Family Romance The Deakins At Home:

Family Romance John Rickard, 2015-09-08 A Family Romance is the story of the family of Alfred Deakin Australia s first elected Prime Minister In this intriguing book John Rickard explores the complex web of relationships between Alfred his wife Pattie and his sister Catherine The Deakin family romance is permeated by the influence of spiritualism which in extraordinary circumstances brought Alfred and Pattie together and which was to haunt their marriage It is a tale which with its Gothic overtones has the character of a novel but which in its telling poses guestions about the nature of biography How can we bring to life the emotional world inhabited by such a family or must that territory be conceded to the novelist John Rickard beautifully evokes the life of a middle class Australian family at the turn of the century and gives us the untold story behind the public achievements of great man Clio's Lives Doug Munro, John G. Reid, 2017-10-09 Including contributions from leading scholars in the field from both Australia and North America this collection explores diverse approaches to writing the lives of historians and ways of assessing the importance of doing so Beginning with the writing of autobiographies by historians the volume then turns to biographical studies both of historians whose writings were in some sense nation defining and those who may be regarded as having had a major influence on defining the discipline of history The final section explores elements of collective biography linking these to the formation of historical networks A concluding essay by Barbara Caine offers a critical appraisal of the study of historians biographies and autobiographies to date and maps out likely new directions for future work Clio's Lives is a very good scholarly collection that advances the study of autobiography and biography within the writing of history itself taking theoretical questions in significant new directions The contributors are well known and highly respected in the history profession and write with an insight and intellectual energy that will ensure the book has considerable impact They examine cutting edge issues about the writing of history at the personal level through autobiography and biography in diverse and innovative ways Together the writers have provided reflective chapters that will be widely read for their impressive theoretical advances as well as being inspirational for new entrants to the disciplinary area Patricia Grimshaw University of Melbourne Clio's Lives brings together a most interesting and varied cast of contributors Its chapters contain sophisticated and well penned ruminations on the uses of biography and autobiography among historians These are clearly connected with the general themes of the volume This delightfully mixed bag makes very good reading and as well will serve as a substantial contribution to the study of the biography and autobiography Eric Richards Flinders University Australian Liberals and the Moral Middle Class Judith Brett, 2003-11-06 The Liberal Party of Australia was late to form in 1945 but the traditions and ideals upon which it is founded have been central to Australian politics since Federation This 2003 book by award winning author and leading Australian political scientist Judith Brett provides the very first complete history of the Australian liberal tradition and then of the Liberal Party from the second half of the twentieth century The book sparkles with insight particularly in its sustained analysis of the shifting relationships

between the experiences of the moral middle class and Australian liberals own self understandings It begins with Alfred Deakin facing the organised working class in parliament and ends with John Howard electorally triumphant but alienated from key sections of middle class opinion This book is destined to become the definitive account of Australian liberalism and Studies in Australian Political Rhetoric John Uhr, Ryan Walter, 2014-09-01 This edited of the Liberal Party of Australia collection includes eleven major case studies and one general review of rhetorical contest in Australian politics The volume showcases the variety of methods available for studying political speech including historical theoretical institutional and linguistic analyses and demonstrates the centrality of language use to democratic politics.
