**The Art of the Network** Paul D. McLean, 2007-12-07 Writing letters to powerful people to win their favor and garner rewards such as political office tax relief and recommendations was an institution in Renaissance Florence the practice was an important tool for those seeking social mobility security and recognition by others In this detailed study of political and social patronage in fifteenth century Florence Paul D McLean shows that patronage was much more than a pursuit of specific rewards It was also a pursuit of relationships and of a self defined in relation to others To become independent in Renaissance Florence one first had to become connected With The Art of the Network McLean fills a gap in sociological scholarship by tracing the historical antecedents of networking and examining the concept of self that accompanies it His analysis of patronage opens into a critique of contemporary theories about social networks and social capital and an exploration of the sociological meaning of culture McLean scrutinized thousands of letters to and from Renaissance Florentines He describes the social protocols the letters reveal paying particular attention to the means by which Florentines crafted credible presentations of themselves The letters McLean contends testify to the development not only of new forms of self presentation but also of a new kind of self to be presented an emergent modern conception of self as an autonomous agent They also bring to the fore the importance that their writers attached to concepts of honor and the ways that they perceived themselves in relation to the Florentine state

*Binding Passions* Guido Ruggiero, 1993-06-10 Mining the rich Venetian archives especially the unusually detailed records of Venice's own branch of the Roman Inquisition Guido Ruggiero provides a strikingly new and provocative interpretation of the end of the Renaissance in Italy In this boldly structured work he develops five narrative accounts of individual encounters with the

Inquisition that illustrate the double edged metaphor of how passions were both bound by late Renaissance society and were seen in turn as binding people In this way new perspectives are opened on magic witchcraft love marriage gender and discipline at the level of the community and beyond Witches courtesans prostitutes women healers nobles Cardinals and renegade priests and monks speak from these pages describing their lives beliefs hopes fears and lies With an imaginative flair for storytelling and impeccable scholarship Ruggiero exposes the rich complexity of the culture and poetics of the everyday at the end of the Renaissance and illuminates a previously unexplored chapter in Italian history     *The*  
*Confederate Belle* Giselle Roberts,2003 While historians have examined the struggles and challenges that confronted the Southern plantation mistress during the American Civil War until now no one has considered the ways in which the conflict shaped the lives of elite young women otherwise known as belles In *The Confederate Belle* Giselle Roberts uses diaries letters and memoirs to uncover the unique wartime experiences of young ladies in Mississippi and Louisiana In the plantation culture of the antebellum South belles enhanced their family s status through their appearance and accomplishments and later by marrying well During the American Civil War a new patriotic womanhood superseded the antebellum feminine ideal It demanded that Confederate women sacrifice everything for their beloved cause including their men homes fine dresses and social occasions to ensure the establishment of a new nation and the preservation of elite ideas about race class and gender As menfolk answered the call to arms southern matrons had to redefine their roles as mistresses and wives Southern belles faced a different yet equally daunting task After being prepared for a delightful bellehood young ladies were forced to reassess their traditional rite of passage into womanhood to compromise their understanding of femininity at a pivotal time in their lives They found themselves caught between antebellum traditions of honor and of gentility a binary patriotic feminine ideal and wartime reality BOOK JACKET Book jacket
