Family Law Harry D. Krause, 2007-01-01 Family Law Harry D. Krause, David D. Meyer, 2009 Softbound New softbound print book **Family Law** Linda S. Tengan, 2000 **Family Law** Harry D. Krause, 1900 *Family law. Cases, comments and questions. 2. Ed* Harry D. Krause, 1983 **Thermonuclear Monarchy: Choosing Between Democracy and Doom** Elaine Scarry, 2014-02-24 From one of our leading social thinkers a compelling case for the elimination of nuclear weapons During his impeachment proceedings Richard Nixon boasted I can go into my office and pick up the telephone and in twenty five minutes seventy million people will be dead Nixon was accurately describing not only his own power but also the power of every American president in the nuclear age Presidents Eisenhower Kennedy Johnson and Nixon each contemplated using nuclear weapons Eisenhower twice Kennedy three times Johnson once Nixon four times Whether later presidents from Ford to Obama considered using them we will learn only once their national security papers are released In this incisive masterfully argued new book award winning social theorist Elaine Scarry demonstrates that the power of one leader to obliterate millions of people with a nuclear weapon a possibility that remains very real even in the wake of the Cold War deeply violates our constitutional rights undermines the social contract and is fundamentally at odds with the deliberative principles of democracy According to the Constitution the decision to go to war requires rigorous testing by both Congress and the citizenry when a leader can single handedly decide to deploy a nuclear weapon we live in a state of thermonuclear monarchy not democracy The danger of nuclear weapons comes from potential accidents or acquisition by terrorists hackers or rogue countries But the gravest danger comes from the mistaken idea that there exists some case compatible with legitimate governance There can be no such case Thermonuclear Monarchy shows the deformation of governance that occurs when a country gains nuclear weapons In bold and lucid prose Thermonuclear Monarchy identifies the tools that will enable us to eliminate nuclear weapons and bring the decision for war back into the hands of Congress and the people Only by doing so can we secure the safety of home populations foreign populations and the earth itself Family Law Harry D. Krause, 1993 *Family Law Reimagined* Jill Elaine Hasday, 2014-06-30 This is the first book to explore the canonical narratives stories examples and ideas that legal decisionmakers invoke to explain family law and its governing principles Jill Elaine Hasday shows how this canon misdescribes the reality of family law misdirects attention away from actual problems family law confronts and misshapes policies Cases, Problems, and Materials on Payment Systems Peter A. Alces, Marion W. Benfield, 1993 Marriage at the Crossroads Marsha Garrison, Elizabeth S. Scott, 2012-10-15 The institution of marriage is at a crossroads Across most of the industrialized world unmarried cohabitation and nonmarital births have skyrocketed while marriage rates are at record lows These trends mask a new idealized vision of marriage as a marker of success as well as a growing class divide in childbearing behavior the children of better educated wealthier individuals continue to be born into relatively stable marital unions while the children of less educated poorer individuals are

increasingly born and raised in more fragile nonmarital households The interdisciplinary approach offered by this edited volume provides tools to inform the debate and to assist policy makers in resolving questions about marriage at a critical juncture Drawing on the expertise of social scientists and legal scholars the book will be a key text for anyone who seeks to understand marriage as a social institution and to evaluate proposals for marriage reform

Family Life, Family Law, and Family Justice Marsha Garrison, 2022-10-28 Family Life Family Law and Family Justice Tying the Knot combines history social science and legal analysis to chart the evolution and interdependence of family life and family law portray current trends in family life explain the pressing policy challenges these trends have produced and analyze the changes in family law that are essential to meeting these challenges The challenges are large and pressing Across the industrialized West nonmarital birth relational stress multi partner fertility and relationship dissolution have increased producing a dramatic rise in single parenthood poverty and childhood risk This concentration of familial and economic risk accelerates socioeconomic inequality and retards intergenerational mobility Although the divide is most pronounced in the United States the same patterns now affect families throughout the Western world Across the European Union there are 9.2 million lone parents and just under half of their families live in poverty Tying the Knot demonstrates how today's family patterns are deeply rooted in long standing class based differences in family life and explains why these class based differences have accelerated It explains how the values that guide family law development inevitably reflect the world in which families live and develops a new family law capable of meeting the needs of twenty first century families The book will be of considerable interest to family specialists from a number of fields including law demography economics history political science public health social policy and sociology

Marriage Proposals Anita Bernstein, 2008-12-01 The essays in Marriage Proposals envision a variety of scenarios in which adults would continue to join themselves together seeking permanent companionship and sustenance linking sexual intimacy to a long commitment usually caring for each other and building new families What would disappear are the legal consequences associated with marriage No joint income tax return no immigration privileges like the fiancé visa or the right to bring in a husband or wife no special statuses for prison visits or hospital decisions no prerogative to remain silent in court by claiming confidential marital communications no pension entitlements no marital benefits and detriments regarding criminal or civil liability The anthology makes a unique contribution amid the two marriage furors of the day same sex marriage and the Bush Administration's marriage movement that marrying is good and more marriages would be better for society Abolishing the legal category of marriage is the only policy suggestion in current American discourse that speaks to both causes Activists on both sides of the same sex marriage fight along with marriage movement partisans all seek improvement through law reform Marriage Proposals gives them a viable reform abolition of marriage as a legal status for fighting battles in the courtroom and the streets Contributors include Anita Bernstein Peggy Cooper Davis Martha Albertson Fineman Linda C McClain Marshall Miller Lawrence Rosen Mary Lyndon Shanley and Dorian Solot
