Review 27 Zoë Irving, Menno Fenger, John Hudson, 2015-06-30 Published in association with the Social Policy Association Social Policy Review is an annual volume that draws together international scholarship at the forefront of research on social policy This edition looks at the effects of

financialization on services and the provision of care policies aimed at addressing deficiencies in housing and labor markets and ways that the study of social policy may need to develop to respond to changing material concerns A themed section meanwhile considers the place of comparative welfare modeling in the context of a quarter century of change **Economic Growth and Rural Poverty** Vinita Kumar,1997 A London Bibliography of the Social Sciences, 1973 Vols 1 4 include material to June 1 1929 Library of Congress Catalog Library of Congress,1970 A cumulative list of works represented by Library of Congress printed cards Politics, Economics, and Welfare Reform Leslie Lenkowsky,1986 The Publishers' Trade List Annual,1973 **Social Policy in the Twentieth Century** Thomas Humphrey Marshall,1975 Socialist Standard,1971 **The "Underclass" Debate** Michael B. Katz,2018-06-05 Do ominous reports of an emerging underclass reveal an unprecedented crisis in American society Or are social commentators simply rediscovering the tragedy of recurring urban poverty as they seem to do every few decades Although social scientists and members of the public make frequent assumptions about these questions they have little information about the crucial differences between past and present By providing a badly needed historical context these essays reframe today s underclass debate Realizing that labels of social pathology echo fruitless distinctions between the deserving and undeserving poor the contributors focus not on individual and family behavior but on a complex set of processes that have been at work over a long period degrading the inner cities and inevitably the nation as a whole How do individuals among the urban poor manage to survive How have they created a dissident infrapolitics How have social relations within the urban ghettos changed What has been the effect of industrial restructuring on poverty Besides exploring these questions the contributors discuss the influence of African traditions on the family patterns of African Americans the origins of institutions that serve the urban poor the reasons for the crisis in urban education the achievements and limits of the War on Poverty and the role of income transfers earnings and the contributions of family members in overcoming poverty The message of the essays is clear Americans will flourish or fail together

Subcommittee on Family and Human Services,1983 **Books in Print**,1979 Black Families Harold E. Cheatham,James B. Stewart,2017-10-19 The condition and characteristics of the black family have been subjects of intense debate since at least the 1960s when the Moynihan Report and the culture of poverty theses held sway Since then a consistent theme has been that black families are pathological Despite the fact that research has been inconclusive and contradictory political debate and policy have been strongly influenced by the pathology theme This volume presents alternative approaches toward understanding the special characteristics of black families Extending a special issue of The Review of Black Political Economy the book focuses on the economic circumstances and decision making of these families employing Interdisciplinary and cross cultural perspectives It examines the general responses of black families to various external factors such as economic systems and to Internal factors such as interpersonal relationships This

compendium of current thinking and research will be of interest to professionals in a number of fields Including family studies counseling social work psychology and sociology It will be of practical use in training programs for service delivery systems Interested In Incorporating multicultural perspectives as well as those specifically interested in black families today
