## **Family Fantasies And Community Space:**

Family Fantasies and Community Space Stuart C. Aitken, 1998 Suggesting ways in which individual and family identities are complexly intertwined with the cultural politics of communities cities and regions this text stresses the importance of place in defining the social and political character of communities and families interplay within them **(Sub)Urban Sexscapes** Paul J. Maginn, Christine Steinmetz, 2014-10-10 Sub Urban Sexscapes brings together a collection of theoretically informed and empirically rich case studies from internationally renowned and emerging scholars highlighting the contemporary and historical geographies and regulation of the commercial sex industry Contributions in this edited volume examine the spatial and regulatory contours of the sex industry from a range of disciplinary perspectives urban planning urban geography urban sociology and cultural and media studies and geographical contexts Australia the UK US and North Africa In overall terms Sub urban Sexscapes highlights the mainstreaming of commercial sex premises sex shops brothels strip clubs and queer spaces and products sex toys erotic literature and pornography now being commonplace in night time economy spaces the high street suburban shopping centres and the home In addition the aesthetics of commercial and alternative sexual practices BDSM and pornography permeate the sub urban landscape via billboards newspapers and magazines television music videos and the Internet The role of sex sexuality and commercialized sex in contributing to the general character of our cities cannot be ignored In short there is a need for policy makers to be realistic about the historical contemporary and future presence of the sex industry Ultimately the regulation of the sex industry should be informed by evidence as opposed to moral panics Winner of the Planning Institute of Australia WA 2015 Award for Excellence in Cutting Edge Research and Teaching *The Awkward Spaces of Fathering* Stuart C. Aitken, 2016-03-23 Societal notions of fathers have evolved from the distant breadwinner through genial dad and masculine role model to today's equal co parent This book seeks to explore the spaces and movements of men as fathers Weaving together theories of space sexuality and political identity with the stories of fathers from a range of sources including popular culture it discusses the way in which geographies of space can disconnect and disempower fathers while societal notions marginalize and disassociate them from raising children It explores how fathering identities are shaped by family and community spaces and aims to move the definition of fathering beyond its definition in opposition to mothering In doing so it provides insights into the contradictory nature of father's lives and argues that rather than moving away from the traditional notions of masculine roles that the emotional work of fathering in itself is an heroic act **International Encyclopedia of Men and Masculinities** Michael Flood, Judith Kegan Gardiner, Bob Pease, Keith Pringle, 2007-08-07 The International Encyclopedia of Men and Masculinities offers a comprehensive guide to the current state of scholarship about men masculinities and gender around the world The Encyclopedia's coverage is comprehensive across three dimensions areas of personal and social life academic disciplines and cultural and historical contexts and formations The Encyclopedia examines every area of men's personal and social lives as

shaped by gender covers masculinity politics the men s groups and movements that have tried to change men s roles presents entries on working with particular groups of boys or men from male patients to men in prison incorporates cross disciplinary perspectives on and examinations of men gender and gender relations gives comprehensive coverage of diverse cultural and historical formations of masculinity and the bodies of scholarship that have documented them The Encyclopedia of Men and Masculinities is composed of over 350 free standing entries written from their individual perspectives by eminent scholars in their fields Entries are organized alphabetically for general ease of access but also listed thematically at the front of the encyclopedia for the convenience of readers with specific areas of interest

**Young People, Place and Identity** Peter E. Hopkins, 2013-05-13 Young People Place and Identity offers a series of rich insights into young people s everyday lives What places do young people engage with on a daily basis How do they use these places How do their identities influence these contexts By working through common sense understandings of young people s behaviours and the places they occupy the author seeks to answer these and other questions In doing so the book challenges and re shapes understandings of young people s relationships with different places and identities The textbook is one of the first books to map out the scales themes and sites engaged with by young people on a daily basis as they construct their multiple identities The scales explored here include the body neighbourhood and community mobilities and transitions and urban rural settings and how these all shape and are shaped by young people s identities Each chapter explores how social identities such as race gender sexuality class disability and religion are constructed within particular contexts and influenced by multiple processes of inclusion and exclusion These discussions are supported by details of the research methods and ethical issues involved in researching young people s lives Drawing upon research from a range of contexts including Europe North America and Australasia this book demonstrates the complex ways in which young people creatively shape contest and resist their engagements with different places and identities The range of issues topics and case studies explored include ethical and methodological issues in youth research youth subcultures experiences of home territorialism youth and crime political engagement and participation responses to global issues engagements with different institutional contexts negotiating public space the transition to adulthood drinking cultures The author explores these issues through blending together original empirical research theory and policy Individual chapters are supported by key themes project ideas and suggested further reading Details of key authors journals and research centres and organisations are also included at the end of the book This textbook will be pertinent for undergraduate and postgraduate students and academic researchers interested in better understanding the relationships between young people places and identities

**Global Childhoods** Stuart Aitken, 2013-09-13 This astute book initiates a broad discussion from a variety of different disciplines about how we place children nationally globally and within development discourses Unlike other books of its kind it does not seek to dwell solely on the abiding complexities of local comparisons Rather it elaborates larger concerns about the changing nature of childhood young people s experiences

their citizenship and the embodiment of their political identities as they are embedded in the processes of national development and globalization In particular this book concentrates on three main issues nation building and developing children child participation and activism in the context of development and globalization and children s live in the context of what has been called the end of development These are relatively broad research perspectives that find focus in what the authors term reproducing and developing children as a key issue of national and global concern They further argue that understanding children and reproduction is key to understanding globalization Rethinking Maps Martin Dodge,2011-06-02 Rethinking Maps brings together leading researchers to explore how maps are being rethought made and used and what these changes mean **Places Through the Body** Heidi Nast,Steve Pile,2005-08-12 This exciting collection from a leading team of international contributors interprets the symbolic and material relationships between places and bodies **Children and their Urban Environment** Claire Freeman,Paul Tranter,2012-10-02 In our fast changing urban world the impacts of social and environmental change on children are often overlooked Children and their Urban Environment examines these impacts in detail looking at the key activities spaces and experiences children have and how these can be managed to ensure that children benefit from change The authors highlight the importance of planners architects and housing professionals in creating positive environments for children and involving them in the planning process They argue that children s lives are becoming simultaneously both richer and more deprived and that despite apparently increasing wealth disparities between children are increasing further Each chapter includes international examples of good practice and policy innovations for redressing the balance in favour of child supportive environments The book seeks to embrace childhood as a time of freedom social engagement and environmental adventure and to encourage creation of environments that better meet the needs of children The authors argue that in doing so we will build more sustainable neighbourhoods cities and societies for the future Global Childhoods beyond the North-South Divide Afua Twum-Danso Imoh,Michael Bourdillon,Sylvia Meichsner,2018-10-29 This book explores children s lives across the Global North and Global South in the context of academic discussions of childhoods The edited volume offers a unique selection of materials suitable for teaching in the areas of children childhoods young people families and education in a global context as well as specific aspects of international development and social policy While the focus of the project is conceptual rather than practical the holistic understanding of childhoods that it encourages should also enable practitioners to better ensure that they are improving the lives of the children **Blood Relations** Jes Battis,2015-01-27 The television series Buffy and Angel revolve around radical conceptions of family Indeed their coherence depends on the establishment of nontraditional families that admit vampires demons witches werewolves and other bizarre characters without censoring them for their peculiarities This work argues that what makes these characters enduring and engaging is their critical family connections for their most involved struggles occur not within the graveyard but around the dinner table just as the most challenging adversarial forces

that they must face are not demons or vampires but the stuff of everyday life. What does family encompass within these two series? How does it relate to concepts of gender, sexuality, power, and the supernatural as they emerge from the shows' complex narratives? This book explores such questions. It also examines the chosen family, an idea marketed specifically by successful programs such as *Friends* and *Sex in the City* within the past ten years, juxtaposing it against various images of the fractured biological family displayed in both *Buffy* and *Angel*. Through eight chapters addressing various family-related aspects within both shows, this work plots the trajectory of this unstable notion of family even as it is transformed, remediated, and rendered unrecognizable from a family-values perspective by the unique and supernatural relationships that proliferate in *Buffy* and *Angel*.

*Genocide and the Geographical Imagination* James A. Tyner, 2012 This groundbreaking book brings an important spatial perspective to our understanding of genocide through a fresh interpretation of Germany under Hitler, Cambodia under the Khmer Rouge, and China's Great Leap Forward famine under Mao. James A. Tyner's powerful analysis of these horrifying cases provides insight into the larger questions of sovereignty and state policies that determine who will live and who will die. Specifically, he explores the government practices that result in genocide and how they are informed by the calculation and valuation of life and death.

A geography *People and Place* Lewis Holloway, Phil Hubbard, 2014-01-14 An innovative introduction to Human Geography exploring different ways of studying the relationships between people and place and putting people at the centre of human geography. The book covers behavioural, humanistic, and cultural traditions, showing how these can lead to a nuanced understanding of how we relate to our surroundings on a day-to-day basis. The authors also explore how human geography is currently influenced by postmodern ideas stressing difference and diversity. While taking the importance of these different approaches seriously as ways of thinking about the role of place in people's everyday lives, the book also tries to encapsulate what has been so vibrant and exciting about human geography over the last couple of decades. By using examples to which students can relate, such as how they imagine and represent their home, the way they avoid certain spaces, how they move through retail spaces where they choose to go to university, how they use the Internet, how they represent other nations, and so on, the authors show how geography shapes everyday life in a manner that is seemingly mundane yet profoundly important.

*Building the City* Mark Jayne, Wu Siying, Wu Chenhui, 2025-09-23 *Building the City* elaborates new critical insights into the everyday lives of migrant workers in cities around the world. The book offers complementary blending of longstanding political, economic, accounts of migration, gender, labour, and urban life alongside advances in feminist, postcolonial, post-structural, materialist, and more-than-representational theories. Drawing on these critical resources, the authors explore the complexities of migrants' everyday past, present, and future lives. More specifically, they interrogate diverse and heterogeneous connections between work, domestic, and family times and spaces, as well as foregrounding new theoretical and empirical terrain regarding consumption, pleasure, leisure, fashioned sexual identities, and digital lives within and beyond cities. Premised on ethnographic research undertaken in cities across China, the authors

develop a detailed relational comparative dialogue with the most up to date international interdisciplinary research This critically challenging yet engaging and accessible research monograph provides an excellent resource for scholars at all career stages as well as undergraduate and postgraduate students in diverse disciplines including anthropology cultural studies economics management organisation and business studies human geography planning political science sociology and urban studies

*Researching Children's Popular Culture* Claudia Mitchell,Jacqueline Reid-Walsh,2005-06-29 The place of childhood in popular culture is one that invites new readings both on childhood itself but also on approaches to studying childhood Discussing different methods of researching children s popular culture they argue that the interplay of the age of the players the status of their popular culture the transience of the objects and indeed the ephemerality and long lastingness of childhood all contribute to what could be regarded as a particularized space for childhood studies and one that challenges many of the conventions of doing research involving children

*Rematerialising Children's Agency* Matej Blazek,2016-06-01 This book is a detailed study of children s everyday practices in a small deprived neighbourhood of post socialist Bratislava called Kop any It provides a novel empirical insight on what it is like to be growing up after 25 years of post socialist transformations and questions the formation of children s agency and the multitude of resources it comes from What happens if we accept children s practices as cornerstones of communities What is uncovered if we examine adults co presence with children in everyday community spaces With a background in youth work the author writes from the unique position of being able to develop in depth insights into both children s life worlds and practitioners priorities and needs

**Geographies of Children, Youth and Families** Louise Holt,2010-12-21 This edited collection brings together international experts from the vibrant and growing field of geographies of children youth and families Designed as an introduction to the topic this book provides an overview of current conceptual and theoretical debates surrounding geographies of children youth and families and gives a wide range of examples of cutting edge research from a variety of national contexts across the globe The theme of disentangling the socio spatial contexts of young people and or their families advances debates in the field by emphasising the context of young people s social agency Geographies of Children Youth and Families is an invaluable course text for undergraduate and postgraduate students of geography and the social sciences as well as being of interest to students and practitioners of education youth work social policy and social work

*Geographies of Young People* Stuart C. Aitken,2001 Anxieties over children s safety or teenage propensities towards violence and sex have precipitated a moral panic in a large swathe of our society This provocative work traces the changing scientific and societal notions of what it is to be a young person and argues that there is a need to rethink how we view childhood spaces child development and the politics of growing up The book challenges popular myths that evoke general notions of childhood as a natural stage in the development towards adulthood and offers alternative theories that value the embodiment and local embeddedness of young people
